

Closing The Gap

Solutions

February / March, 2021
Volume 39 - Number 6

ANNUAL RESOURCE DIRECTORY

2021

Edition

A guide to the latest assistive technology products for children and adults with disabilities. It is the culmination of an extensive search for the latest software, hardware and other assistive technology products that are on the market today, as well as their producers.

EDITOR'S NOTE: There is no charge for inclusion in the Resource Directory. Listings are based on editorial questionnaires, phone interviews and materials provided by producers. Listings are not advertisements nor is their inclusion in the Directory an endorsement or guarantee by Closing The Gap. Descriptions are edited materials submitted by producers. They are not product reviews. Information provided is as current as possible at publication time.

Helping every student

do their best work with Google accessibility solutions

LAURA ALLEN, is the Head of Strategy for Accessibility and Disability Inclusion at Google. She works cross-functionally across teams to improve the accessibility and usability of Google products and processes, and to make Google a more accessible and inclusive place for people with disabilities. Due to her personal experience with low vision, she believes that technology has more power now than ever to transform lives, and progressing accessibility and disability inclusion is her true passion.

Prior to her role as Head of Strategy, Laura was the Senior Accessibility Program Manager for the Chrome and Chrome OS teams at Google. For 6.5 years, she collaborated with engineers, designers, product managers, and researchers to make the Chrome family of products accessible and usable across platforms, for people of all abilities.

She also leads various accessibility workshops and trainings around the United States for teachers of the visually impaired, advocacy organizations, and special education classrooms. In addition, Laura helps to manage Google's presence at major accessibility conferences, as she believes that connecting with the community and gathering hands-on feedback is critical. Laura also represents Google in the Teach Access organization, where various technology companies, higher education institutions, and disability advocacy organizations come together to drive the inclusion of accessibility in core computer science, design, and human centered interaction programs. As of 2020, she serves as the Chair of the Teach Access Executive Committee. Since 2017, Laura has also served on the board of directors for the San Francisco Lighthouse for the Blind and Visually Impaired. As of June 2020, she serves on the board of the Alphapointe Foundation, an organization centered around empowering individuals who are visually impaired to achieve their goals and aspirations and gain meaningful employment.

Prior to her role in accessibility, Laura worked as an Account Manager in Google's Large Customer Sales division where she advised business-to-business technology companies on their advertising and marketing strategies. For her undergraduate education, Laura studied International Business, Marketing, and Music at Georgetown University. She is also undergoing an Executive Leadership graduate program at Stanford University through spring 2021.

INTRODUCTION

Every student and educator, in every learning environment, deserves access to the tools and skills they need to succeed academically and build the future they want—inclusive of their needs and learning styles.

There are 93 million children living with a disability worldwide, according to UNICEF. “Many are invisible, hidden by their families and abandoned by their governments. We believe that regardless of ability, all children have a right to reach their full potential,” UNICEF says. In addition to those with diagnosed disabilities, there are many students who may not have a defined disability, including those with specific learning disabilities. For this group as well, accessibility solutions can help them achieve their full potential.

HOW EVERYONE BENEFITS

When everyone can participate fully in learning—with each person bringing their own unique skills, talents, and perspectives to the table—everyone benefits:

- **Students** gain access to the tools to express themselves in ways that work for them, and can collaborate more freely and easily with peers and educators.
- **Educators** are empowered with tools and features that allow more time for student instruction, and benefit from using the tools themselves.
- **IT teams** can reduce technical support calls with built-in accessibility features that are intuitive and easy to set.
- **Parents, guardians and families** can support students learning from wherever they are, and continue the learning at home.

In this article, we'll share many of the accessibility features that are built into Google for Education solutions such as Chromebooks and G Suite for Education.

MAKING THE WORLD'S INFORMATION MORE ACCESSIBLE

Google strives to make the world's information universally accessible to everyone, including all learners, in every classroom. We do this with built-in accessibility features that let students and educators personalize their learning tools, and that create inclusive learning environments so students can learn individually and as a group. Our accessibility features help educators forge strong connections with students while encouraging students to learn in a collaborative fashion. We're committed to continuing to offer powerful accessibility features across our products, including Android, Assistant, G Suite, Chromebooks, and more, that help everyone access information in a way that works for them.

FEATURES AND CAPABILITIES

Educators can empower and enable learning, by building expertise in using technology to address every student's needs. And by giving all students equal access to tools and capabilities that can help them learn at their best, we can all work to close the accessibility gap. At Google, accessibility is a core value: we believe in organizing the world's information and making it universally accessible and useful. That's why tools like Chromebooks and G Suite for Education are built with every learner in mind.

The accessibility features in Chromebooks and G Suite for Education run the gamut from tools for visual support, features that help students with reading comprehension, and captioning to help students better understand audiovisual presentations—as well as tools to help IT administrators manage accessibility settings. Below is a selection of some of the newest features for accessibility, including

colors and shading that help students read and navigate when online; use captioning for better comprehension during live classes; and tools for students who are blind or low vision.

VISUAL SUPPORT

Choose colors for cursors on Chromebooks. Choosing different colors for cursors can help students better navigate text and webpages. Students can choose from seven colors—red, yellow, green, cyan, blue, magenta and pink—in addition to black. They can also increase the cursor size for even more visibility. The cursor-size tool can be accessed in the “mouse and touchpad” section of Settings on Chromebooks.

Use high-contrast mode for easier reading. Turn on high-contrast mode in G Suite for Education tools or on Chromebooks to invert screen colors. This can be very helpful for students with visual impairments, especially those with light sensitivity.

AUDIO AND CAPTIONS

Live captioning in Google Meet. When students attend a Meet session, such as a live class with teachers, they can choose to turn on captioning to improve comprehension. This is especially helpful for students who are Deaf or hard of hearing. Captions are available in English, as well as Spanish, French, German and Portuguese.

Closed captioning in Google Slides. Just as captioning in Meet can help students who are Deaf or hard of hearing, captions in Google Slides can improve students’ understanding of content. With this feature, everything that students and teachers say during a presentation in Slides can be shown as a caption on viewers’ screens. You can customize where the captions appear, as well as the size of the text.

SCREEN READING SUPPORT

Tools for improving reading ability are easy to access in both Chromebooks and in G Suite for Education. On Chromebooks, students can turn on the built-in screen reader called ChromeVox, which helps people with visual impairments to use the Chrome operating system with audio spoken feedback or braille. Chromebooks also offer Select-to-speak, which can read specific text or sections of the screen out loud.

Shade background text when using Select-to-speak. When students use [Select-to-speak](#) to hear text read aloud, they can add shading to background text that is not being spoken aloud. It’s a useful feature for students with low vision or learning disabilities such as dyslexia. The shaded-text feature can be enabled in Chromebooks’ Select-to-speak settings.

Listen in different languages. The [ChromeVox](#) Voice Switching feature built into Chromebooks automatically changes the screen reader’s voice based on the language of the text being read, which is helpful for students when pages contain multiple languages.

Better Braille support in Google Docs. Students who are blind or with low vision can use a Braille display to read and edit documents, spreadsheets, presentations, and drawings. Throughout 2020, Google made several improvements to Braille support in Google Docs, including keyboard shortcuts, faster typing echo and screen reader navigation, and improved handling of punctuation and spaces. Read more about recent Braille improvements in [this Google blog post](#).

Export more accessible PDFs in Chrome. Students and educators can export websites as tagged PDFs in the Google Chrome browser on any device, including Chromebooks. The ability to export content to PDFs, complete with auto-generated headings, links, tables and alt-text, are a boon for people who are low vision or blind, since they are easier to access with a screen reader.

ALTERNATIVE INPUTS

Switch access for Chromebooks. Navigating around a screen can be difficult for students with motor and dexterity challenges. With [Switch Access](#), students can use external devices connected via Bluetooth or USB, or the built-in keyboard to scan options and choose them by pressing a button.

Going hands-free in G Suite for Education. Students can use voice commands to carry out actions such as navigating, selecting, writing and editing in Google Docs, sending emails in Gmail, and joining or leaving Google Meets.

ADMINISTRATOR AND EDUCATOR FEATURES

Accessibility features available in kiosk mode. Administrators can place Chromebooks into [kiosk mode](#), so that exam apps can run in full-screen mode on a device. When using kiosk mode for testing, Chromebook accessibility features are readily available and customizable, including screen readers and magnification. In addition, some testing providers allow access to third-party accessibility tools from Google partners such as Don Johnston and Texthelp.

Helpful accessibility apps on the App Hub. The [Chromebook App Hub](#) is a useful resource for admins looking for accessibility apps for their schools and review data policies. An ideas carousel offers inspiration for new and creative apps to try.

PARTNERS CREATE CHROME EXTENSIONS AND APPS FOR ACCESSIBILITY

Google has partners that understand how to develop technology tools that foster accessibility. Most of the tools take the form of extensions that can be added to the Chrome browser for additional functionality. In most educational settings, IT administrators can push out extensions for users of enrolled Chromebooks; educators can also request extensions that can help students. There are many accessibility tools found on the [Chromebook App Hub](#):

Don Johnston: The company builds tools for people with all types of learning styles and abilities. Their core products are Co:Writer for word prediction, translation, and speech recognition; Snap&Read for reading accommodations, PDF annotation, translation, and study tools; and Quizbot, an automatic quiz generator for Google and Google Forms.

Texthelp: Texthelp provides literacy and learning software tools to support students with reading, writing, math, and language learning, including EquatIO for typing, writing, or dictating equations, formulas, and graphs; Fluency Tutor for making reading aloud more fun and satisfying for students learning or struggling to read; and Read&Write, which makes documents, PDFs and files more accessible, especially for students with dyslexia.

Here are even more accessibility apps and extensions:

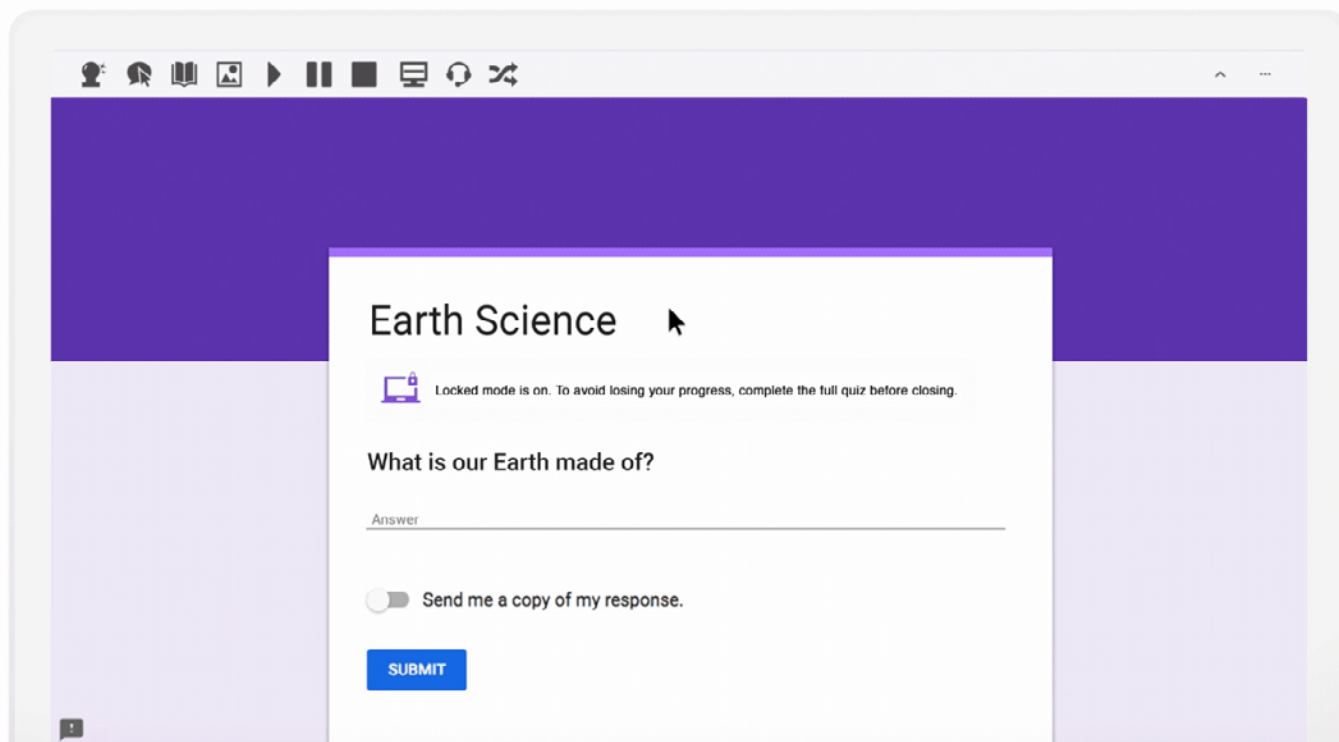

- **Clicker Communicator** from Crick Software: One of the first augmentative and alternative communication (AAC) apps specifically created for Chromebook users.
- **Capti Voice:** Reading support tool with a Classroom integration which allows teachers to accommodate different learning needs and make tests accessible to more students.
- **Grackle Docs:** Create accessible Google Docs and PDFs with Grackle Docs.
- **Stay Focused:** Limits time spent on websites—helpful for students with ADHD.
- **MagicScroll Web Reader:** Allows readers to scroll websites in the same way they read books, helping to maintain focus.
- **Beeline Reader:** Reduces eye strain, assists with eye tracking, and offers a dyslexic-friendly font.
- **Dualless:** Splits screen on a Chromebook like a dual monitor to help students improve their focus.

HOW STUDENTS AND SCHOOLS USE GOOGLE ACCESSIBILITY TOOLS

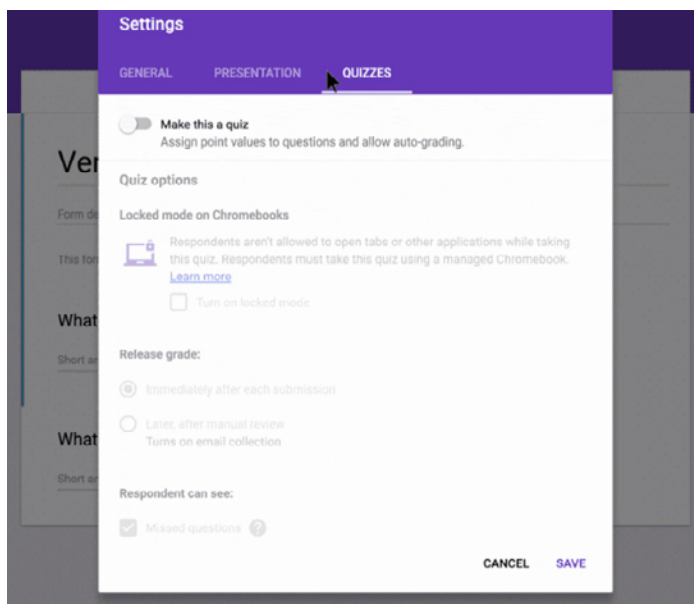

Around the world, students and educators are adopting accessibility solutions to learn with confidence and collaborate in an inclusive learning environment—like the students below.

GAINING CONFIDENCE IN READING SKILLS

Mikael, a 7th-grader, has dyslexia and mild visual impairment. He uses the screen magnifier on his Chromebook to enlarge images and

Dyslexic font in Google Docs

Don Johnson: Locked mode

Clicker Communicator by Cricksoft

text when required. Using [Open Dyslexic Font](#), a Chrome extension, he converts text on websites he visits to a dyslexic-friendly typeface that's easier to read.

With the [Color Enhancer extension](#) for Chrome, Mikael improves the visibility of web content he's viewing. During group activities, he uses the [Snap&Read Chrome app](#) from Don Johnston to read background web pages. The app reads the written content aloud, and even dynamically adjusts the vocabulary to suit his comprehension.

ASSISTANCE FOR READING AND WRITING AFTER AN INJURY

When Rochelle, a 9th-grader, fractured two fingers and a forearm bone after a vacation accident, her arm was in a cast. Because she had limited use of her hand and arm, she used voice-controlled typing in Google Docs. To navigate around her Chromebook, where some features required her to press keys simultaneously, Rochelle used the "sticky keys" feature, allowing shortcut keys to be typed in sequence, without pressing multiple modifier keys at the same time.

MAINTAINING FOCUS WHILE LEARNING REMOTELY

When Kira, a 6th-grader, signs in on her Chromebook at home, all her personalization settings are automatically applied so she can get straight to work. She manages her tendency to get distracted by negotiating which apps she can use during the day—her mother can manage app access through [Family Link](#), which helps families set digital ground rules to help guide students as they explore online. If there are distractions while Kira is learning from home, she can turn on real-time captioning during live classes on Google Meet so she doesn't miss any part of the conversation.

HOW SCHOOLS USE ACCESSIBILITY TOOLS

RAIGMORE PRIMARY SCHOOL, INVERNESS, SCOTLAND

Raigmore's Primary 6 students pitched in to help Primary 2 students learn to sing "Over the Rainbow" for a school assembly. The older pupils noticed that one of the younger children was non-verbal and couldn't sing along. The younger students had been learning some Makaton sign language to communicate with their classmates, so the group devised a plan to also "sing" in Makaton.

To speed up the learning, students used the front-facing cameras on their Chromebooks to play Makaton YouTube videos while watching their hand signs on screen. This way, they were able to improve their movements by watching themselves practice Makaton signs in real time. Other pupils recorded themselves signing using the Flipgrid app from Microsoft, and watched the videos to further refine their signing.

During the performance, the young students both sang and signed "Over the Rainbow" along with their non-verbal classmates. "They all went with Makaton for that one child," explained their teacher, David Crooks. "The child was able to be included, and felt that they'd contributed something to the assembly, instead of just standing with classmates."

UPPER GRAND DISTRICT SCHOOL BOARD, ONTARIO, CANADA

With about 15 percent of its students identified as those with special needs, Upper Grand wanted to invest in resources to help students with disabilities reach their full academic potential. To find more flexible and budget-friendly classroom tools, Upper Grand tested several laptops and tablets, including Chromebooks. With built-in accessibility tools like high-contrast mode and spoken feedback, Chromebooks offered far more choices to teachers seeking to personalize students' learning experiences.

The district initially purchased 3,500 Chromebooks for students with disabilities. Upper Grand DSB now has 20,000 Chromebooks, primarily for K-8 students. Students with disabilities can also take their Chromebooks home.

Access fonts to improve speed reading in Google Docs

Access fonts to improve speed reading in Google Docs

Teachers now have many more tools to help students overcome their unique learning challenges. Students can use voice typing with Google Docs if they have motor-skills issues; teachers can use the commenting feature in Google Docs to check on student progress and guide them in completing lessons. Other built-in accessibility features like ChromeVox, a built-in screen reader for the visually impaired, and support for devices like Braille displays, help students with disabilities achieve more.

The district can now buy 100 Chromebooks for the price of 30 of the previous laptops. Trading offline text-to-speech software for the [Read&Write Chrome extension from Texthelp](#) also saved money, with the cost of 10 of the previous licenses being the same as a district-wide Read&Write license.

LEARN MORE ABOUT GOOGLE AND ACCESSIBILITY: HELP FOR EDUCATORS AND FAMILIES

Every student deserves to reach their full potential. With help from dedicated educators and flexible accessibility solutions, students can gain the confidence to work independently, express themselves in a way that works for them, and collaborate freely with educators and peers.

Can Eye Gaze Technology Improve Visual Skills and Participation with Children Who Have Cortical / Cerebral Visual Impairment?

Eye gaze technology is an emerging form of assistive technology that has previously been used both for assessment and intervention of children and adults with visual, motor, and/or communication difficulties (Borgestig & Hemmingsson, 2017; Borgestig, Sandqvist, Ahlsten, Falkmer, & Hemmingsson, 2017; Karlsson, Allsop, Dee-price, & Wallen, 2017; Karlsson et al., 2018; Masayko & McGowan, 2018). Frequently eye gaze technology is used as an access method for communication or environmental control using a dedicated speech generating device (SGD) or AAC (alternative and augmentative communication) device.

Eye gaze technology consists of an infrared camera that is placed at the bottom of a laptop or tablet screen with the user positioned facing the screen. The camera detects the eye movements of the user and can select items on the screen based on where their gaze is located, as well as collect data on the location and duration of their gaze (Masayko & McGowan, 2018). This allows for assessment in areas such as oculomotor control and visual functions (Kooiker et al., 2016).

In a study done by Kooiker et al. (2016), an eye tracking device was compared to the standard visual function assessments used by optometrists, ophthalmologists, and orthoptists. The researchers found the technology could measure vision just as well as the standard assessments and even offered some advantages, including sensitivity to some variables the standard assessments typically missed. This study shows the ability of eye gaze technology to obtain accurate information about visual behaviors in children (Kooiker et al., 2016).

In 2019, a study was performed using eye gaze technology to assess the functional visual tasks of looking for a toy in a toy box and locating a specific person in a crowded hallway (Bennett et al., 2019). The researchers in this study created two virtual reality scenes depicting the tasks described above and used eye gaze technology to determine the participants' proficiency in these tasks. The participants included a control subject, a child with an ocular visual impairment, and a child with Cortical Visual Impairment. The scenes were each presented at times

TAMMY BRUEGGER, OTD, MSE, OTR/L, ATP. Tammy is an Assistant Professor in the Department of Occupational Therapy within Rockhurst University's College of Health and Human Services. She has been a practicing OT and AT practitioner for many years in the areas of vision, assistive technology, multiple disabilities, developmental disabilities, pediatric and adult neuro-rehabilitation. She has particular interest in access to literacy, complex learners/multiple disabilities, vision, cortical/cerebral visual impairment, sensory processing, motor learning, autism and universal design/accessibility in community settings. Occupational Therapy students who assisted with this article are: Megan Brush, OTS, Laurel Davis, OTS, Karra Kennedy, OTS, Brittany Rorhbach, OTs and Shelby Sutton, OTS, Rockhurst University.

with a low number of distractors and at other times with a high amount of distractors. Results were collected by a heat map or visual representation using colors indicating where the participants focused their gaze. This confirmed several characteristics known to be true about children with CVI, such as an increased difficulty locating items in the presence of distractors and the use of broader visual search strategies.

Eye gaze technology has also been used as an intervention tool in several studies (Borgestig & Hemmingsson, 2017; Borgestig et al., 2017; Karlsson et al., 2017; Karlsson et al., 2018; Masayko, & McGowan, 2018). In all of these studies, the technology was given to participants to use in their daily lives and incorporate into their typical activities. Participants in every study had disabilities such as cerebral palsy and all but one of the participants were children. The outcomes from these studies included improved activity repertoire and eye gaze performance on the technology itself; increased ADL participation, independence, and quality of life; improved communication skills; and goal attainment. In addition, parents of children who used the technology reported high rates of satisfaction, an improved ability to communicate with their children, and increased hope for their children's future.

Further research has used eye gaze technology as a quantitative measure and has applied this information to the design of alternative communication systems. A study done by Wilkinson, Neill, and McIlvane (2014) used ISCAN eye-tracking technology to record the point of gaze and latency in a visual search task with 2 different AAC screens. There were two groups that each had seven children without disabilities. In one condition, the symbols sharing a color were clustered in a group. In the other condition, the symbols sharing a color were dispersed across the screen. The study found that participants were quicker to fixate on targets when like-colored targets were closer together. The participants were also less likely to make errors and fixate on incorrect targets. When like-colored targets were spread apart, the opposite happened—participants were more likely to make mistakes and fixate on incorrect targets. The researchers believed this to be due to the increased complexity of the screen design when the like-colored targets were spread apart, making it more difficult for the children to fixate on the target. In addition, this study justifies the use of eye gaze technology as a quantitative measure in research (Wilkinson et al., 2014).

Although some of the children in the studies mentioned had CVI, many others had different types of visual impairments or other disabilities. There is a large gap in the literature when it comes to exploring the use of eye gaze technology with children who have CVI and especially whether this technology can help improve occupational performance. This article considers visual skills and uses eye gaze technology as an intervention to determine if both this and occupational performance can

be improved through the use of this technology (McDowell & Budd, 2018; Roman-Lantzy, 2007).

Cortical/cerebral visual impairment is a growing epidemic in the Western world. Studies have shown that anywhere from 18% to 48% of cases of significant vision loss or blindness in children are due to CVI. These rising rates may have to do with improved neonatal intensive care, which allows infants who have experienced events such as hypoxic ischemia to have a better chance of survival (Merabet, et. al., 2017). Although perinatal hypoxic ischemia is the most common cause of CVI, other causes include trauma; epilepsy; infections such as malaria; drugs or poisons; cerebral angiography [sic]; and other diseases, most often metabolic or neurological in nature (Baker-Nobles & Rutherford, 1995; Cohen-Maitre & Haerich, 2005). In all of these cases, damage occurs in areas of the brain that participate in higher-order visual processing, and this in combination with the visually guided motor impairments that are often also present in children with CVI, leads to a unique and varied presentation of symptoms (Merabet, et. al., 2017).

One symptom that is almost always present in children with CVI is decreased attention and processing of vision, and this is often accompanied by a decreased ability to see in all areas of the visual field, especially the lower fields. Abnormalities in motions of the eye itself may also be seen, such as limited ability to fixate or difficulty in tracking an object (Merabet, et. al., 2017). What most often characterizes children with CVI and helps lead to their diagnosis is a set of behavioral tendencies not typically seen in children with other kinds of visual impairment. Some examples of these characteristics include light gazing (staring at a light source) or photophobia (sensitivity to light), turning the head to use peripheral vision when looking at or reaching for an object, bringing objects close to the eyes to look at them, looking away from complex visual stimuli, and displaying an overall sensitivity to stimuli in their environment. Children with CVI have also been noted to be especially drawn to specific colors (most often red or yellow) and movement in their environment (Baker-Nobles & Rutherford, 1995; Cohen-Maitre & Haerich, 2005; Merabet, et. al., 2017).

Even with a proper diagnosis of CVI, it can be difficult for children to receive services based on the current definitions of blindness and visual impairment that are used to determine eligibility for services. The current definitions classify visual dysfunction based on visual acuity and visual field, which do not account for the visual processing symptoms present in CVI (Kran, Lawrence, Mayer & Heidary, 2019). Without these needed services, children with CVI will not likely improve their functional use of vision and may experience delays in their development (Kran et al., 2019). As a result, the children will likely experience decreased participation in their meaningful daily occupations secondary to significant visual impairment.

A recent research study at Rockhurst University was conducted using eye gaze technology with children who had cortical/cerebral visual impairment. The purpose of this study was to describe the occupational performance or daily activities and routines of children with CVI and to utilize eye gaze technology to assess and provide intervention for foundational visual skills (i.e., visual attention or noticing objects), then see how vision impacted their occupational performance or daily activities. Visual processing skills often occur in a hierarchical manner. Therefore, foundational skills such as visually attending to an image on the screen or noticing and locating an image occur first, then more complex visual processing occurs (Warren, 1993).

This study utilized both a descriptive case series and pre-post-test experimental component. The descriptive component was a case series design, and the experimental component was a pre-experimental, pre-post design. Occupational performance and satisfaction, CVI range scores and eye gaze technology software using visual attention (attention, quality, consistency, and reaction), and noticing images (ability, attention, reactions, accuracy, completion, and consistency) were used to measure the children's performance. The sample included five children (2 boys and 2 girls, one was unable to complete the study) with CVI from 0-6 years of age. Due to the Covid-19 pandemic, the setting of the study had to be adaptable. The descriptive portion of the study took place over Zoom video conferencing. The intervention portion of the study took place either at a preschool for children with visual impairments or in a local outpatient clinic in the Midwest. When setting up the location for the eye gaze in either the clinic or school setting, the environmental considerations such as lighting, sound, and visual distractions were adjusted for the best performance of the children.

The Canadian Occupational Performance Measure (COPM) was used to determine levels of performance and satisfaction in the occupation categories of self-care, leisure and productivity (Law, M., Carswell, A., Baptiste, S., McColl M.A., Polatajko, H., & Pollock, N., 2014). Parents of the children ranked their child's performance level and parent's satisfaction level with their performance in their top five occupational performance problem areas before and after using the eye gaze intervention. The Cortical Visual Impairment (CVI) Range was used as a functional vision assessment of the children as a pre-post measure. This CVI Range measures color preference, need for movement, visual latency, visual field preference, difficulties with visual complexities, light-gazing and non-purposeful gaze, difficulty with distance viewing, atypical visual reflexes, difficulty with visual novelty, and visually guided reach (Roman-Lantzy, 2007). The CVI Range has been established as a reliable measure to assess visual processing in the CVI population (Newcomb, 2010).

The Insight and Learning Curve software provided objective measurements of eye gaze behaviors using eye gaze technology. The software uses engaging and interactive games for children to practice and develop their visual skills. ("Eye Gaze Learning Curve," n.d.). The game software comes with a variety of difficulty levels, which the researchers used to tailor the intervention to the needs of the children. In addition, the Insight software provided quantitative information after each trial that was used for data analysis. Informed consent was obtained by providing written forms for the parents of participants to sign prior to beginning the study and the study was approved by the Institutional Review Board (IRB) of Rockhurst University.

Educational and medical records provided by the parents were reviewed first to obtain previous medical and educational history, testing, goals, and interventions. Other preliminary data obtained included assessments of occupational performance (daily functioning and participation) by using the Canadian Occupational Performance Measure (COPM) scores, American Occupational Therapy Association Occupational Profile Template information (AOTA-OPT), and visual processing skills by using the Cortical Visual Impairment Range scores. The COPM and AOTA-OPT data were obtained through interviews with the children's parents. The CVI Range scores were obtained through observation and assessment of the children's visual abilities with additional parent interview questions. One occupational therapist performed and scored the CVI range assessment with the student researcher present to take notes and to observe responses. These one-hour interviews and observation sessions took place during separate meetings using Zoom over a three-week period.

For the second part of the study, intervention data collection took place over a four-week period at a school for children with visual impairments or an outpatient clinic in the Midwest. One occupational therapist/assistive technology practitioner performed the data collection due to restrictions from the Covid 19 pandemic. Using Insight and Learning Curve eye gaze software from Inclusive Technology Inc., baseline data about visual skills of each participant including visual attention and focused looking, were collected a week prior to starting the intervention during an initial session. The eye gaze system was also calibrated to the participants' eyes at this time. The intervention took place individually in a quiet room with adjustable lighting, and the technology was set up against a plain black background to reduce visual distraction.

Set up of the eye gaze technology followed Insight eye gaze procedures—the participants were placed 50-75 cm away from the computer screen, with the screen positioned so that it was level with the participants' eyes. The intervention consisted of 20 to 30-minute sessions two to three times a week for four weeks and involved playing age-appropriate visual games that focused on practicing and increasing visual

skills of the participants. The software recorded eye gaze data during the intervention. Although the Insight software records many eye gaze variables, this study only focused on activities of “Visual Attention” and “Noticing Images” provided by the software. Researcher observations were also collected during the intervention using the Eye Gaze in the Classroom Data Sheet. An eye gaze post-test was completed the final week of the intervention, and the COPM and CVI range were performed again a week following the intervention to determine if the intervention was effective in improving the visual skills, occupational performance, and performance satisfaction of the participants.

The descriptive portion of the study contributes to a greater understanding of how CVI impacts the lives of children. The participants had difficulty with many daily activities. All of the children’s parents reported that their child had difficulties with communication/social interaction, self-care, learning/literacy and mobility. Other difficulties in daily occupations reported by participants included feeding, play, riding in the car and fine motor activities like crafting. Each child showed difficulty with participation in typical daily routines, occupations, and activities compared to other children their age. Though there were some similarities among participants, each child in the study was also unique in their strengths, abilities, and struggles, such as one child’s difficulty with tactile tolerance and another having excellent tactile skills. CVI has affected each child’s performance in a unique way, and this should be taken into consideration when implementing interventions for this population through individualization of interventions.

Data analysis of the information obtained during the study indicates an improvement in visual skills and occupational performance following the intervention (See Table 1). This supports the use of eye gaze technology as an effective intervention to improve visual skills and occupational performance in children with CVI. The improvement of means in most of the eye gaze variables shows the technology has an effect and may be used to assess the visual skills of children with CVI in the future. The lack of improvement in visual consistency can possibly be explained by the known inconsistent visual performance of children with CVI (possibly due to environmental changes or internal sensory processing) and changes in the eye gaze intervention activities to higher level activities as the child improved their visual skills on the software. These results correspond with previous studies which have found that eye gaze technology is an effective intervention for improving visual field awareness (Atasavun & Duger, 2012) and occupational performance (Borgestig, et al., 2017). Although there have been studies on a few interventions and assessments there is limited information about how CVI presents in children in relation to the impact of CVI on occupational performance.

This study shows promise for this type of intervention although it involved a relatively small sample, no randomization or blinding of researchers or participants, possible co-intervention and a single location. These limitations could impact the generalizability; however, due to the new direction of this research, this level of evidence is important to establish and justify further research. The final limitation of the study was the lack of standardization in the amount or frequency of intervention provided to each participant due to the COVID-19 pandemic and mandated precautions, which caused some scheduling difficulties. Children who had more frequent intervention did show more progress in visual skills as shown in Table 1. Statistically insignificant findings can potentially be explained by these limitations mentioned above. A larger sample size and more intervention sessions for the participants could have helped with even greater increases in skills, helping the data reach statistical significance. See Table 1 for results of the study and eye gaze activities.

MANOVA Results

Note. "*" represents statistical significance at the p<.05 level.

Using eye gaze technology and objective assessments of occupational performance tailored to the child's individual needs and environment is important when working with children who have cortical/cerebral visual impairment. The study of this area discussed in this article is important for educational and health care professionals to consider when choosing interventions for children with CVI. By matching the CVI level of the child to the visual software intervention, outcomes may be optimized. Taking this information into consideration, health care providers can include the use of eye gaze technology, while tailoring their treatment to the unique needs of those with CVI.

Using eye gaze technology with children who have CVI is a relatively new concept but shows promise as an assessment and intervention. Although CVI is a condition that is not yet well understood it has a significant impact on the lives of those who have been diagnosed with it. The results of this study demonstrate the specific visual challenges and the impact vision has on the occupational performance of these children. Furthermore, the study discussed provides an effective intervention to help children with CVI improve their visual skills. As demonstrated by the statistically significant increase in COPM and CVI range scores following intervention, improvement in visual skills from eye gaze intervention may improve the overall occupational performance of children with CVI.

Let's interact with Google Jamboard

INTRODUCTION

Academic year 2020-2021 is one like no other. Educators, students and families have needed to pivot from full time, in person learning to a variety of different learning models, sometimes changing on a moment's notice. One significant area that came to the forefront as districts were discussing this new way of learning was the increased use of technology in order to reach our students who were learning remotely beginning in the Spring of 2020. As the fall began, school districts had a variety of learning models, including (but not limited to) full time cohorts for students with significant needs, hybrid models with synchronous and asynchronous learning and fully remote models with synchronous and asynchronous learning using technology. The need to rethink our implementation of technology so that it is interactive, engaging and able to reach all of our learners was now a significant part of our lesson planning.

I began using Google Jamboard in 2019, and when I would introduce it to teachers, most had never heard of the program. But, as our lives shifted in the Spring of 2020, I noticed that more and more educators were talking about Jamboard on social media and sharing their resources. At the start of the academic year 2020-2021, Google Jamboard was now becoming a tool that teachers wanted to learn more about and various educators were creating professional development, video tutorials and blog posts about this product.

CHERYL FARLEY, M.S. Ed., O.D. is an Assistive Technology Consultant and owner of Adaptech Consulting, LLC. She received her B.S. from Stonehill College and Doctor of Optometry degree from The New England College of Optometry. She later obtained her M.S. Ed. from Simmons College in the area of Special Education: Assistive Technology. She has been the owner of Adaptech Consulting, LLC for the past 10 years, and provides assistive technology consultations and evaluations to public K-12 school districts. She has presented at local, regional and national conferences on the topic of Assistive Technology.

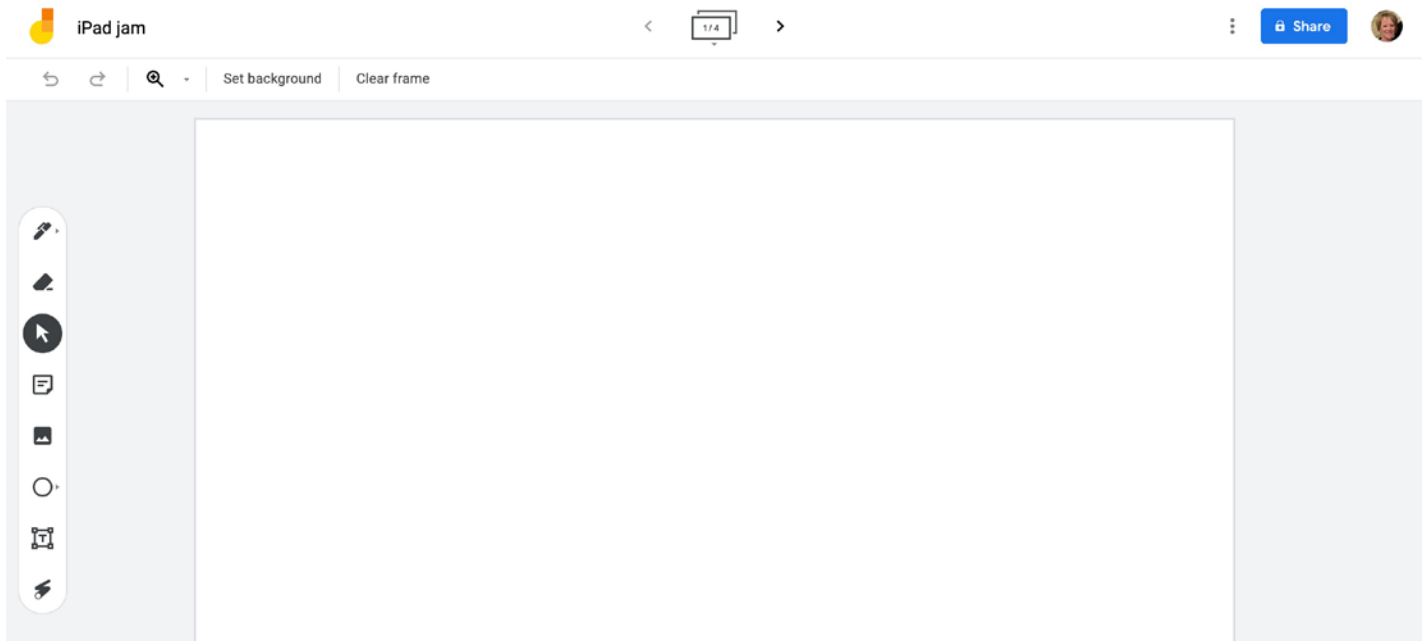

Image 1: Main Jamboard Screen.

This article will focus on the main features of Google Jamboard and showcase some ways that educators can implement this tool during their school day.

WHAT IS GOOGLE JAMBOARD?

In the world of Google, Jamboard is 2 items. First, is the actual hardware, the Google Jamboard (<https://workspace.google.com/products/jamboard/>). This is described by Google on their Jamboard website as “a collaborative, digital whiteboard that makes it easy for your team to share ideas in real-time and create without boundaries”.

The second item is the [Google Jamboard program/app](#).

This is a free, digital, interactive whiteboard program that can be used on your computer, Chromebook, iPad or android device. This program can be used as a live/synchronous collaboration tool, and you can have up to 50 users on a “jam” at once. You can also share your “jam” with students, and they can work on it asynchronously. All “jams” are saved in Google Drive.

MAIN FEATURES OF GOOGLE JAMBOARD

Where to find it?: to access Google Jamboard:

- On a Computer or Chromebook:
 - Using your Google Chrome browser, go to jamboard.google.com to open the jamboard program. Click on the “plus” sign to create a new “jam”
 - While in your Google Chrome browser, you can click on the “waffle” and open Jamboard by selecting the Jamboard icon. The first time you do this, you may have to scroll to the bottom of the box to find

the program. I suggest that the users move the icon into the top part of the box for easier access. Once the program is open, click on the “plus” sign to start a new “jam” or click on an existing “jam” to open and edit.

• From your Google Drive:

- To create a new Jamboard: click on “new---more---Google Jamboard”
- To access already created “jams”: at this time, when you go into the search bar, Google Jamboard does not drop down as a file option. But, if you type “jamboards” in the search box, your jamboards will appear. For my personal use, I created a Jamboard folder and moved all of my “jams” there for easier access.

- Android Device: you can download the program via the Google Play Store: https://play.google.com/store/apps/details?id=com.google.android.apps.jam&hl=en_US&gl=US
- iPhone and iPad: you can download the app via the App Store: <https://apps.apple.com/us/app/jamboard/id1143591418>

LET'S TAKE A LOOK AT SOME OF THE MAIN FEATURES OF GOOGLE JAMBOARD

Working on a "jam" (See image 1: Main Jamboard Screen)

I will often recommend that students and educators name their "jam" when they create one. The default name is "untitled jam" and I have found that if students do not name it when creating, they will often forget and then have to open numerous untitled jams to find the correct one. You can rename the "jam" by clicking on "untitled jam" or by going into the settings (3-dots) and click "rename". You can also rename an existing "jam" in Google Drive.

The frame bar:

The frame bar is where you will add and organize your "pages". You can change the order of the frames and this is where you have the option to duplicate your frames. This feature is very helpful if you are creating a Jamboard to share with the entire class, but you want each student to have their own page. I will have the teachers create one frame, duplicate for the number of students, then add either a sticky note or text box in the top right or left corner with the student's name so each student knows which frame is theirs.

Set background: (See image 2)

When you create a "jam", the default frames will have a white background. You have the option to change the background and insert dots, lines, graph papers, a blue board and a chalkboard. A new feature is the ability to insert an image as a background. Previously, you could insert a photo onto your jamboard and have it fill the space of the frame to act as a background, but because it was an inserted image, it could be manipulated. This was often frustrating for both teachers and students if they had students that would be moving or deleting images as they were teaching. Having the ability to insert an image as a background will now "lock" that image in place.

Toolbar:

The toolbar location will depend on the device you are using. The majority of tools are the same on both computer and mobile programs, and I will highlight those main differences. There are also ways that you can use the built in accessibility features on your device or in conjunction with third party programs for students to use their assistive technology tools to access Jamboard.

1. The writing tools: this is where you can select what writing tool you are going to use and what color. The options are limited and this feature does work better using a touchscreen device compared to a mouse or trackpad. One additional feature found in the mobile app is the use of assistive drawing tools (See image 3: assistive writing tools). Using this feature, the program

Image 2: There are various background options, including inserting an image.

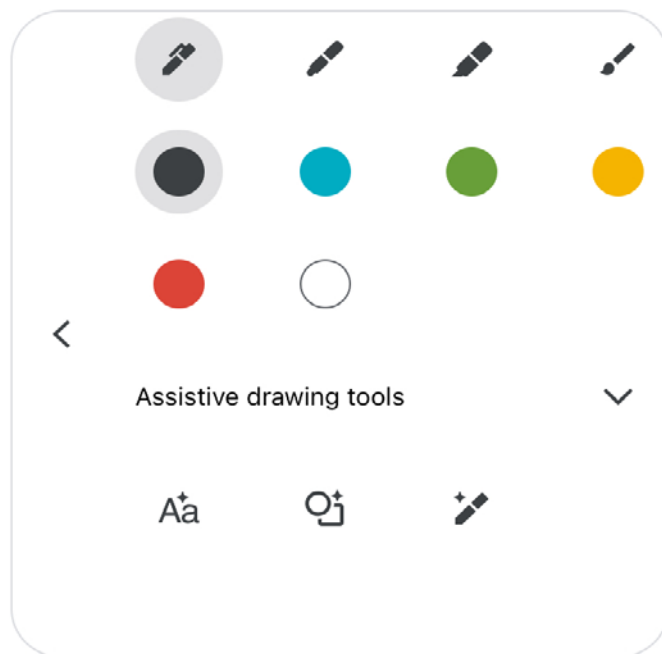

Image 3: Assistive Writing Tools found on the iPad.

will try and turn your handwriting into text and shapes and drawings into digital versions of what you drew. This feature can be helpful for those students that struggle with legible handwriting.

2. Insert sticky note: this allows you to insert a sticky note and text into your "jam". You can select the color of the note and adjust the size and move the location. If you are using this on the iPad/iPhone, you can use the built in speech to text feature to dictate your text into the note. Also, If you have the predictive feature turned on, when you click on the word from the onscreen keyboard it will insert the text into the note. If you have a premium license of Read&Write for Google Chrome, you can also use the "talk & type" and word prediction tools to insert text.
3. Insert text: if you are working on a computer/laptop/

Chromebook, you also have the ability to insert text boxes. When using this as an annotation tool, text boxes do not have a fill color, so it will blend with your background and you can move the text box to insert the text in the appropriate location. You have a limited number of options for text size, text color and alignment. If you have a premium license of Read&Write for Google Chrome, you can open the toolbar and use the “talk and type” feature to insert text via speech to text. You can also use the word prediction feature to provide spelling support. Using the text to speech feature, you can have the text in the text boxes read aloud.

4. **Insert images:** This feature allows you to insert images into your “jam”. You can insert images already on your computer/photo library, you can take a picture or you can use the Google search feature to insert images and clip art. If you are on the iPad/iPhone, you also have an insert stickers option.
5. **Insert shapes:** If you are working on a computer/laptop/Chromebook, this feature allows you to insert a variety of shapes into your “jam”. You can resize the shapes and you can change the fill color (limited choices) and change the border color (limited choices). One of the drawbacks to insert shapes is that you cannot type within the shape, in order to add text you need to insert a text box on top of the shape.
6. **Additional settings:**
 - a. **Share:** this allows you to share your jamboard with students. When you share the jamboard, the collaborators can now interact and manipulate your original board.
 - b. **Download as PDF:** this allows you to download your “jam” as a PDF file.
 - c. **Share this jam as an image:** I use this feature if I want to create a “jam”, but share it within a Google Slide. Because it is an image, the students cannot manipulate the content within the image. You can also use this feature if you want to use what you created as a locked background on Jamboard. I will create the “jam”, then share it with myself as an image. Next I will insert this image as my background so that it locks the information on the frame.
 - d. **Make a copy:** you can make numerous copies of the “jam”. This is helpful if you are working in a hybrid model or small group and you want to assign the same jam, but to multiple groups. It also allows you to create one document, make a copy, then differentiate the “jam” for students.

BENEFITS AND DOWNSIDES

With all programs, there are benefits and downsides. Some of the benefits of using Google Jamboard is that it is part of the G Suite of tools, so the “jams” are automatically saved, and they are saved in Google Drive for access on any device that you

log into. It also allows you to collaborate with up to 50 people. Because of the ease of copying jamboards and duplicating frames, it provides an easier way to differentiate “jams” without having to start from the beginning for each one.

The primary downside to this program is that when you share a jam, it is allowing the other people in as a collaborator. Currently there is not a comment or view share option for Jamboard. A workaround to this is to take an image of the frame, and use that image as the background to lock the information and students can annotate on top of it. You can also take an image of the “jam” and insert it into Google Slides, then share the slide with the view only option.

Another current downside is that there is no version history. If you have students that delete others’ work or place inappropriate information on the “jam”, you are not able to track like you can in Google Docs. This can be an opportunity to continue teaching our students about digital etiquette and best practices using technology.

IMPLEMENTATION

UDL and SETT Framework

As an Assistive Technology Consultant, I use the SETT framework, created by Joy Zabala. <http://joyzabala.com/>. The letters in the SETT framework stands for Student, Environment, Task and Tools. By following this framework, it guides me in determining what the appropriate tool is by looking first at the student, the environment(s) they are learning in, and the tasks that they need to complete.

As educators we also want to look at using the principles of UDL (Universal Design for Learning) in our learning environments. The 3 principles are:

1. Provide Multiple Means of Representation
2. Provide Multiple Means of Action and Expression
3. Provide Multiple Means of Engagement.

For more information on these principles, please visit the CAST website: <https://www.cast.org/>

By following the principles of UDL when creating an assignment, all students should be able to access the lesson without needing to wait to have someone modify it. With asynchronous and/or synchronous remote learning, students benefit from having assignments that allow them to show what they know following the model of UDL.

By using Google Jamboard, this tool can provide a way for teachers to provide multiple means of representation within an assignment. This then allows students with multiple ways of engaging within the lesson. When students use Google Jamboard to annotate or create their own content, they are able to express what they know using their assistive technology tools and other technology supports.

LET'S TAKE A LOOK AT SOME EXAMPLES

1. Preschool/Early Elementary:

- a. The weather of the day (See image 4a and 4b): In the first frame, you can have the students place the correct weather image or text into the answer box. For this example, I separated the image and the text so that depending on the student's skill level, they could insert the image or the text, or they can choose to insert both. In the second frame, "what would you use on a sunny day" example, I have inserted images (both correct and incorrect) that the students can choose from. This can be further differentiated by creating an errorless assignment where all choices are correct.
- b. Calendar time (See images 5a and 5b): A way to replicate the interactive days of the week activity during virtual learning is to create a "today is", "yesterday was" and "tomorrow will be" frames. In this example, I used sticky notes to create the days of the week in different colors. I also used the Boardmaker symbols to create the "today is", "yesterday was" and "tomorrow will be". (Boardmaker: <https://goboardmaker.com/>) I would recommend using the images that you have in your classroom to mimic what you are doing on line. For the calendar page, I created a calendar template in Google Docs and each month I update the dates to reflect the month. In order to "lock" the calendar in place, I inserted it as the background. For the day marker, I inserted a snowflake from the insert image tool for students to use to mark the day of the week. For the following months, I update the calendar in Google Docs, replace the background in the previous calendar frame, and insert a new image to use as the day marker.

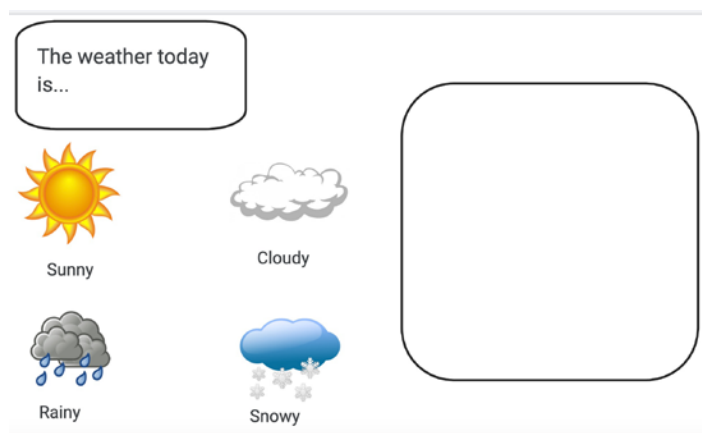

Image 4a: Morning meeting weather activity.

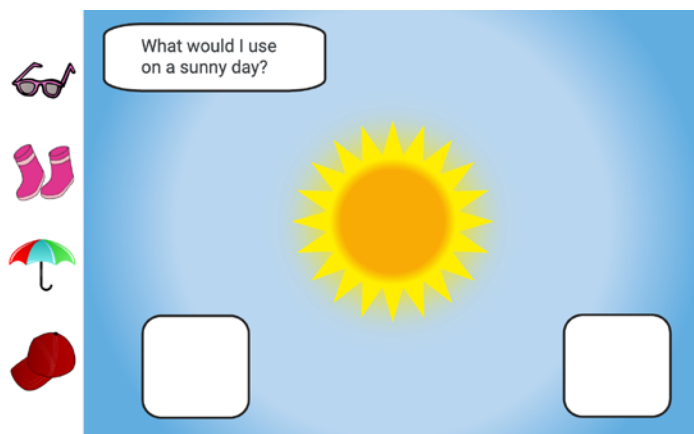

Image 4b: What is the weather morning meeting.

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
		1	2	3	4	5
6	7	8	9	10	11	12
13	14	15	16	17	18	19
20	21	22	23	24	25	26
27	28	29	30	31		

Image 5a: Calendar for morning meeting.

Image 5b: Calendar activity for morning meeting.

2. English/ELA

- a. Story Mountain plot: (See image 6). In this example, I inserted as a background a basic story mountain template. Next, I inserted shapes/text boxes for each part of the story mountain. To differentiate, I created one frame for each part of the story mountain to allow the student to focus on one segment at a time. You can also share the story mountain, and have the student insert either sticky notes or text boxes within the spots. In both of these examples, for students that struggle

Image 7: Integrating a Lesson Pix worksheet during English.

with writing, if they have the premium version of Read&Write for Google Chrome, they can use the word prediction and talk&type (speech to text) features to assist with spelling and writing support.

- b. Let's brainstorm: students and teachers can use the sticky note feature to brainstorm ideas, both synchronously and asynchronously. For more templates using Google Jamboard for graphic organizers, I would recommend visiting the "Ditch that Textbook" blog by Matt Miller: <https://ditchthattextbook.com/jamboard/>
- c. Opposites matching worksheet (See image 7) Another

Dice Math

Image 9: Insert dice images from Lesson Pix to create a math activity.

tool that I really enjoy using for images is Lesson Pix (<https://lessonpix.com/>) This program is easy to use and has a wide variety of templates to choose from to create activities. They also have ready to use activities that you can further customize. In this example, I used the opposites matching worksheet and the student used their iPad and drawing tools to draw a line to the correct answer.

- d. Magnetic word bank: (See image 8) Many educators have created either word bank or magnetic poetry templates in Google Slides and Google Drawing. For some great free templates, Kasey Bell at Shake Up Learning (<https://shakeuplearning.com/blog/winter-magnetic-poetry-with-google-slides/>) has a variety of seasonal magnetic poetry templates that are a great place to start and customize for your grade level. In Google Jamboard, this example shows a modification of the winter magnetic poetry. This activity was created for the preschool/early elementary level to describe what the snowman is wearing. This activity can be customized by inserting additional text boxes to expand the vocabulary for the different levels of writing.

Image 10: Take photos or create your own math manipulatives to use for both synchronous and asynchronous learning.

- b. Manipulatives: (See image 10) Teachers can use the images from the math program that they are using and create movable images of the base 1, base 10 and base 100's to use during lessons. If you cannot access those manipulatives, you can also create them using the shapes feature in Google Drawing. For students that benefit from using the manipulatives during classwork during remote days or for when completing asynchronous work, students can use these digital manipulatives. For these activities, I will use the "duplicate" feature and create approximately 5-10 of each image and have them "sit" on top of each other. I also created a box for students to use as their "show their work" area.

4. Science

- a. The water cycle: (See image 11a and 11b water cycle) Within the Boardmaker Community website (<https://goboardmaker.com/pages/boardmaker-community>), you can find pre-made Boardmaker activities to use with your students. In this example, we used a pre-made template on the water cycle. For the first option, the text was created using sticky notes and students can move them into the correct spot. You can also insert text to have the students manipulate or have them type the text directly into the "jam". I further differentiated the activity by including images for the answers.
- b. Cell diagram: teachers can use their plant cell or animal cell diagrams and insert the image as a background. Next students can use the insert text option to label the diagram. You can also create the text boxes for the student, and they can drag and drop to the appropriate location.

Image 11a: The water cycle activity.

Image 11b: Using a Boardmaker activity to create a background for labeling the water cycle.

3. Math: in addition to using this as a lesson board during math to write equations for all students to see, students can also use this tool for interactive, small group or individual math activities.
 - a. Dice Math: (See image 9) using clipart from the Lesson Pix website, I inserted dice onto the "jam" and the students use this to complete simple addition and subtraction equations.

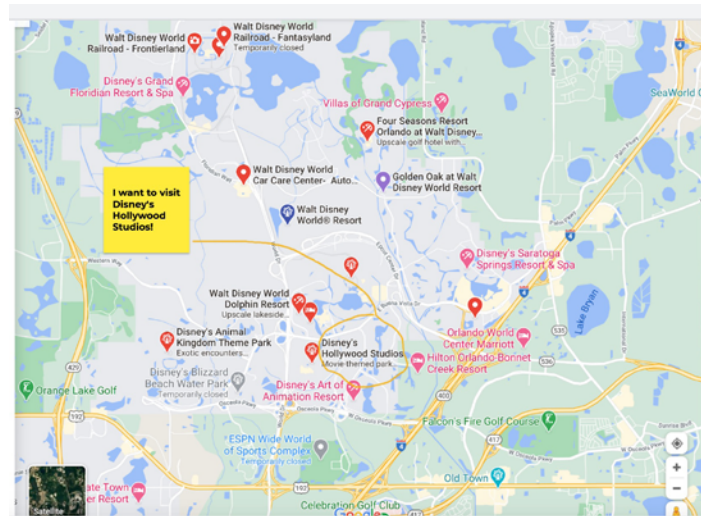

Image 12: Have some fun with Google maps in your jam.

5. Social Studies

- a. Map labeling: (See image 12) Similar to the cell diagram, teachers can convert paper map activities into interactive digital activities by inserting the map as a background and using the annotation, text and image tools to draw on the map. You can also take a screenshot of a Google Map to use as your background image.
- b. Timelines: this activity can occur across a variety of academic areas. I created a line using the insert shape feature and then used the shapes, text boxes, images and sticky notes to create areas where students can fill in the timeline.

Jamboard, both teachers and students can create interactive lessons and “show what they know”. Teachers can differentiate activities within a “jam” by copying the original activity and modifying it in another “jam” or within another frame on the “jam”. This allows students to find the activity that best fits their learning style/academic level and complete that activity. We are so fortunate that we have so many free options available to us and our students for interactive learning. So while you may not be using Google Jamboard, I hope that you will take a look at what it has to offer and are able to use some of the different implementation strategies within your learning environment. ■

CONCLUSION

Google Jamboard is a free, interactive whiteboard tool that can be used for both synchronous and asynchronous learning. With our current educational model of remote and hybrid learning, it is more important than ever for students and teachers to continue to have a way to interact live, “in the moment” during those times when they cannot physically be in the same classroom. Using the various tools in Google

Building a Community During Remote Learning

National Joint Committee for the Communication Needs of Persons With Severe Disabilities (NJJC)

Nancy C. Brady, Susan Bruce, Amy S. Goldman, Karen Erickson, Beth Mineo, Billy T. Ogletree, Diane Paul, MaryAnn Ronski, Rose A. Sevcik, Ellin Siegel, Judith Schoonover, Lorraine Sylvester, Mari Therrien, and Krista Wilkinson

COMMUNICATION BILL OF RIGHTS

1992

- NJC publishes the Communication Bill of Rights
- Supports rights of all individuals as effective communicators
- Widely used to advocate for communication services and supports for persons with severe disabilities

Revision Descriptions

- Clearer, simpler statements
- Broader range of potential communication abilities (comments, opinions)
- More inclusive of communication used to promote socialization

2015

- NJC revises the Communication Bill of Rights
- Reflects contemporary perspectives on communication and disability

Uses for Practitioners

- Advocate for communication services and supports
- Promote inclusive opportunities
- Encourage broader community acceptance

For more information, go to the NJC website at: www.asha.org/njc

MELISSA STARK is a special education and Ed Tech Model teacher at P94M in New York City's Department of Education, which is part of District 75. District 75 serves students with significant disabilities. She is a Microsoft Innovative Educator Fellow and Expert, as well as an Ambassador programs such as for Book Creator, Tobii Dynavox, Kahoot! and FlipGrid Student Voice. She is also an Apple Teacher. Melissa has presented at ISTE, Closing the Gap, EdxEdNYC and New York City's Department of Education Technology Summits focusing on making curriculum more accessible to all. She has also supported staff members on using communication supports in the classroom.

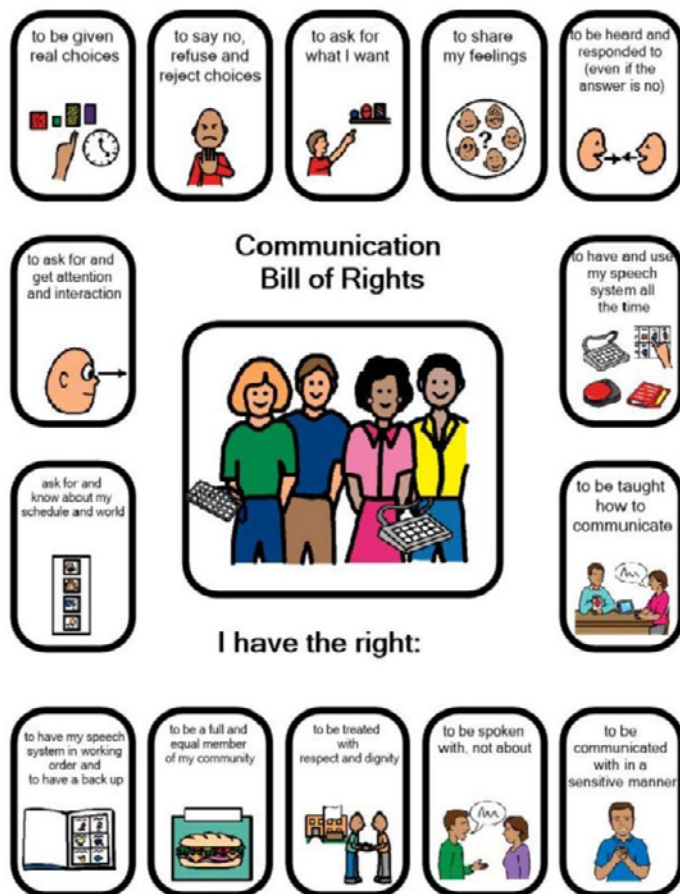

When I say the words “remote learning,” different people may have different ideas of what that entails. Some people may feel that it is paper packets or at home hands-on activities to complete. Others may be participating in one-to-one online learning and small or large group sessions or check-ins with an educational team member. For some students they may also have a combination of these activities or something completely different to serve their individual needs. During this time, one common thread has been that we miss that socialization aspect that we crave. Even if you are a person who tends to enjoy completing activities on their own, it can be isolating when we are all quarantining. Every individual has been afforded basic rights as part of the National Joint Committee for the Communication Needs of Persons with Severe Disabilities (NJC) Communication Bill of Rights. The ultimate question is how can we make sure these rights are ensured for all during this time?

First, we need to know what the Communication Bill of Rights is. The National Joint Committee for the Communication Needs of Persons with Severe Disabilities (NJC) was developed in 1992 to support the rights of all individuals to communicate. In 2015, the Communication Bill of Rights was updated to include more inclusive statements to reflect all members of the community and to promote inclusive practices.

Source: <https://www.asha.org/siteassets/uploadedFiles/NJC-Communication-Bill-Rights-Poster.pdf>

The Communication Bill of Rights discusses fifteen rights all humans deserve.

1. The right to interact socially, maintain social closeness, and build relationships.
 - All students have the right to engage in social interactions with their peers and adults. They deserve the right to be able to continue these relationships throughout remote learning.
2. The right to request desired objects, actions, events, and people.
 - All students have the right to ask for items, activities, and people using their primary mode of communication (PMC). Primary Mode of Communication can be a high- tech or low- tech Augmentative and Alternative Communication (AAC) Device, gestures, verbal communication and/or approximations, and/or body language. Even when these items and people are not available students need to have the ability to request them.
3. The right to refuse or reject undesired objects, actions, events, or choices.
 - All students have the right to not want to engage in activities, want certain objects, or refuse choices provided. Just because a choice or activity is provided, we cannot assume our student will want it.
4. The right to express personal preferences and feelings.
 - Students have the right to share how they feel about topics or experience using their Primary Mode of Communication (PMC). This is especially true during remote learning as we want to provide students the same opportunity as they would have in person.
5. The right to make choices from meaningful alternatives.
 - When opportunities and people are not available, students have the right to make decisions on other activities, opportunities, or people they want to see. This is especially important during remote learning as we are not always able to provide the first option.
6. The right to make comments and share opinions.
 - All students have the right to comment and share their own thoughts. During remote learning, additional wait time, increasing visual supports, and making sure AAC devices are available is important so that students have these opportunities.
7. The right to ask for and give information, including information about changes in routine and environment.
 - During remote learning, there has been many schedule changes. All students have the right to know, as much as possible, what their routine will be like. Changes to a student's routine should be discussed and reviewed.

8. The right to be informed about people and events in one's life.
 - Covid-19 has been difficult for us all. For those who have lost loved ones or have had people move or go to different jobs (for example), these events should be discussed with our students so that they are aware of what is going on and what has happened to the people in their life.
9. The right to access interventions and supports that improve communication.
 - During remote learning, students should continue to receive supports to continue to improve their ability to socialize with their peers. By improving communication skills, students will be better able to share their thoughts and ideas.
10. The right to have communication acts acknowledged and responded to even when the desired outcome cannot be realized.
 - All students have the right to be acknowledged when speaking, no matter what their primary mode of communication is and/or if the desired communication can or cannot be met. During Covid-19, there are some requests that cannot be made such as going to the movies or going to certain store, however, a student's communication act should be acknowledged.
11. The right to have access to functioning AAC (augmentative and alternative communication) and other AT (assistive technology) services and devices at all times.
 - During remote learning, it has become difficult at times when devices are broken to get them fixed. One way to support students during this time, is to make sure students always have a back-up system that they use in case of times when the original device is not working sufficiently.
12. The right to access environmental contexts, interactions, and opportunities that promote participation as full communication partners with other people including peers.
 - Students have the right to understand what the context of a conversation is so that they can actively participate in it. During remote learning this is imperative so students can speak to their peers about what is going on at home and during learning.
13. The right to be treated with dignity and addressed with respect and courtesy.
 - All students have the right to be treated with dignity and respect. No matter what the level of students functioning, educators should assume competence for all students.
14. The right to be addressed directly and not be spoken for or talked about in the third person while present
 - Competence should always be assumed. During remote sessions, no one should ever speak about a student like they are not there.
15. The right to have clear, meaningful, and culturally and linguistically appropriate communications.
 - Students have the right to see and discuss their culture as well as see themselves represented in the activities they complete. This is also important when using visual representations. Visuals should represent what the student looks like.

During Covid-19 additional weight was put on:

Reviewing the Communication Bill of Rights and distribute it widely.

- Post it on social media outlets.
- Draw attention to it when it is posted in common areas.
- Share it with families, caregivers, and service providers.
- This is important so that everyone is aware of the rights of all communicators.

Help persons with severe disabilities understand and advocate for their communication rights.

- Talk about communication rights using systems that best support comprehension.
- Provide specific examples that are relevant to the lives of the individual.
- Become so familiar with the rights that you can explain them and relate to them in the moment.

This is important so that everyone can support individuals with significant disabilities to learn to advocate for themselves.

During Covid-19, the American Speech and Language Association discussed how make the Communication Bill of Rights more applicable to the world we are living in.

We can use the [Communication Bill of Rights](#) to:

Guide respectful interactions and advocacy.

- This is important so that all parties involved are aware of what rights they are afforded.

Provide culturally responsive supports and services for persons with severe disabilities.

- This is important so that people with severe disabilities see themselves in their AAC devices as well as the visual supports they are using.

Evaluate existing and new programs and actions regarding programs and services for persons with severe disabilities.

- During this time, we want to make sure we are accessing all programs that can support our students.

Amplify the voices of persons with severe disabilities who are BIPOC.

- We want to make sure we are supporting our students to share their stories.

Source: <https://www.asha.org/njc/communication-bill-of-rights-guiding-services-for-people-with-severe-disabilities-in-the-context-of-covid-19-and-systemic-racism/>

During the last several months something that has been reiterated when speaking to students, families, and other educators is the feeling of loss of social interactions. All people deserve the right to be able to participate with their peers and engage in social communication. While Covid-19 may have limited this in-person, let's explore ways we can increase socialization for all people so that their rights are met.

Online Meeting Platforms:

- During Remote Learning, platforms such as Google Meets, Zoom, and Microsoft Teams have been a great way to increase socialization amongst peers. Students are able to interact in large and small groups. Activities such as clubs that interest all students (i.e., reading, coding, cooking, etc.) can be developed to engage in social interactions amongst peers. Visual supports and AAC devices can be used to maximize communication attempts.

Online Gaming Systems:

- One thing I have learned from my students is that they love to play online games! For a lot of our students, this can be done with adaptive game controllers, eye gaze, and multiple types of devices. Gaming systems are helpful because it allows students some level of anonymity if that is what is important to them. One focus that we will need to work on with all of our students is digital citizenship so that they are aware of safe practices online. Programs such as Everfi, Google Be Internet Awesome, and Common Sense Media have great programs to explore digital citizenship.

Online Game Based Learning:

- Kahoot! -
 - Kahoot! Is a game-based learning program that allows people to use already developed content or use new developed content such as quizzes and games with peers. Students can use a code that is shared to play a game with people in their class or play other people who are signing on to public Kahoots! This allows people to play and practice activities with others.

- Quizzizz
 - Quizzizz allows you to find and create gamified quizzes and lessons to play with your peers. This allows you to work with the other members of your class to engage in fun activities and socialization.
- Minecraft Education Edition
 - Minecraft Education Edition allows you to collaborate with other students in your classroom about different topics you are learning about using game-based learning. Students can design their own character to make sure it identifies who they are.
- Classcraft
 - Classcraft is a game-based approach to collaboration. During lessons student can earn powers for working together with each other.

Watch Parties:

- Over the past few months one of the thoughts that I have heard from many students is that they miss going to the movies. When we are unable to go to the movies, we can try to bring the movies to our students. Watch parties can be used so that students, families, and caregivers are watching the same show or movie at the same time as the other people on the Watch Party. It is a great way to promote socialization and a sense of community in a safe environment.

Flipgrid:

- Flipgrid Pals is a program that allows you to develop "virtual pen-pals" with people from all over the world. Using the Flipgrid platform, you can connect with other classrooms or educators to discuss topics or areas of learnings. It is a great way to build a sense of community and learn about things going on in other places.
- Flipgrid Discovery Library is a program that allows you to browse topics of interest. Flipgrid has built in immersive reader which allows:

Feature	Proven Benefit
Enhanced dictation	Improves authoring text
Focus mode	Sustains attention and improves reading speed
Immersive reading	Improves comprehension and sustains attention
Font spacing and short lines	Improve reading speed by addressing “visual crowding”
Parts of speech	Supports instruction and improves writing quality
Syllabification	Improves word recognition
Read Aloud Math	Benefits students who see to see and hear equations out loud. Story problems with numbers mixed with words
Real-time translation	Helps dyslexic non-native speakers (ELL in the United States) with reading

Source: <https://education.microsoft.com/en-us/resource/9b010288>

Programs that encourage collaboration: While this is not an exhaustive list, here are some programs that can be used to foster collaboration when learning:

- Nearpod
 - Nearpod allows have students participate in live lessons. Several features enable each individual to share their own personality and how they learn best. These features include draw-it, student Notes, fill-in-the-blanks, polls, and race to the top. There is also a collaboration board to build community. Nearpod is a fun and engaging platform that also encompasses virtual reality for students to get to be able to experience different activities during lessons with their peers. Nearpod has immersive reader and translation to support a multitude of learners.
- Peardeck
 - Peardeck also allows you to have students participate in live lessons. Students can complete activities by drawing, answering questions, dragging a dot to answer. Peardeck has templates that foster socialization and social-emotional check-ins as well.
- Buncee
 - Buncee is a web-based tool that allows developing multi-media based learning. In Buncee, you can use immersive reader and translation. Individuals

can add to a Buncee Board to develop an idea together.

- Microsoft Suite
 - Microsoft offers a variety of programs that can be used with individuals with disabilities. Microsoft Excel, Microsoft PowerPoint, Microsoft OneDrive, Microsoft OneNote, Microsoft Teams, Microsoft Translator, and Microsoft Whiteboard have supports built into them. Microsoft also offers Immersive Reader, Office Lens, Dictation, Word Prediction, Translator and Live captions.
 - These programs allow students to collaborate in real-time thus allowing socialization and collaborative team building.
- Google Education Platform
 - Google has developed many programs that can help individuals with disabilities stay organized, focused, and continue to complete their work together during Remote Learning. Products such as Google Chrome, Google Classroom, Google Docs, Google Drive, Google Jamboard, Google Mail (Gmail), Google Meet, Google Sheets, Google Slides, and Google Translate. Google Meet has been a great way for people to remain in contact with one another during remote learning to keep friendships and the emotional bond.
- Apple Programs
 - Apple offers an “Everybody Can Create” program that reviews video, music, drawing, and photography to help students learn how to create projects of their own. Apple also offers magnifying, auditory, and other visual tools to support individuals with disabilities. Students can work in conjunction with one another to complete these projects.
- Book Creator
 - Book Creator allows anyone to be an author. You can develop standard-sized books or comic books. Individuals can record their voices and use the read to me feature to have the book read to them. Questions can be embedded in the books to help develop reading comprehension. Videos, calculators, Google Maps, FlipGrid, websites, Explain Everything, Adobe Voice, Green Screen by Doink, Popplet, and many more apps can be integrated into this program. Book Creator also has a tool that allows an individual to draw, and the program will try to identify what the drawing is to give it a sharper look. Students can also work together to design a page for the book and place it together.

Virtual Field Trips

- To help students be able to see their community during Covid-19, virtual field trips have been a great way to increase socialization and collaboration. Students are able to visit different places and interact with different people to learn about the local. Programs such as Boardmaker Online can be used to provide visual supports to students that highlight their own identity. ThingLink and Ed Puzzle are two programs that can help students see various locations and communication about them. Educators can search for places to visit by looking at local community websites or Youtube.

Covid-19 and remote learning has been hard for many of us. One of the things that many of us need to keep in mind is that we need to keep providing our students social opportunities to build their collaboration and continue to grow their community. ■

Conquering the Core Classroom: Providing Classroom Staff Education and Support Remotely

FREE Sponsored Webinar by PRC-Salttillo

By Cortney Maholtz and Brandy Harris

Thursday, February 11, 2021

3:30 pm – 5:00 pm (Central Standard Time)

In our fast-paced world of technology and ever-changing demands, it is often difficult to support teachers and speech-language pathologists on the journey to mastering core language in the classroom. Traditional models for providing staff support to team members consist of in-person training and consultation. However, current schedules and staff demands limit these opportunities.

This presentation will review a self-paced remote training model for staff to increase knowledge/skills in core language implementation. All participants reported gains in their own self-efficacy and skills and gains in students' expressive communication skills (verbally and non-verbally). Implications for application of similar models will be discussed.

Learning Outcomes:

1. Participants will be able to identify at least 2 current barriers to successful implementation of core language in the classroom.
2. Participants will be able to identify at least 3 research-based skills for successful implementation of core language in the classroom.

Participants will be able to identify at least 3 potential components of a remote learning module for staff training.

Our Favorite Remote/eLearning Strategies for Engagement for Students with Autism & Other Complex Needs

FREE Sponsored Webinar by Don Johnston, Inc.

By Torrie Turner and Laura Cuthbertson

Thursday, February 25, 2021

3:30 pm – 4:30 pm (Central Standard Time)

This school year comes with many questions from special education teachers facing remote/eLearning, including:

- What do "classroom" activities look like through Remote/eLearning?
- How can we create meaningful connections with students and parents?
- What are some effective ways to deliver engaging lessons to students with complex needs?

This webinar will give guidance and new strategies from special educators as they share how they use Readtopia for remote/eLearning.

Learning Outcomes:

1. Participants will be able to learn how to adapt classroom activities for eLearning using apps and household items
2. Participants will be able to learn how to integrate lessons with the school Learning Management System (including Google Classroom, Class Dojo, etc.)
3. Participants will be able to refocus & connect with students using flexible delivery + familiar/routine habits.

Scanning Pens

The C-Pen Reader pen scanner is major technological breakthrough for anyone learning English, Spanish or French and is a life-saver for those who suffer from reading difficulties such as dyslexia. The C-Pen Reader is a totally portable, pocket-sized device that reads text out aloud with an English, Spanish or French human-like digital voice.

The in-built dictionary puts the power of Collins English, Oxford Primary, New Oxford American, Vox Spanish & Cordial French dictionaries in your hands. Simply pass the nib across a word and it instantly displays the definition and reads it aloud. It is also a scanner for capturing lines of text and uploading to a PC or Mac, making it ideal for students, teachers and professionals to capture essential information.

Amazon – Alexa adds new calling features so you can more easily connect with friends and family this holiday season.

GROUP CALLING

Video calling with Alexa has been more popular this year than ever before. Now, up to seven friends or family members can join a hands-free video or audio call. Simply say, “Alexa, call my family,” for example, to connect from supported Echo devices, such as an Echo, Echo Dot, or Echo Show. Only one customer needs to create and name a group in their Alexa app, and then any member of that group can start a group call by saying, “Alexa, call my [group name].”

ZOOM AND AMAZON CHIME ON ECHO SHOW 8

2020 has been the year of video meetings, with many using video to connect for both work and personal life more than ever before. Customers can now join a video conference call with Alexa through Zoom and Amazon Chime on Echo Show 8 devices. Just say, “Alexa, join my meeting,” “Alexa, join my Zoom meeting,” or “Alexa, join my Amazon Chime meeting” to join a video meeting with coworkers or friends and family.

With the newly launched Call Captioning feature, Alexa can display text of what the other party is saying in near real-time during one-on-one Alexa video and audio calls and Drop In calls, helping customers who are deaf, hard of hearing, or in loud or noisy environments. Call Captioning supports U.S. English and is available today on all Echo Show devices. To learn more, visit the Alexa Accessibility hub.

Don-Johnston – Learning is for LIFE

LEARNING IS FOR LIFE

What would you do if you could learn anything?

We asked some people who are doing some pretty amazing things what they needed to learn to do what they do (and what they continue to learn today). Along the way, we found out something remarkable. The things they needed to learn started when they were young but didn't stop there. Learning how to learn was the first step, and it was often a

challenge. Breaking through that barrier opened up their lives to so much more.

We make our tools to better human learning because we believe that learning isn't the endgame—it's just the beginning. If we can help lift barriers to learning, we can open up possibilities for life. With the right learning tools, the world is at hand.

Eschenbach Optik – Visolux Digital XL FHD

The Visolux Digital XL FHD is an advanced portable video magnifier that features a 12" TFT LCD display with touch screen interface, an FHD camera, built-in stand, and many other features!

The device's unique Dynamic Line Scrolling (DLS) feature allows the user to scroll both horizontally and vertically when on the higher magnification levels without having to move the device. Its FHD camera actually sees more than what's shown on the screen, making reading a book or magazine easier than ever. Images can be captured and stored on a removable 8GB SD card.

The Visolux Digital XL FHD's HDMI and USB ports allow the user the option to transmit images directly to their computer and live stream to a television screen. And its HDMI-in option allows users the ability to connect a video camera so the image from the camera appears on the screen (camcorder and distance viewing accessories sold separately). Its unmatched connectivity options and superior image quality make this the ultimate magnification device!

IPEVO DO-CAM – From Doc Cam to Webcam with a flip!

FROM DOC CAM TO WEBACAM WITH A FLIP!

Bid farewell to situations where you have to awkwardly hold up papers or materials in front of the computer's built-in webcam while presenting or discussing ideas with your colleagues.

Meet the most versatile communication tool for the office or on-the-go. Flip the camera head of DO-CAM and switch it into a Webcam for video calls. Flip and switch it back seamlessly whenever you need to show any physical materials during the call.

IPEVO DO-CAM's 8MP Sony CMOS image sensor allows exceptional image quality and performance.

Be it in person or remotely, engage your audience with visual elements. As simple as a 'Show & Tell'.

No matter your profession, present your work with style and ease using DO-CAM.

Attainment Company – GoTalk NOW

GOTALK NOW

A customizable AAC app that includes core words and curriculum communication pages

FEATURES:

- Instant access to a page set of core words commonly used in daily communication
- Based on Project CORE research from UNC Center for Literacy and Disability Studies
- Includes adjustable page layouts, customizable navigation, and text-to-speech capabilities
- Provides flexibility to import sounds and images from the internet, your camera, and GoTalk Overlay Software
- Pages may be backed-up, restored or shared via Dropbox or iTunes
- Offers four page styles for communication: standard, scene, express, keyboard
- Stores an unlimited number of messages

GoTalk NOW provides all the tools you'll need in an AAC app, plus so much more! Newly included with NOW are the Core word communication pages. Core vocabulary refers to a small collection of words that make up the majority of words used in daily communication. Now you have instant access to a set of pages, field-tested and created by SLP Gisele Morin-Connolly, based on Project CORE research from UNC Center for Literacy and Disability Studies. These Core pages will be a great starting point and will have you communicating in no time. Communicate using one word to 36 words enhanced with these core pages and more! Create and add new pages that suit your personality too. Choose from four mix-and-match page styles: Standard, Express, Visual Scene, and Keyboard.

Additionally, offered are GoTalk NOW Curriculum Pages. These pages correspond to the curricula that comprise Attainment's Core Curriculum Solution and are available through the Online Template Gallery. Enjoy instant access to resources that will give students the opportunity to engage and participate in classroom activities.

GoTalk NOW gives flexibility and access. Use one or multiple images with unlimited text in any communication location. Take images from a symbol set, your camera roll, or via GoTalk NOW's built-in internet image search. Record video modeling sequences to pair instruction with communication. Play music to heighten interest. Choose text-to-speech or recorded audio for message content. Jump to any communication page, even from a different communication book. Add auditory cues to allow both auditory and visual scanning. Select automatic or step scanning, adjust scanning speed, and group buttons together by row or column for more efficient scanning. Share communication books with others via WiFi or AirDrop. Access our free online gallery. Back up your communication books with Dropbox or iTunes.

VAST Speech Series – Assisted Speech Therapy

VAST is the simplest and most effective way to learn how to talk for yourself.

Simple and highly effective, almost unbelievably so.

It is well known that individuals with autism often struggle to look at faces, which provide the visual cues necessary to produce motor speech.

Vido-Assisted Speech Therapy (VAST) uses a combination of video modeling and auditory cues to improve speech skills.

VAST SPEECH SERIES

VAST: Autism & Apraxia therapy series was designed for individuals on the spectrum who are non-verbal or have minimal verbal skills due to a motor speech planning disorder such as apraxia. This app combines the highly effective concept of video modeling with written words and auditory cues to help individuals acquire relevant words, phrases, and sentences so that they can speak for themselves. The VAST videos have been highly effective in encouraging individuals with autism to attend to a communication partner's mouth and articulators in the natural environment. For children and individuals with strong visual skills, this series of apps can be a key to developing speech.

[LEARN MORE](#)

It's also one of the few AAC apps designed to support all users, from beginning to advanced. Completely customizable and designed for a range of fine-motor and visual skills, the app's versatility makes it useful for non-verbal people with autism, Down syndrome, cerebral palsy, and a range of other diagnoses or speech impediments like apraxia and dysarthria.

[LEARN MORE](#)

Proloquo2Go – Speak up with symbol-based AAC

Not being able to speak isn't the same as having nothing to say. Children, teens and adults who can't speak can use this

Augmentative and Alternative Communication (AAC) app for iOS as a daily communication tool and to build language skills. From the first time someone opens the app, a few taps are all it takes to start talking to the world.

LEARN TO COMMUNICATE WITH AAC

You'll love how this symbol-based app helps users learn how to express themselves. Proloquo2Go puts the user's development first, with innovative features based on clinical knowledge and user research.

12 volt NI-MH High Capacity Battery and Charger

Adaptive Switch Laboratories, Inc.

Price: \$295.00

Device: switch interface

Disability: physical

The ASL 515 is a 12 volt power source with charger that is used with 12 volt DC sensors without a power wheelchair. This high capacity battery will last up to two days before charging.

12/24 Volt AC Power Source Wall Plug

Adaptive Switch Laboratories, Inc.

Price: \$60.00

Device: switch interface

Disability: physical

The ASL 505 is for accessories or 12 or 24 volt sensors to plug into the wall for use with computers and ACC devices.

2 ECU Interface Cable with 2 Mono Plugs

Adaptive Switch Laboratories, Inc.

Price: \$180.00 - \$210.00

Device: environmental control

Disability: physical

ASL 802-2, 802-3 and 802-4 converts directional commands from the ECU port into separate mono plugs. It has two, three, or four output jacks from the left and right signal on the driver control that can be used for tilt, recline, computer/communication access or any device that requires a mono.

2-Switch

Compusult Limited

Price: \$129.00 - \$159.00

Device: keyboard emulator, mouse emulator, switch interface

Disability: cognitive, learning, physical

The 2-Switch is a USB-based device that can be preprogrammed with two keyboard inputs, two mouse actions or one keyboard input and one mouse action. The 2-Switch DIP is a user-configurable version of this product.

4 Choice Sequential Scanner for the Visually Impaired

Enabling Devices

Price: \$429.95

Device: dedicated communicator, speech output

Disability: cognitive, physical, speech

Our communicator provides illumination of your icons. It is also extremely flexible, four scan modes, choice of the number of fields to use and two mounting systems.

4-Level Communication Builder

Enabling Devices

Price: \$357.95

Device: dedicated communicator, speech output

Disability: cognitive, physical, speech

Communication Builder now with four levels. Comes with four easy to change frames (one, two, four, eight and 16 window options). Retains all your recordings on all four levels when switching between frames. Total record time is 300 seconds.

6dot Braille Label Maker

LoganTech

Price: \$749.00

Device: alternative keyboard, braille input, braille output

Disability: vision

The 6dot Braille Label Maker has everything you need to create high quality Braille labels in any language. Powerful but simple, the 6dot's ergonomic design makes it easy for children and adults of all ages to label practically anything at home, school, the office or on the go.

6dot BrailleCoach

LoganTech

Price: \$995.00

Device: dedicated communicator, speech output

Disability: cognitive, learning, physical, speech, vision

The Logan BrailleCoach Braille training device accelerates attainment of Braille literacy by allowing convenient, self teaching of Braille. Prerecorded and easy to customize Braille embossed tags trigger BrailleCoach audio output for independent, interactive learning.

7-Level Communication Builder

Enabling Devices

Price: \$369.95

Device: dedicated communicator, speech output, speech trainer

Disability: cognitive, learning, physical, speech

The 7-Level Communication Builder is a self-contained communication device. It allows the user to record and play back from one, two, four, eight or 16 different messages per level. There are seven levels for recordings. Total record time is 300 seconds.

7-Message Take and Talk Go! Board

Enabling Devices

Price: \$249.95

Device: dedicated communicator, speech output, speech trainer

Disability: cognitive, learning, physical, speech

Record seven messages up to 35 seconds each. You then play the message back by removing or placing one of the 3 x 3-inch icons on one of the light sensitive compartments. Wall mounting hardware included.

8-Pin Extension Cable

Adaptive Switch Laboratories, Inc.

Price: \$78.00

Device: environmental control

Disability: physical

The ASL 811 8-Pin Extension Cable has 8-pin round connectors on each end and is to be used as an extension for an ASL drive control package.

Accent 1000

PRC-Salttillo

Price: \$7295.00

Device: keyguard, switch, dedicated communicator, environmental control, speech output, speech trainer

Disability: cognitive, learning, physical, speech

Accent 1000 offers advanced functionality and user-friendly features, making communicating fast and easy. With its portability and bright 10-inch display, Accent 1000 is easy to access and provides an extensive vocabulary. It's also available as a powerful host for our NuEye Tracking System. The Accent 1000 is configured as a dedicated device to meet the functional specifications of the Medicare/Medicaid funding requirements.

Accent 1400

PRC-Salttillo

Price: \$7595.00

Device: keyboard emulator, switch, speech output, speech trainer

Disability: cognitive, learning, physical, speech

Accent 1400 is a dedicated speech-generating device (SGD) that offers user-friendly features to make communicating fast and easy for individuals with speech impairments. The large 14 screen is the perfect choice for individuals with complex access needs or those who want larger icons. The Accent 1400 also offers multiple access options and accommodates the NuEye Tracking System and the NuPoint Head-tracking System. The Accent 1400 is configured as a dedicated device to meet the functional specifications of the Medicare/Medicaid funding requirements.

Accent 800

PRC-Salttillo

Price: \$6595.00

Device: keyguard, switch, dedicated communicator, speech output, speech trainer

Disability: cognitive, learning, physical, speech

Accent 800 is a dedicated SGD, locked from running Windows applications meeting Medicare and Medicaid funding guidelines. The Accent 800 offers advanced functionality and user-friendly features, making communicating fast and easy. It's the smallest and most portable PRC device that offers Unity, the proven language system from PRC.

Acrobat HD - mini ultra 13.3 w/Rolling Case

Enhanced Vision

Price: \$2595.00

This flexible 3-in-1 video magnifier with built-in 13.3 battery operated monitor is ideal for near, distance and self-viewing. Rotate the camera for reading, writing, grooming and magnifying images at distances. Acrobat is perfect for work, school or home. A small compact size and case make it easy to transport.

Acrobat HD - mini ultra 13.3"

Enhanced Vision

Price: \$2525.00

This flexible 3-in-1 video magnifier with a built-in 13.3 battery operated monitor is ideal for near, distance and self-viewing. Rotate the camera for reading, writing, grooming and magnifying images at distances. Acrobat is perfect for work, school or home and its small compact size make it easy to transport.

Acrobat HD ultra Arm w/13.3 Monitor

Enhanced Vision

Price: \$2345.00

Device: large print

Disability: vision

A flexible long or optional short arm offered with a 13.3 battery operated monitor, this 3-in-1 video magnifier is ideal for near, distance and self-viewing. Rotate the camera for reading, writing, grooming and magnifying images at distances. Acrobat offers a complete system for those at work, school or home.

Acrobat HD ultra LCD 20"

Enhanced Vision

Price: \$2295.00

This flexible 3-in-1 video magnifier is ideal for near, distance and self-viewing. By rotating the camera, you can read, write, groom and magnify images at any distance. The Acrobat offers a complete system for those at work, school or home. Offering a 20 high resolution HD LCD.

Acrobat HD ultra LCD 20" w/Rolling Case

Enhanced Vision

Price: \$2380.00

This flexible 3-in-1 video magnifier is ideal for near, distance and self-viewing. By rotating the camera, you can read, write, groom and magnify images at any distance. The Acrobat offers a complete system for those at work, school or home. Offering a 20" high resolution HD LCD and easy transport rolling case.

Acrobat HD ultra LCD 22"

Enhanced Vision

Price: \$2595.00

This flexible 3-in-1 video magnifier is ideal for near, distance and self-viewing. By rotating the camera, you can read, write, groom and magnify images at any

distance. The Acrobat offers a complete system for those at work, school or home. Offering a 22" high resolution HD LCD.

Acrobat HD ultra LCD 22" w/ Rolling Case

Enhanced Vision

Price: \$2700.00

Disability: learning, physical

Bee-Bot is a colorful, sturdy little robot that follows commands entered via built-in command buttons and is a fun way for young children to learn coding. Press arrow keys for forward, back, left and right to create a program and then press GO to send Bee-Bot on its way. Lights and sounds confirm each command. Bee-Bot can execute up to 40 commands at a time.

BG Remote Attendant Control

Adaptive Switch Laboratories, Inc.

Price: \$1078.00 - \$1468.00

Device: switch interface

Disability: physical

The ASL 520BG allows a parent/aide to have control over one or more directions of a power wheelchair by a wireless control. It can be used as a training tool or as a full attendant control device and is compatible with all wheelchair electronics that allow for digital control.

BIG Blue-tooth Keyboard

RJ Cooper and Associates

Price: \$199.00

Device: alternative keyboard, keyguard

Disability: cognitive, learning, physical, vision

Large/big/oversize key and print keyboard, colored-rows or yellow keys, for iPad, Bluetooth/wireless, can be used with iPad, Android, or any computer w/Bluetooth. Comes with stand to angle keyboard at 70 degrees for one-handed hunt-and-peckers. Keyboard available for tremors or accidental keypress prevention.

Big Buddy Button

AbleNet, Inc.

Price: \$65.00

Device: switch

Disability: cognitive, learning, physical

Made for persons with moderate-severe upper extremity and motor disabilities.

Features a 41/2-inch target area and can be activated with just 5.3 ounces of force. Auditory and tactile feedback. Activate by pressing anywhere on the large, colorful surface. Available in red, yellow, green, and blue.

Big Red Switch

AbleNet, Inc.

Price: \$65.00

Device: switch

Disability: cognitive, learning, physical, vision

The Big Red switch offers a 5-inch activation surface with tactile and auditory feedback, but with a twist. Our iconic switch tops can be removed and replaced with the color of your choice: Red, Blue, Yellow or Green. It's all up to your own style, tastes or specific vision needs.

Big Talk Triple Play

Enabling Devices

Price: \$185.95

Device: dedicated communicator, speech output, speech trainer

Disability: cognitive, learning, physical, speech

Versatile communicator with single, sequential and random message capabilities. Push the round plate and your prerecorded words can be played back in single, sequential or random order. Device has four levels. Record up to 75 seconds per level for a total of 300 seconds.

BigKeys Keyboards

AbleNet, Inc.

Price: \$149.00

Device: alternative keyboard, environmental control

Disability: cognitive, physical, vision

BigKeys keyboards for computer access provide users large, high-visibility keys that are easy to see. In addition, for users who lack fine motor movements, the larger keys provide a larger strike area that is easier to access compared to standard keyboards.

BIGmack Communicator

AbleNet, Inc.

Price: \$135.00

Device: switch, dedicated communicator, speech output

Disability: cognitive, learning, physical, speech

Record any message directly into this single message tool and press its large activation surface for crystal clear, single message playback. BIGmack communicator has a large, 5-inch activation surface. Students connect with teachers, classmates and the world around them.

BIGtrack 2

AbleNet, Inc.

Price: \$85.00

Device: mouse emulator, switch, environmental control

Disability: cognitive, physical

BIGtrack 2 is USB mouse that includes a large 3-in / 7.62-cm trackball and oversized left and right click buttons. BIGtrack 2 can be used with one or two switches and includes an easy-to-use drag lock feature.

BIGtrack Wireless

AbleNet, Inc.

Price: \$125.00

Device: mouse emulator

Disability: cognitive, learning, physical

BIGtrack Wireless is a mouse designed for users who have difficulties with fine motor control. The large 3-in (7.62-cm) trackball and the broad base of BIGtrack Wireless make it easy to move the mouse cursor while using gross motor movements of the hand, arm, or foot.

Bite Switch - G-Switch Series

GlassOuse Assistive Device

Price: \$49

Device: switch

Disability: cognitive, learning, physical

Bite Switch comes with a 3.5mm jack and it can be paired perfectly with GlassOuse v1.2 or any kind of adapted device offering 3.5mm jack inputs as a switch control. Covered with a non-carcinogenic material, silicone cover protects the switch module and it is easy to change and clean.

BJOY Hand

Westminster Technologies

Price: \$185

Device: mouse emulator

Disability: physical

The BJOY Hand is an ultra sensitive joystick designed to be used with a slight movement of your finger. Thanks to the ergonomic design and very sensitive joystick, the device can be held in one hand for computer access with a very slight movement of the user's finger. This device works with the BJOY Software in order to modify mouse operations like pointer speed, orientation, button functions and many others. All settings are saved in the device so you can take it with you wherever you go. Computer/laptop NOT included. Compatible with computers, tablets and smartphones which are cursor-controlled.

BJOY Ring Kit

Westminster Technologies

Price: \$614 - \$854

Device: mouse emulator

Disability: physical

The BJOY Ring Kit offers the ability to use the joystick of your wheelchair as a mouse control for your computer. This kit includes the BJOY Ring, two switches for left and right click ability, and the appropriate adapter to connect the switch to the BJOY Ring. Wired and wireless versions of this product are available. *Computer/laptop NOT included. Compatibility: Computers, tablets and smartphones which are cursor-

controlled.*NOTE: Set up of the device must be done on a Windows PC.

BJOY Stick

Westminster Technologies

Price: \$260 - \$465

Device: mouse emulator

Disability: physical

Make moving your mouse easier with your choice of BJOY Stick. Choose from two different designs for ease of use based on upper body strength and range of motion. The BJOY Software allows these devices to be tailored to the user's needs and capabilities. Use the BJOY Software in order to modify the mouse operations like pointer speed, orientation, button functions, etc. All settings are saved in the BJOY Device so you take them with you wherever you go.*Computer/laptop NOT included. Compatibility: Computers, tablets and smartphones which are cursor-controlled.*NOTE: Set up of the device must be done on a Windows PC. Joystick control choices are Progressive or Microswitch. Progressive movement allows the joystick or mouse to be moved in all directions. Microswitch movement only allows movement in 4 or 8 directions. This works like a compass - North, South, East, West for 4 movement points and for 8 movement points North-east, North-west, Southeast, and Southwest are added.

Blaze ET DAISY Multi-Player with OCR

HIMS inc.

Price: \$795.00

Device: optical character recognition, speech output

Disability: cognitive, vision

Blaze EZ is a digital book player with WiFi and OCR camera for the visually impaired. It features stand-alone, single-button OCR capture and read aloud capabilities. Simple navigation gives quick access to music, radio, books and printed materials. Now supports output to HIMS Braille displays.

BlindShell Classic Accessible Mobile Phone

BlindShell

Price: \$349

Device: alternative keyboard, voice recognition, large print, speech output

Disability: cognitive, hearing, learning, physical, vision

The BlindShell Classic is an accessible mobile phone for the visually impaired and seniors. This phone uses the very popular "Candy Bar" style and utilizes a full physical keypad. Featuring a screen reader, which reads out every single aspect of the phone, and smartphone features such as voice control, voice dialing, voice dictation, the BlindShell Classic mobile phone is the perfect solution for anyone who doesn't want to or isn't able to use a smartphone. Jam-packed full with over 30 apps and

features, this is the perfect solution for anyone who wants to stay in touch with loved ones but struggles to use a modern smartphone.

Blue-Bot

Terrapin Software

Price: \$119.95

Device: dedicated communicator

Disability: cognitive, physical, speech
Blue-Bot is a Bee-Bot robot with a Bluetooth connection. Use the command keys to send Blue-Bot forward and back or turn left and right or command it from an Android or iOS tablet with the free downloadable apps.

Blue-Bot Tactile Reader

Terrapin Software

Price: \$129.95

Device: alternative keyboard

Disability: vision

The Blue-Bot Tactile Reader is a unique, hands-on programming device to control Blue-Bot. Press the connect button to pair Blue-Bot with the Tactile Reader. Then place individual tiles, each representing a Blue-Bot command, sequentially on the Tactile Reader. Press the GO button and watch Blue-Bot move step-by-step through the program while the Tactile Reader lights up each command as Blue-Bot performs it. Want to change the program? Just switch the order of the tiles and press GO again. The Tactile Reader combines the excitement of Blue-Bot with a concrete, hands-on immersion in coding.

Blue2 Bluetooth Switch

AbleNet, Inc.

Price: \$195.00 - \$185.00

Device: mouse emulator, switch, environmental control

Disability: cognitive, physical, speech
Blue2 is the most widely used Bluetooth switch interface for tablets, mobile phones, and computers. Blue2 allows you to quickly and easily connect one or two accessibility switches to your device via a Bluetooth connection.

Bluetooth Small Switch

RJ Cooper and Associates

Price: \$99

Device: switch, switch interface

Disability: physical

A 3" round, green, Bluetooth switch for iPad, Android, Mac, or Windows. Capable of controlling switch-friendly apps, Switch Control compatible apps, the Music app, Camera, and other standard apps.

Bluetooth Super-Switch

RJ Cooper and Associates

Price: \$184

Device: switch, switch interface

Disability: physical

Large (5"), round switch with built-in interface. Works with all switch-friendly apps,

and Switch Control compatible ones. Also compatible with Android.

Bluetooth Tiny switch

RJ Cooper and Associates

Price: \$49 - \$49

Device: keyboard emulator, mouse emulator, switch

Disability: physical

A small, 1" round Bluetooth button that can 'send' a variety of keystrokes, clicks, or A/V events to a Bluetooth host (i.e. iPad, iPhone, Android tablet, Chromebook, PC, Mac). It works with switch-friendly apps as well as iOS's Switch Control and Android's Switch Accessibility. It comes with a hand strap that holds it securely in a person's fist/hand as well as our super-Velcro for placement on a flat surface (vertical or horizontal).

Braille Label Maker Kit

Westminster Technologies

Price: \$775 - \$895

Device: braille output

Disability: vision

The Braille Label Maker is portable and easy to use anywhere. It comes with both a built-in Braille keyboard and a QWERTY keyboard. This enables a non-Brilliant to create Braille labels too. The powered embossing makes for high quality Braille labels that are easy to read. An automatic cutter provides effortlessly clean label cuts without the need for scissors. This kit includes Braille Label Maker Power Adapter 10 Rolls of DYMO Embossing tape. Options include: QWERTY Keyboard with USB Adapter for Keyboard Carrying Case

Braille Sense Polaris

HIMS inc.

Price: \$5795

Device: braille input, braille output, printer

Disability: hearing, speech, vision

BrailleSense Polaris offers a new standard in blind-friendly applications with the latest in cutting edge technology. We've kept the traditional computer interface that has contributed to the popularity of other BrailleSense models. BrailleSense Polaris supports Google Apps, making it easy to utilize Google services like Drive, Docs, Sheets, and Slides as millions of other students do everyday.

Braille Sense U2

HIMS inc.

Price: \$4595.00

Device: braille input, braille output, speech output

Disability: hearing, vision

This 32-cell Braille notetaker has exclusive features including Excel viewer, Twitter, Quick Browser, YouTube and advanced word processor. Terminal clipboard allows for composing text on Braille Sense then sending completed block together to iPhone, iPad, Android or computer. LCD

display allows parents and teachers to assist or deaf-blind to communicate.

Braille Sense U2 MINI

HIMS inc.

Price: \$2995.00

Device: braille input, braille output, speech output

Disability: vision

This 18-cell Braille Notetaker has advanced features for students and professionals. Exclusive applications include Excel Viewer, Twitter, Quick Browser, YouTube, advanced word processor and Terminal Clipboard for composing text on Braille Sense and sending completed block of text all at once to iPhone, iPad, android device or computer.

Braille Sense U2 QWERTY

HIMS inc.

Price: \$4595.00

Device: alternative keyboard, braille output, speech output

Disability: vision

This 32-cell Braille Notetaker has a QWERTY keyboard and advanced features for students and professionals. Exclusive applications include Excel Viewer, Twitter, Quick Browser, YouTube, advanced word processor and Terminal Clipboard for composing text on Braille Sense then sending completed block all at once to iPhone, iPad, android device or computer.

BrailleCoach - Braille Teaching Device

Westminster Technologies

Price: \$1425

Device: speech output

Disability: vision

The BrailleCoach is a unique way to learn Braille - enabling the student to work independently between lessons. The device has three modes of Braille learning. Mode 1 is letters and dots, mode 2 is letters only and mode 3 is letters and words. Additional blank and pre-programmed sounds tags are available to extend learning. The BrailleCoach comes with 26 Braille alphabet tags, a set of programming tags and a carrying bag.

BrailleNote Touch +

HumanWare

Price: \$4195.00 - \$5695.00

Device: braille input, braille output, speech output

Disability: vision

The ever-innovative BrailleNote Touch Plus combines the simplicity and accessibility of a note taker with the power and efficiency of a modern smartphone or tablet. Supported by the Android Oreo platform, it expands the entire experience and fulfills today's digital expectations. BrailleNote Touch Plus is hands down the most up-to-date, powerful and efficient braille note taker on the market! Available with a 32 cell braille display or an 18 cell braille display

BACK TO
CONTENTS

Braillo 300 S2

American Thermoform Corporation

Price: \$23000.00

Device: braille output, printer, speech output

Disability: vision

Braillo 300 Braille embosser is a reliable and dependable embosser for true Braille production. At 300 CPS using continuous Braille paper, it offers exceptional Braille quality and consistency. Its combination of speed, durability, reliability are the reasons why it is used by most of the largest Braille production facilities.

Braillo 450 S2

American Thermoform Corporation

Price: \$35000

Device: braille output, printer

Disability: vision

The Braillo 450 S2 is an ideal embosser for those that need increased Braille output over the 300 S2, but not the speed and scalability of the 600 S2. It shares the same chassis as the 300 S2, but internal components are upgraded to ensure superior dot quality and consistency at these higher embossing speeds. Using continuous/fanfold Braille paper and embossing at 450 CPS (1,350 pages per hour), it will be a trusted, high speed asset to your business

Braillo 600 S2

American Thermoform Corporation

Price: \$45000

Device: braille output, large print, printer, speech output

Disability: vision

The Braillo 600 S2 Braille embosser is the faster, more robust counterpart to the Braillo 450 S2. Embossing at 600 CPS (1,800 pages per hour), it is the fastest continuous/fanfold embosser available, and it offers remarkable dot quality and dependability. Its combination of speed, reliability and quietness are the reasons why its predecessor, the Braillo 600, is used across the world by most of the largest Braille production facilities. Unique to the 600 S2 is that it is built upon a chassis that can be upgraded to a Braillo 600 SR as your Braille production needs expand.

Braillo 600 SR

American Thermoform Corporation

Price: \$79500

Device: braille output, large print, printer, speech output

Disability: vision

The Braillo 600 SR braille embosser meant for large volume Braille production. This Braille embosser is unique, as it uses paper rolls instead of continuous tractor feed paper. Using paper rolls helps to save money on paper expenses and also eliminates the need for a burster and its operator.

Braillo 650 SF

American Thermoform Corporation

Price: \$128000

Device: braille output, printer, speech output

Disability: vision

The Braillo 650 SF is the worlds only fully automated Braille book production system. Send a file and pick up a finished, folded, covered and stapled book. The Braillo 650 SF makes on-demand Braille publishing possible.

Braillo 650 SW

American Thermoform Corporation

Price: \$88000

Device: braille output, printer, speech output

Disability: vision

Braillo 650 SW Braille Embosser is an advanced Braille embosser that employs a paper cutter for two or four page-per-sheet format, and a stacking unit engineered to handle large format production. This machine is ideal for creating both magazines and textbooks.

BrainPort Vision Pro

Wicab, Inc.

Price: \$10000.00

Device: dedicated communicator

Disability: vision

The BrainPort Vision Pro is an oral electronic vision aid that provides electro-tactile stimulation to aid profoundly blind patients in orientation, mobility, and object recognition as an adjunctive device to other assistive methods such as the white cane or a guide dog. The device is a non-surgical solution for profoundly blind individuals.

Bright Box

Adaptation, Inc.

Price: \$129.00

Device: switch

Disability: cognitive, learning, physical, vision

The Bright Box has a visual display that is activated when the user presses the top of the surface. The Bright Box can be used as a visual cue to aid in locating the device for persons with low vision or for any nighttime user.

Bright Box Tactile

Adaptation, Inc.

Price: \$149.00

Device: switch

Disability: cognitive, learning, physical, vision

The Bright Box Tactile has visual and tactile feedback. The visual feedback and tactile feedback can be employed independently of each other. The Bright Box Tactile can be used to activate any battery-operated device with a standard 1/8-inch jack.

Buddy Button

AbleNet, Inc.

Price: \$65.00

Device: switch

Disability: cognitive, learning, physical

The Buddy Button provides tactile and auditory feedback, is 2.5-inches in diameter and requires a force of 7 ounces in the center and 5.3 ounces at periphery. Unsurpassed durability that now comes in seven great colors and designs.

Button Switch

Adaptive Switch Laboratories, Inc.

Price: \$180.00

Device: switch

Disability: physical

The ASL 305 is a momentary switch that has an activation button the size of a dime and requires medium force for activation.

Calculator with keyguard

Turning Point Therapy and Technology, Inc.

Price: \$75.00

Device: keyguard

Disability: physical

Casio large display/large button basic function calculator with keyguard.

CANDY 4 HD II Handheld Video Magnifier

HIMS inc.

Price: \$595.00

Device: large print

Disability: vision

CANDY 4 HD is a handheld video magnifier that magnifies near or near distance up 1x - 20x. The flip-away handle lets you use it as a stand or handheld magnifier. Capture and save up to 5 images. Easily customize 4 selectable color modes from a number of preset combinations.

CANDY 5 HD II Handheld Video Magnifier

HIMS inc.

Price: \$695.00

Device: large print

Disability: vision

CANDY 5 HD is a handheld video magnifier that magnifies near or near-distance 1x-22x. The three-position handle can be used left or right-handed as a stand or handheld magnifier. Mirror view mode is great for grooming. Image capture lets you save up to 5 images. User-customize 4 selectable color modes.

Cheap Talk 8 - 6 Level Communicator

Enabling Devices

Price: \$319.95

Device: dedicated communicator, speech output, speech trainer

Disability: cognitive, learning, physical, speech

Our 6-Level Communicator is ideal for teaching language skills. Record 48 six-second messages on six levels. Messages can be recorded and rerecorded as often as you wish. Available in three colors.

Chester Mouse

AbleNet, Inc.

Price: \$22.00

Device: mouse emulator

Disability: cognitive, learning, physical
Young children can be confused about whether to use the right or left button on a mouse and using drag-and-drop and click-and-move can be frustrating. Welcome Chester Mouse, a tiny single-button mouse with no scroll wheel, that's easy to control and made of rugged plastic for strength and durability.

Clip Talker

Attainment Company, Inc.

Price: \$12.00

Device: speech output

Disability: cognitive, learning, speech
Recordable single message voice output device. Eight seconds record time. Measures 1.5 x 2 x .5 inch. Includes clip-on holder and batteries.

Closed Caption Display Units

Compusult Limited

Price: \$895.00 - \$8995.00

Device: large print

Disability: hearing

Compusult's Caption Display units provide large format LED output of closed captions from analog video sources, captioning/transcription software and Compusult's Caption Display software. The Caption Displays provide four lines of 32 characters, with character heights ranging from 0.7- to 4-inches. For more details, please visit .

Cognixion ONE

Cognixion

Disability: speech

<p class="elementor-size-default">The World's First Brain Computer Interface with Augmented Reality Wearable Speech™ Generating Device.

Communication Builder

Enabling Devices

Price: \$269.95

Device: dedicated communicator, speech output, speech trainer

Disability: cognitive, learning, physical, speech

The Communication Builder is equipped with five easy to change frames, which allows you to refine communication choices as the person develops new skills. Record your messages with the simplest push of a button. Light, durable and easy to carry with a built-in handle. Total record time is 300 seconds.

Compact Switch

RJ Cooper and Associates

Price: \$49.00

Device: switch

Disability: cognitive, physical, speech
Round 1-inch compact switch that makes a nice click sound when activated.

Connect 12

HumanWare

Price: \$2695.00 - \$2995.00

Device: alternative keyboard, optical character recognition, large print, speech output

Disability: vision

The New Prodigy Connect 12 is more than a powerful digital magnifier with desktop and distance viewing. This ideal solution for students of all ages opens the window to an intelligent Android world, allowing free and open access to more than a million apps.

Control Bionics CCS

Control Bionics Inc.

Price: \$13500

Device: switch, voice recognition, dedicated communicator, environmental control, speech output

Disability: cognitive, hearing, learning, physical, speech, vision

Control Bionics CCS (Complete Communication System) is an out of the box solution for those living with paralysis and loss of speech. The system includes a 10" display device, built-in communication software, and the NeuroNode 3.0! The NeuroNode 3.0, the latest generation of the world's leading wearable EMG control device, it's packed with new added benefits – making it more intuitive and flexible than ever.

CooperCar II

RJ Cooper and Associates

Price: \$999 - \$1399

Disability: cognitive, physical

The original CooperCar, 1991-1999, was placed 848 times around the world. Some are even still in use! The CooperCar II is a resurrection of this successful toy/tool/vehicle for severely physically (and possibly cognitively) challenged young children (up to 50 lbs). It can be controlled by 1-4 switches, or an optional joystick. It turns electrically on its large 2 wheels (no steering wheel). An optional Wireless Remote Override is available. The firmware on the controller is similar to switch parameters on a computer: Time (so that a short activation of a switch/joystick movement can result in longer movements of the vehicle), Acceleration (for those that startle easily), and Speed. The CooperCar II is a viable alternative for youngsters to a VERY expensive power wheelchair! Or, for those severely cognitively impaired, the world's greatest cause/effect device.

Cordless Switch Interface

RJ Cooper and Associates

Price: \$99.00

Device: switch interface

Disability: physical

Provides two switch inputs for plugging switches into a computer. Once plugged in, the switch(es) become standard mouse clicks. With installation of the accompanying SwitchHopper software you can configure each button to be any

mouse-button event or keystroke that you would like.

Crick USB Switch Box

Crick Software, Inc.

Price: \$159.00

Device: switch interface

Disability: physical

Plugs into your computer and connects your switches. It will work instantly with Clicker and DocsPlus, with no setup required. For other switch accessible software, we have included USB Keys software, a small application that converts switch presses from the USB switch box into key presses or mouse clicks.

Cushion Grip Switch

Enabling Devices

Price: \$45.95 - \$47.95

Device: switch

Disability: cognitive, hearing, learning, physical, speech, vision

A fantastic sensitive switch that fits most hands. Just slip it over your hand and you can use a palmer grasp or roll it on a tray or tabletop to activate any device or toy. Now comes in two sizes - Medium and Small.

DaVinci HD/OCR

Enhanced Vision

Price: \$3295.00

DaVinci is a high performance desktop video magnifier, featuring Full HD, selective text-to-speech OCR and a 3-in-1 camera. Experience the joy of reading again with high definition color and contrast, crystal clear images, and vibrant colors. DaVinci will read any printed text aloud with the push of a button.

DaVinci Pro HD/OCR

Enhanced Vision

Price: \$3995.00 - \$3995.00

DaVinci Pro is a high performance desktop video magnifier, featuring a 3-in-1 camera (see near, intermediate, and far), Full HD and selective text-to-speech OCR.

Experience the joy of reading with high definition color and contrast, crystal clear images, and vibrant colors. DaVinci Pro will read any printed text aloud with the push of a button

Dipsy

Adaptation, Inc.

Price: \$39.00

Device: switch

Disability: cognitive, learning, physical
This tilt-sensitive switch can be attached to the head, arm, finger or any appropriate object and can be used for posture training. The Dipsy is activated by a 30-degree tilt which makes it less prone to false activation. Includes a headband and two finger mounts. Price Reduced.

Drink-Partner Insulated Tumbler

Mealtime Partners, Inc.

Price: \$69.95

Disability: cognitive, physical

The Drink-Partner Drinking System can accommodate an Insulated Tumbler in the cup holder, as an alternate drink container to the bottle that is provided with the Drink-Partner Drinking System. The Insulated Tumbler is an assistive drinking aid that provides hands free drinking for individuals with disabilities. The Drink-Partner Insulated Tumbler will fit in any of the Mealtime Partners Front Mounted Drinking Systems Cup Holders as well as the Drink-Partner Cup Holder. The Insulated Tumbler holds 16-ounces of hot or cold liquid. It keeps liquids hot or cold for several hours. The tumbler has a screw-on stainless steel lid that has flex tubing integrated into it. The flex tube contains the drinking tube from which the user drinks. Once positioned, the flex tube will hold the drinking tube in position, until it is adjusted.

Dual Button Mechanical Switch with Stereo Plug

Adaptive Switch Laboratories, Inc.

Price: \$360.00

Device: switch interface

Disability: physical

The ASL 524 with Stereo Plug will allow you to use both mechanical switches with one switch port. For instance right and left mouse click or recline and tilt.

Dual Switch Input Adaptor

Adaptive Switch Laboratories, Inc.

Price: \$20.00

Device: switch interface

Disability: physical

The ASL 817 allows two mono port switches to have the same mono output or can allow for two output switch functions from one single switch port.

Duo

AbleNet, Inc.

Price: \$50.00

Device: mouse emulator

Disability: cognitive, learning, physical

Duo is a wireless mouse for everyone. With Duo, a user can easily control the mouse cursor with fine motor or gross motor movements. Left- and right-clicks are controlled with accessibility switches or the standard left- and right-click buttons on Duo. Duo can also be used as a stand-alone switch interface and works with switch scanning software that utilizes left- or right-clicks.

eeZee Mouse CURSOR

LaZee Tek

Price: \$599.00

Device: mouse emulator

Disability: physical

Alternative computer access designed to work with the person's abilities; empowering them to access a computer, tablet or smartphone. A tiny body sensor provides proportional cursor control, worn anywhere from head to toe. This cost effective cursor control is compatible with all hardware and software; including all clicking software.

eeZee Mouse PRO

LaZee Tek

Price: \$899.00

ILA, - the Instant Language Assistant - allows any two people to easily and instantly have a real-time, natural, back and forth conversation, regardless of any language or communication barriers. Choose the language and dialect, then start communicating - immediately. By speaking, typing or spelling out loud, the conversation is instantly translated and shown to both parties in real-time. The ILA Pro Unlimited offers 120 dialects and languages, along with support for people who are deaf, deaf-blind, or have a speech disability. It works in loud environments and allows each user to view and verify their own text instantaneously. It's secure, encrypted and HIPAA compliant.

Index Basic D V5

HumanWare

Price: \$3695

Device: alternative keyboard, braille output, speech output

Disability: vision

Basic-D V5 is a compact and powerful tractor-fed Braille printer as it has always been; but now it's available with new modern features like Wi-Fi connection, embossing from USB memory and braille printing from mobile devices. Emboss Braille horizontally or vertically (sideways) on the page using the Basic-D V5 Braille embosser. Light is an important design component in all V5 embossers and a hallmark for its technology level. It both guides the user interface and decorates the embosser. The control panel is a local user interface which allows the user to interact with the braille embosser and provides complete embosser control. Index Braille V5 embossers are compatible with portable devices. With the use of your portable device and Index's own idB (free), endless braille embossing options are available directly from your smart phone, tablet or portable PC.

insideONE

Insidevision Inc.

Price: \$5499.00

Device: alternative keyboard, braille input, keyboard emulator, braille output, speech output

Disability: vision

Bold, high-contrast keys with oversized characters provide fast, accurate typing with less of the eye fatigue experienced when straining to locate keys on standard keyboards. The easy-to-read keyboard and 22 dedicated MAGic keys make learning and using MAGic Screen Magnification Software easier than ever.

Makey Makey - Invention Kit for Everyone

Makey Makey

Price: \$49.95

Device: alternative keyboard, keyboard emulator, mouse emulator, switch

Disability: cognitive, hearing, learning, physical, speech, vision

What is Makey Makey?

Turn the whole world into a keyboard.

It's a simple Invention Kit for Beginners or Experts doing art, engineering, and everything in between.

How Does it Work?

Alligator Clip two objects to the Makey Makey. For example, you and a banana (or an ice cube, or a kitty cat). When you touch the banana, the computer just thinks a keyboard key is being pressed, so you can type a letter, jump in a video game, take a picture, or play some music.

Medley

Adaptation, Inc.

Price: \$229.00

Device: speech output

Disability: cognitive, learning, physical, speech

Up to eight natural-voice messages (11 seconds per message) can be recorded and played back on the Medley by touching the built-in keypad or by using an external switch. Enjoy the convenience of selecting messages using Direct Select, Sequencing or Randomizing. Sequencing and Randomizing are accessed via any external switch.

Device: speech output

Disability: speech

NovaChat 10 has the largest display of any NovaChat communication device. It offers the Chat Software on an Android platform. Like all NovaChats, NovaChat 10 offers a durable yet sleek portable design, with features that include switch scanning, Social Chat and many other features.

NovaChat 5

PRC-Salttillo

Price: \$2995.00 - \$4495.00

Device: speech output

Disability: speech

NovaChat 5 is the smallest of the NovaChat with a 5.0 inch display and weighing in at only 0.95 pounds. NovaChat 5 offers a durable yet sleek design, with features that include switch scanning, Social Chat, IVONA speech synthesizer and many other Chat features.

NovaChat 8

PRC-Salttillo

Price: \$3495.00 - \$4995.00

Device: dedicated communicator, speech output

Disability: speech

NovaChat 8 is a communication system that offers the well-known Chat software on an Android platform. Like all "Chats," NovaChat 8 offers a durable yet sleek portable design, with features that include an 8" display, switch scanning, IVONA speech synthesizer, and many other Chat features.

NuEyes e2

NuEyes Technologies

Price: \$2795.00

Device: optical character recognition, speech output

Disability: vision

Headworn Electronic Magnifier for Low Vision that is Evenly Balanced and Comfortable to Wear. Unlike other products that are simply a VR headset smartphone holder, the e2 was designed from the ground up to be evenly balanced on your face for maximum comfort. Because the e2 is a self-contained device, it eliminates the added weight and heat of a smartphone that is simply inside a VR holder. We are the only all-in-one device designed to help the visually impaired with maximum comfort allowing it to be worn for extended periods of time.

ONYX Deskset HD

Freedom Scientific, Inc.

Price: \$2295.00 - \$2695.00

Device: large print

Disability: vision

The ONYX Deskset HD lets you read what you want, across the room or at your desk. The 3-in-1 flexible camera provides document reading, distance viewing, and self-viewing modes, with 125x magnification, 33 high-contrast color modes, and advanced features like Freeze Frame, Focus Lock, and a unique RF remote control.

ONYX Portable HD

Freedom Scientific, Inc.
Price: \$2495.00 - \$2495.00
Device: large print
Disability: vision

This compact, portable video magnifier is designed for busy students and professionals who have trouble reading printed text and distant objects. The 3-in-1 video magnifier connects to a monitor or PC and is foldable and lightweight so you can take it to work or school and anywhere in your home.

Orby Switch

Origin Instruments Corp.
Price: \$39.95
Device: switch
Disability: physical
 Orby is a colorful adaptive switch featuring a smooth, and contoured 2.5-inch diameter design that is less than 1-inch tall. Orby has a smooth and consistent actuation across the entire switch surface with clear tactile and audible feedback. Two year warranty and available in red, green, blue and yellow.

Original Receiver

AbleNet, Inc.
Price: \$105.00
Device: switch
Disability: cognitive, physical
 Our Original Receiver functions just like a traditional switch - plug in the receiver, and go! Choose the Original Receiver if you plan to control a computer switch interface or single device.

Outspoken Communicator Mobile Bundle

Compusult Limited
Price: \$1099.00 - \$1399.00
Device: alternative keyboard, dedicated communicator
Disability: cognitive, speech
 Compusult's Outspoken Communicator Mobile Bundle is a high-quality portable Augmentative and Alternative Communication (AAC) solution. It includes your choice of AAC apps, pre-installed on an Apple or Android tablet, plus accessories such as external speaker, protective case, and documentation. AAC options include AssistiveWare's Proloquo2Go, Therapy Box's Predictable and several others.

Pal Pad

Adaptation, Inc.
Price: \$39.00 - \$49.00
Device: switch

Disability: cognitive, learning, physical, speech, vision

The Pal Pad is a very thin membrane switch activated by a light touch. It has no "click" when activated. It comes in six colors: red, blue, yellow, black, green and purple. Pal Pads come in three sizes and use a standard 1/8-inch jack.

Partner Plus Four

Advanced Multimedia Devices, Inc.
Price: \$240.00 - \$285.00
Device: dedicated communicator, speech output, speech trainer
Disability: hearing, speech, vision
 The Partner Plus Four is a four-message augmentative communication device that offers both vibrating feedback and LEDs for visually impaired users. Available in standard, LEDs, vibration or LEDs with vibration. Added features with two levels of communicating and four in and four out input jacks.

Partner Plus Stepper

Advanced Multimedia Devices, Inc.
Price: \$165.00
Device: dedicated communicator, speech output, speech trainer
Disability: speech
 The Partner Plus Stepper has a stepping feature that enables you to record a sequence of messages totaling up to 60 seconds. It also has the ability to step backwards in your sequence in case of an accidental switch activation. Repeat and reset are some of the other features.

Partner/Plus

Advanced Multimedia Devices, Inc.
Price: \$88.00
Device: dedicated communicator, speech output
Disability: speech
 The Partner/Plus is a single-message communication device that interlocks with other Partner/Plus devices. Create a two or three message device. The elevated platform for object and slot for picture cards make the Partner/Plus a great tool for teaching object discrimination. It's slanting low profile design make for easy activations.

PEARL Portable Reading Solution

Freedom Scientific, Inc.
Price: \$795.00
Device: optical character recognition, large print, speech output
Disability: vision
 Fast portable scanning and reading with human-sounding voices. Snap a picture and hear your book read back. Automatic page capture mode. Scans 20 pages per minute while reading. Folds for backpack carrying. Use the PEARL to show a live video image on your PC. Requires Open-Book 9.0 or later.

Perkins Brailier

Perkins School for the Blind
Price: \$775
Device: braille input, braille output
Disability: vision
 The Perkins Brailier is a durable braille writing machine used for reading, writing and math from early learning through adulthood.
 WHY THE PERKINS BRAILLER?
 Best in Class: The most widely used mechanical braille writer in the world since its invention in 1951.
 Durability that Lasts for Decades: Metal casing, closed body architecture (limiting dust accumulation), and over 66 years of craftsmanship, resulting in a resilient product.
 Wide-ranging Usefulness: Wide paper length to accommodate complex math, note taking or other literacy activities.
 Accommodates Additional Disabilities: Unimanual, light touch, and large print Brailier models, ensuring that more people have access to reading and writing braille.
 Reliable Support: One year warranty, repair service trainings and repair service centers throughout the world, ensuring that any problem with your product is resolved quickly

Perkins SMART Brailier

Perkins School for the Blind
Price: \$2195
Device: braille input, braille output, large print, speech output
Disability: vision
 The SMART Brailier® is an early learning tool designed to promote an interactive educational experience between students, teachers and parents by displaying, vocalizing, and brailleing what a student types.
 WHY THE SMART BRAILLER?
 Accelerates Learning: Encourages multi-sensory learning through visual, tactile and auditory feedback, increasing the student's ability to process new information and making learning fun.
 Lightens the Load: Weighs 20 percent less than the classic Perkins Brailier, making it easy to transport between home and classroom.
 Integrates with Mainstream Technology: Edits, saves and transfers brailled documents to digital text files via USB, letting sighted teachers or parents read the document on a computer.
 Involves Non-Braille Users: Enables better collaboration between students and sighted teachers or parents using Roman letters on the display screen to mirror what is being brailled.
 Reliable Support: One year warranty and repair service training availability, ensuring that any problem with your product is resolved quickly.

Personal Pager

Adaptation, Inc.
Price: \$109.00
Device: environmental control
Disability: physical
 The Personal Pager provides wireless call button capability at home, school or outdoors. Both transmitter and chime receiver are battery operated. Works with any adaptive switch.

Photo Electric Switch

Adaptive Switch Laboratories, Inc.
Price: \$660.00
Device: switch
Disability: physical
 The ASL 209 projects a cone shaped, invisible beam of light to an adjustable maximum distance of 21 inches. Switch activation occurs when any object passes through or is detected in the target area.

PLEXTALK Pocket Accessible DAISY Player / Recorder

Freedom Scientific, Inc.
Price: \$275.00
Device: switch, speech output
Disability: vision
 Read books, play music, keep memos, record in a wide range of formats. Small, slim and light - at just over 2 x 4 inches and under 4 ounces - the PLEXTALK Pocket keeps up with your needs. Records with DAISY 2.02 structure. Wireless Web radio and podcasting.

Pneumatic Switch

Adaptive Switch Laboratories, Inc.
Price: \$360.00
Device: switch
Disability: physical
 The ASL 308 is a dual function switch that is also known as a Sip and Puff switch. A sip will activate one switch while a puff will activate the other switch.

Pneumatic Switch Kit

Adaptation, Inc.
Price: \$59.00
Device: switch
Disability: cognitive, physical
 Use this switch to activate with only a puff of air. It can be used with all kinds of squeeze toys, bottles and balls. It allows you to create your own object-based switch.

PowerLink 4 Control Unit

AbleNet, Inc.
Price: \$255.00
Device: switch, environmental control
Disability: cognitive, learning, physical, speech
 The PowerLink 4 allows switch users to control up to 2 electrical appliances with single switches. Features 6 unique modes of control that allows you to define exactly how, and for how long, appliances will be turned on.

CONTENTS

PRiO-mini

PRC-Salttillo

Price: \$3995.00**Device:** alternative keyboard, keyboard emulator, switch, speech output, speech trainer**Disability:** cognitive, learning, physical, speech

The PRiO-mini is an iPad-based communication tool featuring the iPad mini and the popular LAMP Words for Life Vocabulary. The PRiO-mini is configured as a dedicated device to meet the functional specifications of the Medicare/Medicaid funding requirements.

Pro-Bot

Terrapin Software

Price: \$129.95**Device:** dedicated communicator**Disability:** learning, physical

Pro-Bot offers an enticing, engaging and hands-on experience with Logo technology and robotic controls. Program Pro-Bot's route with the on-board arrow and number keys, then press go and watch Pro-Bot zip along following your instructions. Insert a pen and watch Pro-Bot draw as it moves. Sound, light, and touch sensors are built in, providing additional coding options.

Prodigi Desktop

HumanWare

Price: \$1595.00 - \$1795.00**Device:** optical character recognition, large print, speech output**Disability:** vision

Prodigi Desktop is an affordable electronic magnifier that incorporates both the Diamond Edge Text as well as speech access to people with low vision.

Proximity Switches

Advanced Multimedia Devices, Inc.

Price: \$325.00 - \$645.00**Device:** switch**Disability:** physical

Our sensor switches are designed to meet the needs of people with limited movement, strength or endurance. Activating a communicate device to express ones needs is achieved by using one of our sensor switches. They are capable of detect eye blinks, muscle twitches and the weakest of muscle movements.

ProxPAD

LoganTech

Price: \$1249.00**Device:** dedicated communicator, speech output**Disability:** cognitive, learning, physical, speech, vision

The ProxPAD is a large single location communication and learning aid that uses a RFID sound tag card. It is an excellent choice for persons with physical, visual or cognitive impairments who require tangible

objects or other sight cue to initiate communication.

ProxPAD - AAC Device

Westminster Technologies

Price: \$1395 - \$2649**Device:** speech output**Disability:** cognitive, learning, speech

The ProxPAD is a communication learning aid for people with physical, visual, or cognitive impairments. The ProxPAD uses tangible objects or images to initiate communication. It uses RFID (radio frequency identification) technology allowing each sound tag to have a different pre-recorded message. The ProxPAD offers two different activation modes. Touch mode requires the sound tag to make contact with the blue surface of the ProxPAD. Proximity mode allows the user to hover or swipe the sound card above the surface. This makes the ProxPAD perfect for a person who has limited mobility or needs it mounted under a table or wheelchair tray.

ProxTalker

LoganTech

Price: \$2995.00**Device:** speech output**Disability:** cognitive, learning, speech

The Logan ProxTalker is an augmentative communication device that offers the first moveable picture communication with a voice output. Encoded picture sound tags produce voice output when placed on any of the five device buttons and pressed. Tags can be customized with any image and sound.

ProxTalker - Portable AAC Device

Westminster Technologies

Price: \$3149 - \$3149**Device:** speech output**Disability:** cognitive, learning, speech

The ProxTalker is a robust, water resistant, easy-to-use AAC device which uses RFID (radio frequency identification) technology to enable independent verbal picture communication for non-verbal people of all ages. Place any photo, symbol, or object on a sound tag card and have a voice! To trigger voice output, place your sound tag card on any one of the 5 buttons and push. *** Light Touch option is available for the buttons on the ProxTalker at no additional cost. Call 216-325-6960 for more information. The ProxTalker Standard package includes: 80 Prerecorded sound tags 100 blank small tags Carry case with 4 page Velcro set 2 sets of programming tags 4 color pages with Velcro strips Peel and stick labels and laminates Tool kit 3 year warranty

Puff Switch - G-Switch Series

GlassOuse Assistive Device

Price: \$129**Device:** switch**Disability:** cognitive, learning, physical

Puff Switch is designed for GlassOuse

V1.2, yet you can connect it to any kind of adapted device offering a mono 3.5mm jack plug in for external switch controls. Other than regular sip and puff systems, Puff Switch uses an electronic microphone, which allows you to do clicking actions via simple puffs.

Put-Em-Arounds

Enabling Devices

Price: \$99.95**Device:** dedicated communicator, speech output, speech trainer**Disability:** cognitive, hearing, learning, physical, speech

These talking wall switches allow nonverbal children to initiate communication throughout their day. Record your message and have the children actively participate with their peers, family, teachers, etc. Put-Em-Arounds allow recording time for up to 20 seconds. Recording and rerecording requires only the push of a button.

Quad Button Digital Switch with D9 Connector

Adaptive Switch Laboratories, Inc.

Price: \$450.00**Device:** switch interface**Disability:** physical

The ASL 523 with D9 Connector is usually used in conjunction with a multi function tilt interface for direct access to tilt, recline, elevate and power legs.

Quha Zono

Grasp Assistive Technologies

Price: \$999**Device:** mouse emulator**Disability:** physical

Quha Zono is the only wireless ergonomic mouse designed for special needs. The Quha Zono makes it possible to use a computer in a flexible way, when you cannot use an ordinary mouse. Your movements control the cursor on the screen, allowing you to select, click and drag items on your desktop. It is extremely light weight and since it is completely wireless there are endless ways to wear it. Quha Zono works straight out of the box allowing full access to your computer.

QuickTalker 12

AbleNet, Inc.

Price: \$185.00**Device:** dedicated communicator, speech output**Disability:** cognitive, learning, physical, speech

Easy-to-use, go-anywhere communicator.

With QuickTalker 12, your students will be ready to start communicating in minutes. The variety of message locations and 12 minutes of total recording time, five available levels provide the flexibility you need to customize the learning outcomes for each student.

QuickTalker 7

AbleNet, Inc.

Price: \$165.00**Device:** dedicated communicator, large print, speech output**Disability:** cognitive, learning, physical, speech

Easy-to-use, go-anywhere communicator. With QuickTalker 7, your students will be ready to start communicating in minutes. The variety of message locations and six minutes of total recording time, five available levels provide the flexibility you need to customize the learning outcomes for each student.

Randomizer Gamer

Adaptation, Inc.

Price: \$169.00**Device:** switch, speech output**Disability:** cognitive, learning, physical, speech

The Randomizer records multiple messages and plays them back in random order. It has two independent levels for easy recording with 90 seconds per level. Modes of operation include single message, jumble (messages occur in random order, or eliminator (messages occur in random order but do not repeat once played).

Remote Emergency Stop Switch

Adaptive Switch Laboratories, Inc.

Price: \$735.00 - \$1185.00**Device:** switch**Disability:** physical

The ASL 504 allows a power wheelchair to be stopped remotely within a range of 20 feet. It will stop the wheelchair with the activation of one switch and will allow it to move again when it is turned off. This switch is helpful when intervention is needed during training.

Reveal 16

HumanWare

Price: \$2995.00 - \$3895.00**Device:** large print**Disability:** vision

Reveal 16 is an intuitive, easy to use and foldable digital magnifier that offers an unmatched crisp, and crystal-clear image quality thanks to its 10x optical zoom camera. Designed for seniors and elementary students, it enables to read documents, textbooks and newspapers as well as to write down notes. Reveal 16 also allows you to view distant objects like an artwork, your own backyard or even the whiteboard.

Reveal 16i

HumanWare

Price: \$3995.00 - \$4895.00**Device:** optical character recognition, large print, speech output**Disability:** vision

Reveal 16i is a smart all-in-one device that allows you to video chat with friends, check your emails, watch videos on YouTube, download applications from Play Store and have all the printed material read to you thanks to its integrated Optical character recognition (OCR) and Text-to-speech (TTS) capabilities. You can also open your books and take digital notes before sharing them with others thanks to Reveal 16i. It has an integrated touchscreen allowing you to customize your experience. You can choose to use the touchscreen like you would with a tablet or use the buttons.

Revibe Connect

Revibe Technologies

Price: \$119.95

Disability: cognitive, learning
<div class="default-styles-wrapper zpa-hidden-xs zpa-offset-bottom-xsm zpa-word-wrap disable-internal-link zp-pda-15636558">Revibe reminds students to get back to work. Instead of an embarrassing tap on the shoulder from their teacher, they feel a gentle, automated vibration from Revibe on their wrist. This type of redirection empowers students to complete their work independently, improving their self-confidence.</div>

RoboDesk - Robotic Mobile Device Mount

Prehensile Technologies

Price: \$2000 - \$3000

Device: switch interface, environmental control

Disability: physical

RoboDesk is a robotic wheelchair mount for mobile devices. It allows a user to independently deploy, position, and store mobile devices using accessible switches from a power wheelchair. RoboDesk mounts on the side rail of your wheelchair and can be powered from the chair or with an external battery.

RoboTable - Robotic Overbed Table

Prehensile Technologies

Price: \$2500 - \$3500

Device: switch interface, environmental control

Disability: physical

Rock Adapted Joystic

AbleNet, Inc.

Price: \$725.00

Device: mouse emulator, environmental control

Disability: cognitive, physical, vision

The Rock Adapted Joystick features functionality of a traditional mouse in a joystick that requires minimal hand movement. Includes 3 interchangeable joystick handles - a straight stem, a T-bar, and large soft ball.

Romeo 60

HumanWare

Price: \$3495.00

Device: alternative keyboard, braille output, speech output

Disability: vision

ETC Romeo 60 is the most powerful and portable Braille single-side embosser ever made in the market. Romeo 60 is the fastest portable embosser ever made. Romeo 60 prints 60 CPS. Wi-Fi, Bluetooth compatible, High Quality American Synthetic Speech, lighted keys and lighted control panel, braille translator included

RUBY Handheld Video Magnifier

Freedom Scientific, Inc.

Price: \$545.00

Device: large print

Disability: vision

Freedom Scientific's smallest handheld video magnifier yet, with powerful magnification from 2x to 14x and bright four-inch screen. Fold out the handle to magnify as with a magnifying glass, or fold the handle and lay the RUBY flat on a page. Runs on included rechargeable batteries or AAA alkaline batteries.

RUBY HD Handheld Video Magnifier

Freedom Scientific, Inc.

Price: \$645.00

Device: large print

Disability: vision

The RUBY HD brings you crystal-clear images and advanced features in a compact product with a 4.3-inch screen. The lightweight design is only 8 ounces. Features include 20 high-contrast color modes, Reading Lines and Masks, Freeze Frame, easy flip-out handle, and the ability to store and transfer images.

RUBY XL HD Handheld Video Magnifier

Freedom Scientific, Inc.

Price: \$895.00

Sip/Puff Breeze

Origin Instruments Corp.

Price: \$160.00**Device:** switch, switch interface**Disability:** physical

Connects directly to USB ports on computers, tablets and phones, speech generating devices and provides hardware emulation of mouse, keyboard, and joystick buttons; works with iPad using Apple adapter. The integrated pneumatic port connects directly to a range of available user interface options.

Sip/Puff Breeze with Gooseneck

Origin Instruments Corp.

Price: \$295.00**Device:** switch, switch interface**Disability:** physical

Connects directly to standard USB port on computers, tablets phones, speech generating devices and provides hardware emulation of: mouse, keyboard, joystick buttons; works with iPad using Apple adapter. Breeze has a range of available user interface options, including Gooseneck. Flexible steel gooseneck and the ball-and-socket mount enable easy and secure mouthpiece positioning.

Sip/Puff Breeze with Headset

Origin Instruments Corp.

Price: \$295.00**Device:** switch, switch interface**Disability:** physical

Connects directly to standard USB port on computers, tablets, phones, speech generating devices and provides hardware emulation of: mouse, keyboard, joystick buttons; works with iPad using Apple adapter. Breeze connects directly to a range of available user interface options, including the Sip/Puff Headset.

Sip/Puff Gooseneck

Origin Instruments Corp.

Price: \$150.00**Device:** switch**Disability:** physical

The Sip/Puff Gooseneck features a universal clamp that attaches to table tops, beds and wheelchairs. The flexible steel gooseneck and the ball-and-socket mount enable easy and secure mouthpiece positioning. The filtered mouthpiece is replaceable and a thin, pliable connecting tube interfaces to Sip/Puff Switch or Breeze.

Sip/Puff Headset

Origin Instruments Corp.

Price: \$150.00**Device:** switch**Disability:** physical

This head referenced design maximizes compatibility with other assistive technologies, like HeadMouse that employ head movement. A replaceable mouth tube is held in position with an integral

stainless steel forming wire. A thin, pliable connecting tube interfaces to Sip/Puff Switch or Breeze.

Sip/Puff Switch

Origin Instruments Corp.

Price: \$160.00**Device:** switch**Disability:** physical

The Sip/Puff Switch translates sips and puffs into independent switch closures. Batteries or external power are not required. Test buttons are integrated to assist in application testing. A twist-on pneumatic interface provides for direct connection to a range of available user interface options, including Headset and Gooseneck.

Sip/Puff Switch with Gooseneck

Origin Instruments Corp.

Price: \$295.00**Device:** switch**Disability:** physical

The Sip/Puff Switch translates sips and puffs into independent switch closures. Batteries or external power are not required. Test buttons are integrated to assist in application testing. A twist-on pneumatic interface provides for direct connection to a range of available user interface options, including the Gooseneck.

Sip/Puff Switch with Headset

Origin Instruments Corp.

Price: \$295.00**Device:** switch**Disability:** physical

The Sip/Puff Switch is a pneumatic switch. It can be used in any switch application. The headset mounts comfortably over the top of both ears and behind the head, making it less visible than typical headsets. It includes replacement mouth tubes, a switch box and 1/8-inch (3.5mm) connection cables.

Skoog for PC

Westminster Technologies

Price: \$179 - \$179**Disability:** cognitive, learning, physical

Skoog is an accessible, tactile cube that allows children with differing abilities to join an orchestra or band and take part in a range of music-making activities. Skoog's adjustable sensitivity and easy integration with GarageBand make it perfect for any inclusive music activity. Used together, Skoog and iPad expand the potential of music therapy for young children with cerebral palsy, autism, Down's Syndrome and other developmental delays by offering hands-on opportunities to create and control sound expressively. Skoog's sensory-friendly tactile nature helps greatly in developing new skills and promoting physical interaction with technology.

Small Joystick

RJ Cooper and Associates

Price: \$99 - \$239**Device:** mouse emulator**Disability:** physical

A joystick very similar to that of a power wheelchair that can 'be' the mouse on a computer or tablet. Available either in an 8x4x3 box with 0-4 large buttons on it, or a standalone version, 3x3, with 0-4 switch inputs. This is a switch type joystick so there is no proportionality but you can use the host's Acceleration parameter to emulate that.

Smart 3

Jabbla

Price: \$3995.00**Device:** dedicated communicator, speech output**Disability:** cognitive, speech

Smart 3 is a handheld AAC device with a 4.3-inch touch screen and built-in high quality amplified speakers.

Smart Reader HD

Enhanced Vision

Price: \$1895.00

A Full Page OCR system that is ideal for reading magazines, books, newspapers, recipes and any other printed material. Simply position your document and press a button, in a few seconds Smart Reader begins to read aloud. Attach headphones for privacy.

Smart Reader with Console

Enhanced Vision

Price: \$2095.00

A lightweight, portable reader/scanner with large built-in user friendly tactile control buttons, and Full Page OCR system that is ideal for reading magazines, books, newspapers, recipes and any other printed material. Read along and listen as Smart Reader reads your printed documents aloud. A user friendly Control Console offers easy-to-use tactile buttons. Attach headphones for privacy.

The TalkTablet PACKAGE includes a top-rated Samsung Galaxy 7" tablet (\$399) or a 10" tablet (\$599), a drop-resistance carrying case/stand (6 colors), and a copy of award-winning TalkTablet PRO speech software (Android version). To see how TalkTablet compares to other AAC/Speech apps, visit... www.TalkTablet.com THIS PACKAGE OFFERS THE BEST VALUE IN THE AAC/SPEECH DEVICE MARKET

SpeechWatch

Gus Communication Devices Inc

Price: \$399.99

Device: dedicated communicator, speech output

Disability: cognitive, hearing, learning, speech

The SpeechWatch® is the world's first stand alone AAC/speech "device" that is worn on the wrist and is ideal for children and adults with autism, aphasia (stroke), Parkinson's, or any condition that affects their ability to communicate with friends and family. Each SpeechWatch is individually prepared and configured by one of our technicians prior to shipping. They install, modify and test the TalkTablet AAC Speech app so it is ready to use for communication the moment you take it out of its gift box. The SpeechWatch is a less cumbersome alternative to a tablet or cell phone, yet offers the same benefits including cell phone, internet access, texting, email, social media etc.

Sphero Edu

Sphero

Price: \$49.99 - \$2500

Sphero Edu uses app-enabled robots to foster creativity through discovery and play, all while laying the foundation for computer science. Our program goes beyond code with collaborative STEAM activities, nurturing students' imaginations

in ways no other education program can. Cross-platform apps are approachable for all skill levels, allowing us to reach as many minds as possible. Think outside the box and inspire your future. This is Sphero Edu.

Ultimate Switch with 19-inch Gooseneck

Enabling Devices

Price: \$149.95

Device: switch, switch interface

Disability: physical

The Ultimate Switch is a universal, versatile, multifaceted switch. It is designed to be used by even the most profoundly challenged or neurologically impaired individuals. It requires only the slightest touch for activation (10 grams of force), yet can easily withstand the abuse of gross body movements or severe blows.

USB - Left/Right Click

Adaptive Switch Laboratories, Inc.

Price: \$75.00

Device: switch interface

Disability: physical

The ASL 561 is a small and simple adaptor that plugs directly into a USB port. This device has two female mono input ports that will allow two switches to activate the left and right click of a communication device or computer. Switches not included.

USB Adaptor/Charger for Scooters and Power Wheelchairs - cable length 0.5m - 20 inch

Cheelcare

Price: \$44.99

Never get stuck without power! Charge up right from your power chair or scooter with the best adapter on the market! Easy access to USB ports as you can place it where convenient. New - mount included! You can drive your wheelchair with the adapter plugged in.

Via Pro

PRC-Salttillo

Price: \$4995 - \$5495

Device: keyboard

Disability: speech

Built on the processing power of iOS, the Via Pro offers the familiarity iOS lovers prefer. It's easy-to-use and intuitive, right out of the box. Choose from two of the most popular AAC apps, - TouchChat with WordPower™ or LAMP Words for Life. Via Pro also comes with either the Active or Classic wrap and a sturdy handle and stand to ensure lasting durability. The splash-resistant design meets or exceeds all federal standards for DME device protection. The Via Pro offers a comprehensive variety of access options, - direct touch, wired and wireless switch compatibility, and head tracking within TouchChat. The device comes with PRC-Salttillo's 2 year warranty.

Vibe

Jabbla

Price: \$5895 - \$6835

Device: alternative keyboard, keyguard, mouse emulator, speech output

Disability: cognitive, speech
Vibe is a lightweight portable device with a 10" touchscreen in the front and an internal second display on the back which makes it easier to communicate in a natural way. Face-to-face communication with friends, family and carers becomes more natural. Powerful speakers have been integrated in the modern design.

Victor Reader Stratus

HumanWare

Price: \$455.00

Device: speech output

Disability: vision

Victor Reader Stratus Desktop Models are designed for reading complex and highly structured books like textbooks, reference works and school manuals. It supports all DAISY navigation levels and has advanced functionality such as skipping instantly to a specific page and placing multiple bookmarks.

Victor Reader Stream

HumanWare

Price: \$395.00

Device: alternative keyboard, speech output

Disability: vision

Download books and MP3s on your Stream and leave home with your library in the palm of your hand. This DAISY-MP3 and NISO player lets you read through complex books as well as novels and magazines. You can also use its built-in text-to-speech to read books in text format.

Vindicator

Compusult Limited

Price: \$895.00 - \$2995.00

Device: braille output, large print, speech output

Disability: cognitive, vision

Vindicator converts information from visual indicators on electronic equipment (such as message displays, lights, LEDs, LCDs, etc.) into digitized speech output and/or large print, high contrast display output. Vindicator allows blind and visually impaired employees to independently work with various types of electronic equipment.

VisioBook

Insidevision Inc.

Price: \$3200.00

VisioBook HD is a portable full HD video magnifier that provides exceptional image quality and folds flat for easy storage when not in use. Lightweight and portable. Folds and stows in seconds. Superior image quality, due to full HD camera, signal processing, and screen. Full HD camera for distance and close-up viewing. Screen size 13" or 16" screen. More than 5 hours of battery life.

VisionBoard 2

AbleNet, Inc.

Price: \$55.00

Device: alternative keyboard, large print
Disability: cognitive, learning, physical, vision

VisionBoard 2 offers advantages to people who find it painful or difficult to use traditional keyboards by improving readability and reducing eyestrain with 1-in/2.54-cm keys and large, bold black-on-white letters/numbers. Low vision users can increase/improve capabilities with greater comfort and control. Features two USB 2.0 side ports and function keys.

VisionBoard Wireless

AbleNet, Inc.

Price: \$60.00

Device: alternative keyboard, large print
Disability: learning, physical, vision

VisionBoard Wireless is a wireless keyboard that provides 1-in/2.5-cm available with either white lettering on black keys or black lettering on white keys. Compatible with Windows 98SE and newer, and MAC OS 10.1.5 and newer.

VisuALS

VisuALS Technology Solutions

Price: \$2700

Device: voice recognition, dedicated communicator, speech output

Disability: physical, speech

VisuALS is an affordable assistive communication (eye tracking) device that allows people to communicate and stay connected with their world by using only their eyes. The VisuALS System is comprised of a tablet computer, eye tracking bar (purchased separately), bluetooth speaker, a case, a mount unit and proprietary software. All of these elements are pre-integrated by VisuALS before shipping to you to simplify initial setup. Features of the system include text-to-speech, web browser, notepad, home automation controls, commonly used phrases, and more. To learn more, visit <https://visuals.tech/product/>

VoiceCue

Attainment Company, Inc.

Price: \$39.00

Device: speech output

Disability: cognitive, learning, vision
Auditory cueing - record up to five messages and set them to designated times. Settings can be every day of the week, five days of the week or just once a week. Lightweight and discrete. Includes clip-on holder and two AAA batteries. 2.5 x 4 inches.

VR Trek

HumanWare

Price: \$699.00

Device: alternative keyboard, speech output

Disability: vision

The Victor Reader Trek combines the world renowned simple book reading and media

playback experience of the VictorReader Stream with the navigation guidance technology found in the Trekker Breeze.

VZ-R HDMI/USB Dual Mode 8MP Document Camera

IPEVO Inc

Price: \$219

Disability: vision

IPEVO VZ-R HDMI/USB Dual Mode 8MP Document camera is a real-time image capturing device. It can capture materials such as documents, textbooks, artwork, devices, or 3D objects. Connect it to a TV, monitor, or projector via HDMI.

Wave Switch

Technical Solutions Australia

Price: \$240.00

Device: switch

Disability: learning, physical, vision

An infrared light beam is reflected back to a sensor which triggers the switch any time you move your hand or any body part within about 5cm of the sensor.

Wearable Talker

Enabling Devices

Price: \$139.95

Device: dedicated communicator, speech output, speech trainer

Disability: cognitive, learning, physical, speech

Wearable Talker is so versatile you can wear it on any part of your body, your wrist, forearm, or leg or place it on a wheelchair arm. Features: 20 seconds of recording time, 10 seconds per message, 2 messages.

WeWALK Smart Cane

Westminster Technologies

Price: \$500

Disability: vision

WWALK is a revolutionary smart cane developed for the visually impaired. WeWALK attaches to the traditional white cane, transforming it into an innovative smart cane. This technology increases visually impaired people's independence and promotes full-participation in society via three of its features. Detects obstacles; Paired with phone; Evolves with Integrations.

Windows Compatible Keyboard and Keyguard Combination

Turning Point Therapy and Technology, Inc.

Price: \$150.00 - \$200.00

Device: keyguard, large print

Disability: physical, vision

Keyboard and keyguard combination unit compatible with Windows. Also, available in large print.

Wireless IR Mouse Emulator

Adaptive Switch Laboratories, Inc.

Price: \$1560.00 - \$1680.00

Device: mouse emulator

Disability: physical

ASL 550 and/or 551 a desktop wireless, infrared transmitter/receiver mouse emulator with three switch configuration. Full mouse emulation is achieved with only three switches. The five switch version allows the wheelchair joystick to become a joystick operated mouse. Computer access from the wheelchair is achieved through a wireless infrared connection.

Wireless Switch Transmitter and Receiver

Adaptive Switch Laboratories, Inc.

Price: \$800.00

Device: switch, switch interface

Disability: physical

The ASL 503 allows you to transmit up to five switches to a remote location. This is achieved with a 12 volt transmitter/receiver that has five mono ports as inputs on the transmitter and five mono outputs on the receiver. Switches not included.

Wobble Switch

Adaptive Switch Laboratories, Inc.

Price: \$180.00

Device: switch

Disability: physical

The ASL 304A is a single function switch that has a light action spring and can be activated by contact from any direction.

Woodpecker

Jabbla

Price: \$105.00

Device: switch interface

Disability: learning, physical, speech

Switch/joystick interface. One to five switches. Mouse control, action/reaction, input for Mind Express and KeyVit.

Xbox One/S/X and PS4/5 Game Controllers

RJ Cooper and Associates

Price: \$99 - \$239

Device: mouse emulator

Disability: physical

A variety of alternative game controllers used in conjunction with your Xbox Adaptive Controller (XAC) for all modern game platforms. Small Joystick (Boxed), Small Joystick (standalone), Full Button Pad, Button Pad, Large Joystick. All available with switch input(s) and/or large buttons that plug into the rear of the XAC.

Zingui 2

Jabbla

Price: \$3995.00 - \$7295.00

Device: switch, dedicated communicator, environmental control, speech output

Disability: speech

Zingui 2, is a display AAC device featuring an 8-inch touchscreen and weighs only 850 gr (1 lbs 14 oz). Zingui 2 comes in two versions: the basic version with digitized speech and the Plus version with digitized speech and text-to-speech.

[illegible]

101 Animations

RJ Cooper and Associates

Price: \$0

Special Skill: cognitive redevelopment, early childhood, adapted keyboard/switch access,

Disability: cognitive, physical

Skill Level: infant/toddler, preschool, elementary

Operating System: Windows, Mac

Each activation of the switch causes one of 101 large, loud animations to be played. All Windows and Mac OS's supported.

2 + 2

RJ Cooper and Associates

Price: \$59.00

Special Skill: early childhood,,

Disability: learning, physical, vision

Skill Level: elementary, secondary

Operating System: Windows, Mac

This is a talking math facts program. You can edit the facts list and use addition, subtraction, multiplication and division with numbers up to 999, even decimals. An easy-to-follow scan system is built in for single switch operation, if desired. 2+2 has drill mode, test mode and help function.

AAC Evaluation Genie

Tip Top Apps

Price: \$12.99

Special Skill: communication,, diagnostic

Disability: cognitive, physical, speech

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Operating System: iOS (Apple)

AAC Evaluation Genie is an informal diagnostic tool that is intended to assist speech-language pathologists and others with identifying skill areas that relate specifically to the language representation methods commonly found on augmentative communication systems. There are 13 subtests that can be administered with screening options available for each subtest. English and Spanish language options are available. Direct touch, single and two switch scanning access methods options are available.

ABC Maestro

E-Glas d.o.o.

Price: \$69.95 - \$129.95

Special Skill: language development,,

Skill Level: preschool, elementary

Operating System: Windows

ABC Maestro is unique educational rehabilitation software for learning how to write, type, and read. It is primarily intended for students with special educational needs. ABC Maestro offers children faster learning through play. It has 14 fun activities divided into 3 categories - letters, words and numbers.

AbleLink JobQuest

AbleLink Smart Living Technologies

Price: \$2500.00

Special Skill: basic living skills, cognitive redevelopment, vocational,, diagnostic,

instructional management

Disability: cognitive

Skill Level: secondary, adult

Operating System: Other

AbleLink JobQuest is a web-based service that gives people with cognitive disabilities a voice in their own career path. Employing AbleLink's ATLAS survey engine and Data Reports system, JobQuest presents multiple job categories and gathers data in real time regarding the preferences of the individual. Students and adults with intellectual and developmental disabilities often have difficulty understanding the nature of various types of work. Pictures and words are limited in conveying tasks, the work environment, tools that might be used, or other elements that could affect job preference.

AbleLink VantagePoint

AbleLink Smart Living Technologies

Price: \$2500.00

Special Skill: basic living skills,, diagnostic, IEP/IPP

Disability: cognitive, learning

Skill Level: secondary, adult

Operating System: Windows, iOS (Apple), Android

VantagePoint software includes four satisfaction surveys addressing key service areas: My Views About...My Home, My Work, Accessing My Community, and My Day Program. The VantagePoint service includes web-based surveys, data reporting, and unlimited usage.

AbleLink WayFinder

AbleLink Smart Living Technologies

Price: \$149.99

Special Skill: basic living skills, cognitive redevelopment, vocational,, authoring system, instructional management

Disability: cognitive, learning

Skill Level: secondary, adult

Operating System: iOS (Apple), Android

WayFinder uses GPS-based personalized audio and visual cues to support independent travel via bus systems and on foot. Specific travel routes can be created and activated from the GPS location. Users then receive customized audio and visual instructions, prompting them through route navigation. Available for the iPhone and Android phones.

AbleNet Equals Math Program

AbleNet, Inc.

Price: \$2395.00

Special Skill: basic living skills, early childhood,, IEP/IPP

Disability: cognitive, learning, physical

Skill Level: preschool, elementary, secondary

Operating System: Windows, Mac, iOS (Apple), Android, Chrome

Equals Math Program is a Pre K-12 curriculum that provides mathematics instruction for educators who work with students in special education or in alternative education programs. It encompasses pre-

readiness math skills, fundamental math skills and higher order math skills. Lessons provide three levels of instruction: mild, moderate and severe.

Access Algebra

Attainment Company, Inc.

Price: \$129.00 - \$399

Skill Level: secondary

Access Algebra is a research-based math curriculum for high school students who have moderate-to-severe developmental disabilities, including those with an intellectual disability or autism. The curriculum gives students access to content their high school peers are learning, but with the adaptations and support they may need to succeed. The curriculum accommodates students who have unique needs, including those who are nonverbal and those whose math skills are at an emergent numeracy level.

Access Language Arts iPad app

Attainment Company, Inc.

Price: \$39.99

Special Skill: cognitive redevelopment, communication, language development, adapted keyboard/switch access, large print, scanning, single switch, multi switch, speech output,

Disability: cognitive, learning, physical

Skill Level: elementary, secondary, adult
Adapted stories: Neighbors, Sadako and a Thousand Paper Cranes, The Diary of Anne Frank, and We Beat the Streets. Five-step sequence: Preview, vocabulary instruction, read the adapted story, comprehension questions, sequencing activity. Research has shown to be highly effective in teaching language arts skills aligned to standards.

Access Language Arts software

Attainment Company, Inc.

Price: \$99.00

Special Skill: cognitive redevelopment, communication, language development, adapted keyboard/switch access, large print, scanning, single switch, multi switch, speech output,

Disability: cognitive, learning, physical

Skill Level: elementary, secondary, adult

Operating System: Windows, Mac

Adapted stories: Neighbors, Sadako and a Thousand Paper Cranes, The Diary of Anne Frank, and We Beat the Streets. Five-step sequence: Preview, vocabulary instruction, read the adapted story, comprehension questions, sequencing activity. Research has shown to be highly effective in teaching language arts skills aligned to standards.

Access Language Arts: WRITE Software

Attainment Company, Inc.

Price: \$99.00 - \$990.00

Special Skill: language development,,

Disability: learning, physical

Skill Level: secondary

A researched and standards-based approach for secondary students practicing reading and writing skills. Prompts students to write grade-aligned opinion paragraphs for nonfiction and fiction and improves reading comprehension and vocabulary development. Can be used as a complement to Teaching to Standards: English Language Arts or a stand-alone curriculum.

Accessible Literacy Learning (ALL) Reading Program Software

Tobii Dynavox

Price: \$79.99

Special Skill: communication, early childhood, language development, scanning, single switch, multi switch,

Disability: cognitive, learning, physical, speech

Skill Level: elementary, secondary

Operating System: Windows

The ALL Reading Program Software is designed specifically to teach basic reading skills to students who are non-verbal and is accessible through touch/eyegaze/scanning. It enables students to bypass oral responses at all stages of instruction, allowing even the most challenged students to learn to read. Free trial available.

Accessbyte Arcade

Accessbyte

Price: \$150

Special Skill: basic living skills, cognitive redevelopment, early childhood, language development, vocational, adapted keyboard/switch access, large print, speech output,

Disability: cognitive, hearing, learning, physical, vision

Skill Level: preschool, elementary, secondary, adult

Operating System: Windows, Mac, iOS (Apple), Android, Chrome, Other

Accessbyte Arcade is a collection of fun, funky and fully accessible games for students with disabilities. Log in to a highly visual and entirely audible gaming experience from home or school. Graduated challenge for players of all skill levels, or remove the challenge and focus on fun!

App MyEar

App MyEar

Price: \$9.99

Special Skill: speech output, voice recognition,

Disability: hearing

Skill Level: elementary, secondary, adult

Operating System: iOS (Apple)

Are you deaf and tired of lipreading?

Even the best lipreaders follow ~22% of their conversations - imagine what you're missing out on. MyEar App was developed by Gerald Isobe, deaf hall-of-fame golfer and his son, Brandon. Gerald grew up lipreading but became frustrated with understanding only 30% of what was being said and tired of asking people around him "what are you talking about?" This app was created from those frustrations and it's an app he and others are using to communicate with their hearing colleagues, friends, and family.

App MyGroup

App MyEar

Price: \$1

Disability: hearing

Skill Level: elementary, secondary, adult

Operating System: iOS (Apple)

As a deaf person, have you ever found yourself as the only deaf person at a family dinner with no way to understand what's

going on? As a family member, friend, or co-worker of a deaf person and wanting to connect but have:

– no idea where hire an ASL interpreter – no idea if an ASL interpreter is good or bad App MyGroup is here to help. This app helps hearing people communicate clearly with deaf friends/family members. This app is not for medical/legal use and we use only Registry of Interpreters for the Deaf (RID) certified interpreters in our network — aka the best. If you're tired of seeing your deaf family member/friend left out of group conversations, then try out this app!!

APP2Speak®

APP2speak

Price: \$179.99 - \$179.99

Special Skill: communication, speech output,

Disability: speech

Skill Level: adult

Operating System: iOS (Apple), Android APP2Speak® is a fully functional augmentative and alternative communication (AAC) app for individuals who experience difficulty speaking and communicating. Simply touch a pre-loaded photo to talk, or easily customize the app by adding your own photos or by taking a photo within the app itself. APP2Speak uses a pre-recorded (or any voice that you personally record) to speak your message to family and friends. The software provides easy-to-read instructions and includes a built-in "Help," system, and it requires no special training to create the optional, "voice," and "photo," customizations. Custom pages are endless. Create and save one or more phrases per photo for convenient conversation. Create your Text-to-Speech page, with the option to save text to speech history of common words and phrases. APP2Speak is available on iOS and Android platforms.

A collection of linked augmentative communication pages for a literate, fluent AAC user in a hospital neural rehab unit.

AT-node for Access

Koester Performance Research

Price: \$0

AT-node for Access is a public, searchable collection of research on the use of computer access interfaces by people with disabilities. AT-node serves as an evidence-based tool for AT service providers and end users to facilitate informed selection of text entry interfaces. The data can be explored from multiple standpoints to create benchmarks for text entry based on the type of interface, individual diagnosis, and body site being considered for interface activation. The information can inform interface selection, goal setting, and optimizing training for selected interfaces. Researchers and students can use AT-node to identify relevant publications and data on computer access, saving significant time and effort. It provides an efficient way of learning what has already been done and what gaps remain in the field.

ATLAS Travel Readiness Assessments

AbleLink Smart Living Technologies

Price: \$2500.00

Special Skill: basic living skills, cognitive redevelopment, vocational, , diagnostic, instructional management
Disability: cognitive, learning

Operating System: Windows

Single switch activity center for classroom/home use featuring dot-to-dot, concentration, matching and maze games. Six age-appropriate animated graphics libraries:

sports, animals, dinosaurs, cosmetology, vacations, and independent living. Choose the graphic library and one or more games, set a schedule of play, adjust difficulty, save game setups, and print reports.

MyLife

Cognitopia

Price: \$10 - \$200

Special Skill: basic living skills, cognitive redevelopment, communication, vocational, speech output, voice recognition, IEP/IPP

Disability: cognitive, learning

Skill Level: elementary, secondary, adult

Operating System: Windows, Mac, iOS (Apple), Android, Chrome

MyLife is a tool for IEP self-direction that builds students self-advocacy skills. Students put IEP goals in their own words, document their progress, and use that data to run their own IEP meeting.

MyLife makes it easy for students to organize the content in their IEP and create presentations to run their IEP meetings. MyLife provides digital storytelling that helps students communicate who they are, what they can do, and their post-school goals. A student's MyLife portfolio stays with them through transition and beyond.

Naming Therapy

Tactus Therapy Solutions

Price: \$24.99

Special Skill: cognitive redevelopment, communication, language development, ,

Disability: cognitive, learning, speech

Skill Level: preschool, elementary, secondary, adult

Operating System: iOS (Apple), Android

Readtopia

Don Johnston, Inc.

Price: \$625.00

Special Skill: communication, language development, ,

Disability: cognitive, learning

Skill Level: elementary, secondary, adult

Operating System: Windows, Mac, Chrome

Readtopia™ is a comprehensive reading curriculum for middle and high school students with autism and other complex needs. It brings first-hand experiential learning into the classroom, -iteaching students standards-aligned social studies, ELA, and science content. For many, reading is not a natural act, but everyone naturally derives learning from first-hand experience. The purpose of Readtopia is to bring first-hand experiential learning into the classroom, so students can bridge the gap between learning through reading, and learning through experiencing. In so doing it taps students' natural learning capabilities, and channel them into reading capabilities so students can begin to more fully participate both in school and in life. Readtopia takes students on-location throughout the world as they learn to

BACK TO
CONTENTS

read through original video, activities, and graphic novels.

Responder2

Compusult Limited

Price: \$5995.00 - \$9995.00

Special Skill: large print, speech output, **Disability:** cognitive, learning, physical, vision

Skill Level: secondary, adult

Operating System: Windows, Mac
 Consists of language, attention and memory games designed specifically for children with autism. The language games teach vocabulary, syllable segmentation, sound blending, reading and spelling. The attention games teach matching, same-to-same and figure-ground discrimination. Adults with stroke/ traumatic brain injury can use the CD to recover language and memory skills.

Tunefork app

Tunefork
Price: \$0
Special Skill: communication, language development, telecommunications, diagnostic
Disability: hearing
Skill Level: preschool, elementary, secondary, adult
Operating System: Android
 Tunefork is audio personalization software that delivers the optimal hearing experience, improving quality of life for people with hearing loss and elders. Hearing is an individual experience. Each of us has unique hearing "Earprint." This is why no one sound system is perfect for everyone. When you listen to unbalanced audio, you will always miss something. In some cases, you may even cause damage to your hearing. The Tunefork app allows you to take a hearing test when and where is most convenient to you. You could take the test in your living room, without going anywhere, and discover your unique "Earprint." The test is simple yet accurate, following the same protocols as a clinical hearing test that would usually only be done in special booths in hearing centers.

Turn Taking

Judy Lynn Software, Inc.
Price: \$49.00
Special Skill: cognitive redevelopment, early childhood, eye-hand coordination, single switch, multi switch,
Disability: cognitive, learning, physical
Skill Level: infant/toddler, preschool, elementary
Operating System: Windows
 The program is designed to teach the concept of waiting your turn. When a student's prompt appears, the student presses their switch, keyboard key, or touch window to reveal a section of a picture. Once the en-

tire picture is displayed, a video clip reward related to the picture is played.

Turn-Talking

RJ Cooper and Associates
Price: \$1.99 - \$59.00
Special Skill: communication, language development,,
Disability: cognitive, physical, speech
Skill Level: preschool, elementary, secondary
Operating System: Windows, Mac, iOS (Apple)
 This software takes the user on a guided tour of taking turns in a conversation. A supervisor writes a script and has a person, close in age to the user, record the user's phrases. Turn-Talking then conducts that conversation.

Vital

Vital

Price: \$399

Special Skill: , optical character recognition, speech output,

Disability: learning, vision

Skill Level: preschool, elementary, secondary

Operating System: Windows, Mac, Android

From tables to graphs to maps, create digital, accessible learning content with Vital that can be explored by students with visual impairments on tablets. At Vital, we believe that all students should be provided truly accessible learning content. Whether created for a student with a visual impairment, ADHD, autism or dyslexia, students can explore and learn through sensory channels that best fit their learning style. Students with visual impairments can explore the tablet through their sense of touch by feeling vibrations, much like exploring tactile graphics, and listen for audio cues and text-to-speech. Learn more at www.vital.education.

Vocabulary Fitness

Merit Software

Price: \$79.00

Special Skill: cognitive redevelopment, communication, language development, ,

Disability: cognitive, learning

Skill Level: elementary, secondary, adult

Operating System: Windows

Vocabulary Fitness provides students with interactive vocabulary lessons to help them master commonly confused and misused words. After an assessment, students work at their own pace and receive help and contextual feedback throughout. Scores are kept in a record management system that allows teachers to view and print results.

Vocabulary Stretch

Merit Software

Price: \$79.00

Special Skill: cognitive redevelopment, language development, ,

Disability: cognitive, learning

Skill Level: elementary, secondary, adult

Operating System: Windows, Mac

Helps students recognize words in different contexts and understand the derivation of many English words. Students advance as they demonstrate readiness. A convenient record management system tracks scores and allows teachers to view detailed reports. Designed for students in grades 4 through 10 and can be used by older students.

OTHER ASSISTIVE TECHNOLOGY

[illegible]

10 Foot TriFold Portable Wheelchair Ramp

Express Ramps

Price: \$519.95

Product Type: seating/positioning/ mobility

Skill Level: elementary, secondary, adult

Disability: physical

The Advantage Tri-Fold Ramp from EZ-Access offers the length required for wheelchairs and scooters to access mini and full-size vans, go up a number of steps, or raised landings. Advantage Tri-Fold Ramps split into 2 pieces, have anti-slip coatings, and feature bottom transition plates that make loading a breeze.

2-Point Padded Hip Belt

Bodypoint Inc.

Price: \$60.00 - \$129.00

Product Type: seating/positioning/ mobility

Skill Level: preschool, elementary, secondary, adult

Disability: physical

Highest quality materials and advanced design details make Bodypoint belts the top choice of therapists and wheelchair users around the world. Our padded hip belt with two points of attachment is built for maximum functionality, durability, and all-day user comfort. Three pull styles and five buckle styles accommodate individual needs. Machine wash and dry.

4 Switch Proximity Tray Array

Adaptive Switch Laboratories, Inc.

Price: \$4480.00 - \$5316.00

Product Type: seating/positioning/ mobility

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: physical

The ASL 106 offers four proximity sensors that allow the driver to operate a power wheelchair. These sensors can be positioned inside a tray or at any available switch site. It was designed for those who have problems maintaining a switch that requires pressure or contact.

4-Point Padded Hip Belt

Bodypoint Inc.

Price: \$82.00 - \$167.00

Product Type: seating/positioning/ mobility

Skill Level: preschool, elementary, secondary, adult

Disability: physical

Four points of attachment on this belt ensure the pelvis stays in an aligned, stable position, secure against the wheelchair seat and back supports. Primary straps position the belt while secondary straps anchor it into position. Bodypoint's high quality materials and design details ensure maximum functionality, durability, and all-day comfort. Three pull styles and five

buckle styles accommodate individual needs. Machine wash and dry.

5 Foot TriFold Portable Wheelchair Ramp

Express Ramps

Price: \$219.95

Product Type: seating/positioning/ mobility

Skill Level: elementary, secondary, adult

Disability: physical

The Advantage Tri-Fold Ramp from EZ-Access offers the length required for wheelchairs and scooters to access mini and full-size vans, go up a number of steps, or raised landings. Advantage Tri-Fold Ramps split into 2 pieces, have anti-slip coatings, and feature bottom transition plates that make loading a breeze.

5 Little Men in a Flying Saucer with BSL Signs Kindle

Co-Sign Communications (inc DeafBooks.co.uk)

Price: \$3.24

Product Type: adapted play/manipulative, instructional material, learning aid, sensory stimulation

Skill Level: infant/toddler, preschool, elementary

Disability: cognitive, hearing, learning, speech

Available from amazon.com Thirty-five pages in fixed page landscape format to keep the relevant text with the signs. Part of a series to promote essential early learning skills. Well-loved counting Nursery Rhyme with signs to enjoy with your child. Double-tap the sign graphics for pop-up text describing the movements.

6 Foot TriFold Portable Wheelchair Ramp

Express Ramps

Price: \$249.95

Product Type: seating/positioning/ mobility

Skill Level: elementary, secondary, adult

Disability: physical

The Advantage Tri-Fold Ramp from EZ-Access offers the length required for wheelchairs and scooters to access mini and full-size vans, go up a number of steps, or raised landings. Advantage Tri-Fold Ramps split into 2 pieces, have anti-slip coatings, and feature bottom transition plates that make loading a breeze.

6610 CHEST SUPPORT

Danmar Products, Inc.

Price: \$150.00

Product Type: seating/positioning/ mobility, sensory stimulation

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: cognitive, physical

A core of moldable material surrounded in soft foam provides a comfortable chest support that can form to follow body contours. There are strap attachments on

the Yokes for wheelchairs, travel chairs and strollers, and the lap belt has pivot mounts for optimal adjustability.

6611 CLEAR CHEST SUPPORT

Danmar Products, Inc.

Price: \$130.00

Product Type: seating/positioning/ mobility, sensory stimulation

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: cognitive, physical

Flexible yet durable, this easy-to-use design has no bulky hardware and is hardly noticeable! It offers positioning for individuals who benefit from having their upper body stabilized and hips held at a proper angle. It can be used with most standard, high back or custom wheelchairs and strollers.

6615 SPLIT CLEAR CHEST SUPPORT

Danmar Products, Inc.

Price: \$130.00

Product Type: seating/positioning/ mobility, sensory stimulation

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: cognitive, physical

This flexible yet durable anterior support provides a firm fit, and is designed to be easy on and off. It can be adjusted for seasonal clothing changes and growth. Made of heavy duty 1/8" thick clear PVC vinyl, it will last much longer than harnesses made of fabric.

6620 MODULAR CHEST SUPPORT

Danmar Products, Inc.

Price: \$195.00

Product Type: seating/positioning/ mobility, sensory stimulation

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: cognitive, physical

We have surrounded a core of moldable material with soft foam to create a chest support that is comfortable and can be formed to follow body contours. The yoke arms and lap belt pivot, allowing for tailored adjustments for ultimate comfort.

6626 TRUNK SUPPORT SYSTEM

Danmar Products, Inc.

Price: \$150.00

Product Type: seating/positioning/ mobility

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: cognitive, physical

Designed for use in a wheelchair or custom seating system, this system provides firm support by using an inner core of molded nylon, with a vinyl-coated soft form cover for comfort and ease of cleaning, and can be permanently mounted to the back of a chair.

6760 UTENSIL HANDLES

Danmar Products, Inc.

Price: \$23.00

Product Type: adapted play/manipulative, learning aid, sensory stimulation

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: cognitive, learning, physical
Versatile and comfortable, these handles will hold eating utensils, personal hygiene items, activity brushes and crayons. Specially contoured sections fit into the hand and have a slide-buckle strap that can be easily adjusted for fit. Available in Blue, Orange or Red and sizes Small or Large.

6762 THERAPY HANDLES

Danmar Products, Inc.

Price: \$26.00

Product Type: adapted play/manipulative, learning aid, sensory stimulation

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: cognitive, learning, physical
Versatile and comfortable, these handles will hold eating utensils, personal hygiene items, activity brushes and crayons. They come with a 1" foam extension to position the thumb and help with grip. Utensils can be placed in the end of the handle or in the thumb extension.

6763 HANDY HELPERS

Danmar Products, Inc.

Price: \$9.95

Product Type: adapted play/manipulative, learning aid, sensory stimulation

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: cognitive, learning, physical
This simple, snap-on device allows a person to self-feed. It's easy to use, soft and comfortable, and comes with a spoon as shown. The vinyl-coated foam is easy to clean with warm soapy water.

6764 KNOB HOLDER

Danmar Products, Inc.

Price: \$13.00

Product Type: adapted play/manipulative, instructional material, learning aid, sensory stimulation

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: cognitive, learning, physical
This attachment fits into the end of the Utensil or Therapy Handle, and is used to positioning a writing instrument. Using this holder makes a pen or pencil's angle adjustable, which makes writing easier. and, no matter what position the hand is in, the user can see what is being drawn or written.

6766 TOY HOLDER

Danmar Products, Inc.

Price: \$17.00

Product Type: adapted play/manipulative, learning aid, sensory stimulation

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: cognitive, learning, physical
This simple, snap on device allows an individual to interact with a small toy placed in his/her hands. Velcro bands are used to hold a toy in place, while webbing attaches around the palm or wrist. It can be adjusted to fit any size. Sold as a pair.

6767-A COMBO UTENSIL HANDLE and KNOB HOLDER

Danmar Products, Inc.

Price: \$39.00

Product Type: adapted play/manipulative, learning aid, sensory stimulation

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: cognitive, learning, physical

This all-in-one tool combines the Utensil Handle (#6760) and the Knob Holder (#6764) with Anchor Strap.

6767-B COMBO THERAPY HANDLE AND KNOB HOLDER

Danmar Products, Inc.

Price: \$42.00

Product Type: adapted play/manipulative, learning aid, sensory stimulation

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: cognitive, learning, physical

This all-in-one tool combines the Therapy Handle (#6762) and the Knob Holder (#6764) and Anchor Strap.

6770 MIBOWL HOLDER

Danmar Products, Inc.

Price: \$45.00

Product Type: instructional material, learning aid, sensory stimulation

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: cognitive, learning, physical

This new design makes self-feeding easier than ever! Suction cups hold our foam bowl holder in place, preventing movement around the table. Use with our Handy Helpers (6763) for even more eating independence. The bowl is included and our vinyl-coated foam is easily cleaned with warm soapy water.

6771 MIPLATE HOLDER

Danmar Products, Inc.

Price: \$45.00

Product Type: adapted play/manipulative, learning aid, sensory stimulation

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: cognitive, learning, physical

This new design uses suction cups to hold the plate in place, preventing movement around the table, making self-feeding easier than ever! Use with our Handy Helpers (6763) for even more eating independence. Our vinyl-coated foam is easily cleaned with warm soapy water.

6775 MITABLE TOPPER

Danmar Products, Inc.

Price: \$55.00

Product Type: adapted play/manipulative,

seating/positioning/mobility, sensory stimulation

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: cognitive, learning, physical

This soft foam table topper makes hard surfaces safer than ever, protecting heads and hands from making contact while also protecting table surfaces during art activities. The foam is vinyl-coated and easy to clean with warm soapy water.

6780 MITABLE TOPPER KIT

Danmar Products, Inc.

Price: \$99.00

Product Type: adapted play/manipulative, learning aid, seating/positioning/mobility, sensory stimulation

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: cognitive, learning, physical

Comes complete with Table Topper Pad, Bowl or Plate Holder, and Handy Helper with spoon. The suction cups on the Bowl or Plate Holder sticks right to the Table Topper Pad and will not move. All components are vinyl-coated and easy to clean with warm soapy water.

6785 MIMITTS

Danmar Products, Inc.

Price: \$105.00

Product Type: adapted play/manipulative, seating/positioning/mobility, sensory stimulation

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: cognitive, physical

Our all-foam mitts are specially designed to help absorb and deflect the impact when an individual strikes out. They can be applied and secured quickly with Velcro straps, protecting both the wearer from injuring themselves as well as possibly injuring person(s) nearby; clean with warm soapy water.

6809 HENSINGER WITH HIGH BACK

Danmar Products, Inc.

Price: \$130.00

Product Type: adapted play/manipulative, learning aid, seating/positioning/mobility, sensory stimulation

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: cognitive, learning, physical, speech, vision

Revolutionary in the world of cervical collars, this soft but supportive foam collar braces the head by supporting the occiput and jawline, and is 1" taller in the back. Helping to maintain mid-line head positioning results in improved breathing, swallowing and simplified feeding and aids with social interaction and awareness.

6810 HENSINGER HEAD SUPPORT

Danmar Products, Inc.

Price: \$125.00

Product Type: seating/positioning/ mobility, sensory stimulation

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: cognitive, learning, physical, speech, vision

Revolutionary in the world of cervical collars, the soft yet supportive foam is designed to brace the head by the jawline. It can be used with a chest support or mounted to a permanent seating system.

6815 HENSINGER HEAD SUPPORT WITH MOUNT BAR

Danmar Products, Inc.

Price: \$152.00

Product Type: seating/positioning/ mobility, sensory stimulation

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: cognitive, learning, physical, speech, vision

Social interactions and learning skills may be achieved more easily if the head is comfortably positioned while using feeder seats. The preformed bar has a Hensinger Head Support (6810 or 6809) attached. Specify size of feeder seat and Hensinger when ordering.

6826 ANTERIOR HEAD SUPPORT

Danmar Products, Inc.

Price: \$126.00

Product Type: learning aid, seating/ positioning/mobility, sensory stimulation

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: cognitive, learning, physical, speech, vision

Help to combat chin drop with this head support which provides firm yet gentle lifting of the chin, and lateral support of the head. There is a padded roll around the rear strap for a comfortable finish.

6828 SIDE-OPENING HEAD SUPPORT

Danmar Products, Inc.

Price: \$145.00

Product Type: seating/positioning/ mobility, sensory stimulation

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: cognitive, physical, speech, vision

Secure, soft and very supportive, this head support opens on the side for easy on/ off. It provides firm yet gently lifting of the chin, as well as lateral and occipital support of the head. The vinyl coating is easily cleaned with warm soapy water.

6833 SWIRL COLLAR

Danmar Products, Inc.

Price: \$69.00

Product Type: learning aid, seating/ positioning/mobility, sensory stimulation

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: cognitive, learning, physical, speech, vision

This swirl of soft foam wraps around the neck and has an adjustable Velcro closure in the rear, which makes fitting a breeze and encourages easy movement from side-to-side. Used for minor to moderate support, the Swirl can be used with any seating system and by individuals who are ambulatory.

6855 SOFT DEFLECTOR

Danmar Products, Inc.

Price: \$100.00

Product Type: seating/positioning/ mobility

Skill Level: elementary, secondary, adult

Disability: learning, physical, vision

This small, lightweight and discreet toileting aid can attach to any toilet seat; snap on the front or clamp to the rim. The vinyl-coated foam is easy to clean with warm soapy water, and fits onto our Toilet Seat Cover with Reducer Ring (#6850).

6856 PERSONAL DEFLECTOR

Danmar Products, Inc.

Price: \$108.00

Product Type: seating/positioning/ mobility

Skill Level: elementary, secondary, adult

Disability: physical

For standard deflectors that are too bulky and make toileting difficult, our personal deflector with a flexible preformed waist-band, holds our soft deflector in place. Can be adjusted up and down, as well as side-to-side, and is easily cleaned with warm soapy water.

6858 PRIVACY APRON

Danmar Products, Inc.

Price: \$120.00

Product Type: adapted play/manipulative, learning aid, seating/positioning/mobility

Skill Level: preschool, elementary, secondary, adult

Disability: cognitive, learning, physical

Made to fit both open front and round styles of standard toilet seats (and our #6850 Toilet Seat Cover with Reducer Ring), this toileting aid can be mounted using a bracket or clamped onto the rim. Our germ resistant, vinyl-coated foam is easy to clean with warm soapy water.

6860 CHANGING STATION KIT

Danmar Products, Inc.

Price: \$164.95

Product Type: adapted play/manipulative, learning aid, seating/positioning/mobility, sensory stimulation

Skill Level: elementary, secondary, adult

Disability: cognitive, hearing, learning, physical

Our germ resistant, vinyl-covered foam is soft and easy to clean using warm soapy water. Soft and cushiony, the pad and forehead/chin rest add comfort while the J-Clips hold everything in place. Contains Changing Pad, Chin/Forehead Rest and J-Clips.

7 Foot TriFold Portable Wheelchair Ramp

Express Ramps

Price: \$299.95

Product Type: seating/positioning/mobility

Skill Level: elementary, secondary, adult

Disability: physical

The Advantage Tri-Fold Ramp from EZ-Access offers the length required for wheelchairs and scooters to access mini and full-size vans, go up a number of steps, or raised landings. Advantage Tri-Fold Ramps split into 2 pieces, have anti-slip coatings, and feature bottom transition plates that make loading a breeze.

8 Foot TriFold Portable Wheelchair Ramp

Express Ramps

Price: \$379.95

Product Type: seating/positioning/mobility

Skill Level: elementary, secondary, adult

Disability: physical

The Advantage Tri-Fold Ramp from EZ-Access offers the length required for wheelchairs and scooters to access mini and full-size vans, go up a number of steps, or raised landings. Advantage Tri-Fold Ramps split into 2 pieces, have anti-slip coatings, and feature bottom transition plates that make loading a breeze.

8720 DELTA SWIM SYSTEM

Danmar Products, Inc.

Price: \$120.00

Product Type: adapted play/manipulative, learning aid, seating/positioning/mobility, sensory stimulation

Skill Level: elementary, secondary, adult

Disability: cognitive, hearing, learning, physical

This component system is designed to aid in progressive swimming development, perfect for ambulatory individuals with postural balance and arm control. As swimming skills improve, pads can be removed to help achieve independence.

8721 PAD PLUS

Danmar Products, Inc.

Price: \$45.00

Product Type: adapted play/manipulative, learning aid, seating/positioning/mobility, sensory stimulation

Skill Level: elementary, secondary, adult

Disability: cognitive, hearing, learning, physical

Offered to modify the Delta Swim System (#8720) and the Tri-Swim (#8728), the Pad Plus may be attached to the front section to add buoyancy and raise the body position in the water.

8723 SECTIONAL RAFT

Danmar Products, Inc.

Price: \$240.00

Product Type: adapted play/manipulative, learning aid, seating/positioning/mobility, sensory stimulation

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: cognitive, hearing, learning, physical

For individuals who are insecure in the water or non-ambulatory, the Sectional Raft supports and cradles the body, while allowing water to flow around the body, enabling interaction with the environment and helping to reduce anxiety.

8724 SWIM RINGS

Danmar Products, Inc.

Price: \$87.00

Product Type: adapted play/manipulative, instructional material, learning aid, seating/positioning/mobility, sensory stimulation

Skill Level: elementary, secondary, adult

Disability: cognitive, hearing, learning, physical

Create your own personal flotation device with these versatile rings! Sets may be snapped together for neck, chest, torso, or body support, and the individual rings can be added or removed to adjust for comfort, and to increase or decrease flotation.

8725 HEAD FLOAT

Danmar Products, Inc.

Price: \$105.00

Product Type: adapted play/manipulative, instructional material, learning aid, seating/positioning/mobility, sensory stimulation

Skill Level: preschool, elementary, secondary, adult

Disability: cognitive, hearing, learning, physical

Independence for everyone- there is no need to support the head manually, and hands are free! Superb cushioning allows the head to rest without pressure on the spinal column, which encourages neutral positioning.

8727 DOLPHIN FLOAT SYSTEM

Danmar Products, Inc.

Price: \$172.00

Product Type: adapted play/manipulative, learning aid, seating/positioning/mobility, sensory stimulation

Skill Level: elementary, secondary, adult

Disability: cognitive, hearing, learning, physical

Designed for physically involved individuals who have head/neck control, but may need to compensate for uneven weight. Using the side pads helps minimize a user's tendency toward lateral rotation, and the front chest pad provides additional lift and is removeable.

8729 STABILIZER BAR

Danmar Products, Inc.

Price: \$120.00

Product Type: adapted play/manipulative, learning aid, seating/positioning/mobility, sensory stimulation

Skill Level: elementary, secondary, adult

Disability: cognitive, hearing, learning, physical

Helps maintain balance and equilibrium during walking/gaiting pool exercises. It is also great for resting on or extending out in front for kicking drills, as well as workouts for individuals with mild arthritis. The amount of flotation can be adjusted by adding or removing rings.

8730 COMFORT MAT

Danmar Products, Inc.

Price: \$160.00

Product Type: adapted play/manipulative, learning aid, seating/positioning/mobility, sensory stimulation

Skill Level: preschool, elementary, secondary, adult

Disability: cognitive, learning, physical

Designed for use in the many situations where foam padding would be welcome. Place at the pool's edge to ease entry/exit. In the locker room, they insulate against the cold tile floors, and provide changing comfort. They make a great flotation raft too.

8735 HEAD FLOAT and STABILIZER BAR

Danmar Products, Inc.

Price: \$200.00

Product Type: adapted play/manipulative, learning aid, seating/positioning/mobility, sensory stimulation

Skill Level: preschool, elementary, secondary, adult

Disability: cognitive, hearing, learning, physical

This combination helps keep the face out of the water, and works well not only for swimmers with Athoid CP but also for those who roll sideways and backwards. Now they can stretch and turn their heads when interacting with others without tipping or rolling.

9708 SOFT COMFY CAP

Danmar Products, Inc.

Price: \$96.00

Product Type: adapted play/manipulative, instructional material, learning aid, seating/positioning/mobility, sensory stimulation, telecommunications

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: cognitive, hearing, learning, physical, speech, vision

Our lightest, coolest helmet yet! This stylish, head-hugging design made of compression-molded foam offers a uniquely comfortable fit, weighing only 3 ounces. It provides maximum ventilation and retains limited body heat, and is easy to clean with warm, soapy water.

9709 Hard Top Comfy Cap

Danmar Products, Inc.

Price: \$131

Product Type: adapted play/manipulative, instructional material, learning aid, seating/positioning/mobility, sensory stimulation, telecommunications

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: cognitive, hearing, learning, physical, speech, vision

Our lightest, coolest Hard Shell Helmet yet! This 11.5 ounce helmet is made of a compression-molded inner foam liner attached to a hard plastic exterior. The stylish design is extremely well-ventilated and retains limited body heat. It's easy to clean, using warm soapy water.

9817 HALO HELMET

Danmar Products, Inc.

Price: \$174

Product Type: seating/positioning/mobility

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: cognitive, hearing, learning, physical, speech, vision

Ideal for individuals who do not need full head coverage. A band of 5-8" soft, vinyl-coated foam surrounds the head at the forehead level, and extends down to cover the temporal and occipital areas. It's easy to clean with warm soapy water. Average weight is 10 ounces.

9820 SOFT SHELL HELMET

Danmar Products, Inc.

Price: \$123

Product Type: seating/positioning/mobility

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: cognitive, hearing, learning, physical, speech, vision

This lightweight helmet is constructed out of 1/2" thick shock-absorbing foam and is fully ventilated without compromising head coverage. It's vinyl-coated with our Fabriccoat which does not allow for bacteria growth, and is easy to clean with warm soapy water. Average weight is 8 ounces.

9821 HARD SHELL HELMET

Danmar Products, Inc.

Price: \$160

Product Type: seating/positioning/mobility

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: cognitive, hearing, learning, physical, speech, vision

This headgear is both comfortable and effective in reducing the risk of injury. A strong polyethylene shell covers a shock-absorbing foam liner which is vinyl-coated and easy to clean with warm soapy water. It allows for ventilation without compromising head coverage. Average weight is 17 ounces.

9822 HARD SHELL HELMET WITH FACE GUARD

Danmar Products, Inc.

Price: \$260

Product Type: seating/positioning/mobility

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: cognitive, hearing, learning, physical, speech, vision

This protective helmet features a shock-absorbent foam liner which is riveted to a strong polyethylene outer shell. A clear polycarbonate face guard is attached to the outer hard shell. There is an eye opening for an unobstructed view and a mouth opening for maximum ventilation. Weight averages 25 ounces.

9823 CHIN GUARD

Danmar Products, Inc.

Price: \$50

Product Type: seating/positioning/ mobility

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: cognitive, hearing, learning, physical, speech, vision

This 1/2" thick foam guard fits comfortably over the chin area and can be worn with every helmet except for the 9822 Hard Shell Helmet with Face Guard. It is soft yet shock-absorbent and easily cleaned with warm soapy water. Weight averages 1.5 ounces.

9824 HARD SHELL HELMET WITH FACE BAR

Danmar Products, Inc.

Price: \$208

Product Type: seating/positioning/ mobility

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: cognitive, hearing, learning, physical, speech, vision

A clear 2" wide polycarbonate bar is securely attached to our 9821 Hard Shell Helmet so that it can't move, to reduce the risk of injury to the facial area. The shock absorbent foam liner is vinyl-coated and the entire helmet is easy to clean with warm soapy water. Weight averages 21 ounces.

9825 DELUXE HARD SHELL HELMET

Danmar Products, Inc.

Price: \$171

Product Type: seating/positioning/ mobility

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: cognitive, hearing, learning, physical, speech, vision

This sporty version of our 9821 Hard Shell Helmet adds a decorative visor and rubber chin cup, adding style and flair. Our shock-absorbent foam is riveted to a strong, polyethylene outer hard shell, allowing ventilation without compromising head coverage. Easily cleaned with warm soapy water. Weight averages 18 ounces.

9829 FULL COVERAGE HELMET

Danmar Products, Inc.

Price: \$152

Product Type: seating/positioning/ mobility

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: cognitive, hearing, learning, physical, speech, vision
This lightweight helmet is constructed out of 5-8" vinyl-coated foam and covers more of the temporal and cheek areas, as well as the area around the ears and nape of the neck. It's easy to clean with warm soapy water. Average weight is 10 ounces.

9830 CLEAR HELMET

Danmar Products, Inc.

Price: \$220.00

Product Type: adapted play/manipulative, instructional material, learning aid, seating/positioning/mobility, sensory stimulation, telecommunications

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: cognitive, hearing, learning, physical, speech, vision

This clear polycarbonate helmet is well-ventilated and edged with soft foam. We include 8 moveable pads that can be used to adjust the sizing and elevate specific areas of the helmet away from wound sites. It is easily cleaned with warm soapy water.

9836 NEWBORN CAP

Danmar Products, Inc.

Price: \$83

Product Type: seating/positioning/ mobility

Skill Level: infant/toddler

Disability: cognitive, hearing, learning, physical, speech, vision

This ultra-lightweight helmet is made from soft, 3/8" shock-absorbent foam and is fully ventilated. It's coated in vinyl so it's easy to clean with warm soapy water. A soft chinstrap holds the cap in place, and the ribbon on the front allows for moderate growth.

9910 SOFT COMFY CAP WITH DESIGN

Danmar Products, Inc.

Price: \$142.00

Product Type: adapted play/manipulative, instructional material, learning aid, seating/positioning/mobility, sensory stimulation, telecommunications

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: cognitive, hearing, learning, physical, speech, vision

Our lightest, coolest helmet yet! This stylish head-hugging design of compression-molded foam offers a uniquely comfortable fit, and weighs just 3 ounces. It provides maximum ventilation and retains limited body heat, and is easy to clean with warm soapy water. Choose from Butterfly or Camouflage design.

Access Language Arts Grades 3-5

Attainment Company, Inc.

Price: \$495.00

Product Type: adapted play/manipulative, instructional material, learning aid

Skill Level: elementary

Disability: cognitive, learning, physical, speech

Access English Language Arts Grades 3-5 is a research-based curriculum for elementary students who have moderate-to-severe developmental disabilities, including those with an intellectual disability and autism. Access English Language Arts Grades 3-5 gives elementary students access to English Language Arts (ELA) concepts their peers are learning.

Access Language Arts: WRITE Curriculum

Attainment Company, Inc.

Price: \$349.00

Product Type: adapted play/manipulative, instructional material, learning aid

Skill Level: secondary

Disability: cognitive, learning, physical, speech

The Access Language Arts: WRITE Curriculum provides a blended approach to writing instruction delivered through traditional print components, software, and an iPad app. Students are supported step by step in constructing grade-aligned opinion paragraphs about eight adapted pieces of literature, including fiction and nonfiction

literature from the Teaching to Standards: English Language Arts.

Access Language Arts: WRITE iPad App

Attainment Company, Inc.

Price: \$40.00

Product Type: instructional material

Skill Level: secondary

Disability: learning, physical

A researched and standards-based approach for secondary students practicing reading and writing skills. Prompts students to write grade-aligned opinion paragraphs for nonfiction and fiction and improves reading comprehension and vocabulary development. Can be used as a complement to Teaching to Standards: English Language Arts or a stand-alone curriculum.

Activate System

Lightspeed Technologies, Inc.

Price: \$2231.00 - \$4263.00

Product Type: learning aid, sensory stimulation, telecommunications

Skill Level: preschool, elementary, secondary, adult

Disability: cognitive, hearing, learning, speech

In today's active classrooms, with students collaborating in small groups, teachers must be able to listen to maintain a "pulse point" on all groups. With real-time feedback into the learning process, teachers will gain the insights needed to activate learning for every student. With Activate Pods and the mobile app, teachers are able to monitor each group, gain critical insights into the learning process and reinforce and redirect when needed.

Adapted Classics

Attainment Company, Inc.

Price: \$129.00

Product Type: adapted play/manipulative, instructional material, learning aid

Skill Level: secondary

Disability: cognitive, learning, physical, speech

Adapted Classics is an English language arts curriculum that covers grade-level content through four literary classics: The Strange Case of Dr. Jekyll and Mr. Hyde, Treasure Island, The Story of My Life, and The Hobbit. Each classic introduces a unique genre of literature: mystery, adventure, biography, and fantasy. Each title in the series includes an adapted student version of the classic presented in four distinct levels-A, 1, 2, and 3- to differentiate instruction.

Aeromesh® Calf Panel

Bodypoint Inc.

Price: \$96.00 - \$108.00

Product Type: seating/positioning/mobility

Skill Level: elementary, secondary, adult

Disability: physical

Bodypoint® Calf Panels keep feet safely and comfortably on wheelchair foot plates. Wide strap distributes pressure across a broad calf region, especially useful for those in tilt or reclined position. Smooth, porous Aeromesh® fabric provides air circulation and comfort while a stiffener layer maintains panel shape, eliminating folding and buckling.

Aeromesh® Calf Strap

Bodypoint Inc.

Price: \$73.00 - \$85.00

Product Type: seating/positioning/mobility

Skill Level: elementary, secondary, adult

Disability: physical

Bodypoint® Calf Straps keep feet safely and comfortably on wheelchair foot plates. A two-layer design blends comfort and function, and keeps feet from falling without bruising skin. Smooth, porous Aeromesh® fabric against the legs provides air circulation and comfort while a stiffener layer maintains its shape, eliminating folding and buckling.

Aeromesh® Rapid-Dry Bath Belts

Bodypoint Inc.

Price: \$89.00 - \$107.00

Product Type: seating/positioning/mobility

Skill Level: elementary, secondary, adult

Disability: physical

Bodypoint Bath Belts can be worn across the chest, abdomen, hips or legs to stabilize position while bathing or in the pool. Unique Aeromesh® fabric allows

water, soap, dirt and air to pass through freely while protecting skin and promoting hygiene. Three length-adjustable styles are compatible with most major shower chair brands.

Aeromesh® Shower Chair Calf Support

Bodypoint Inc.

Price: \$70.00

Product Type: seating/positioning/mobility

Skill Level: elementary, secondary, adult

Disability: physical

A calf strap designed specifically for shower chairs! Silky, porous Aeromesh® material is soft on skin while allowing soapy water, dirt and air to pass through. Attaches to all major models using sewn-in clips; no hardware required. The 4," height supports legs but does not interfere with chair operation.

Aira

Aira

Price: \$89.00 - \$199.00

Product Type: seating/positioning/mobility

Skill Level: adult

Disability: vision

Aira develops assistive technology that connects the blind with certified agents via smart glasses and a dashboard that allows agents to see what the blind person sees real time. Agents help users accomplish a range of tasks from navigating streets, recognizing faces, and traveling the world. Prices are per month.

Skill Level: secondary, adult

Disability: cognitive, learning, physical, speech

ALCOT addresses six essential classroom traits with measurable outcomes. It's an easy-to-use, one page tool for teacher and administrator collaboration. The Assessment Plus iPad App complements the printed versions with digitizing capability.

All-Turn-It Spinner

AbleNet, Inc.

Price: \$125.00 - \$0.00

Product Type: adapted play/manipulative, learning aid

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: cognitive, learning, physical, speech

The switch activated All-Turn-It Spinner, with a built-in external switch jack, enables random selections for choosing groups or playing games of chance like Bingo. Also a fun alternative to rolling dice. Requires

two C batteries (not included). **WARNING:** CHOKING HAZARD-Small parts. Not for children under 3 years.

Alphabet Letter Board

Giving Greetings Publishing

Price: \$10

Product Type:

Skill Level: secondary, adult

Disability: cognitive, hearing, speech

Our simple alphabet letter board provides a much needed, easy to use communication option for patients who cannot speak due to stroke, intubation, neurological disorders or language barriers. Ideal for use by nurses, therapists, health care staff and caregivers who care for people who are not able to express themselves verbally temporarily or long term. Our alphabetical letter board offers large letters and numbers so patients can easily point to letters to spell out their needs and answer yes/no questions. Sheet size is 8.5" x 11", printed on heavy card stock and laminated for increased durability and re-use. Back side is blank and can be used for writing with a dry-erase marker. Sold in sets of 2 laminated boards.

Animal Number Quiz download

Co-Sign Communications (inc DeafBooks.co.uk)

Price: \$1.99 - \$0.00

Product Type: adapted play/manipulative, learning aid, sensory stimulation

Skill Level: infant/toddler, preschool, elementary

Building with Stories

Attainment Company, Inc.

Price: \$495.00 - \$0.00

Product Type: adapted play/manipulative, instructional material, learning aid, sensory stimulation

Skill Level: elementary

Disability: learning, physical

Building with Stories curriculum is based on the Early Literacy Skills Builder research from the University of North Carolina at Charlotte. It contains ten award winning storybooks commonly read in elementary classrooms, a kit to adapt them for easy student access, and story related manipulatives to encourage student participation.

Caregiver Alert

Adaptive Tech Solutions

Price: \$42.53 - \$0.00

Product Type: adapted play/manipulative, telecommunications

Skill Level: elementary, secondary, adult

Disability: hearing, physical, speech

Our wireless attendant call button system allows people with limited or no finger use to activate the button using a switch. This chime is loud, travels through walls up to 75 feet. Can be used with an external switch for those with limited finger use.

Caregiver Cue Cards

Giving Greetings Publishing

Price: \$35

Product Type:

Skill Level: adult

Disability: cognitive, hearing, speech
Caregiver Cue Cards on rings provide essential visual cues that improve communication, promote independence and reduce anxiety for adults with memory and cognitive challenges who live at home or in care settings. This handy, compact set of double sided cards includes simple black and white illustrations that prompt

your loved one to understand and participate more independently in self-care and social activities. This deck of 76 picture cards is ring-bound so it opens easily to the desired color-coded section. Cards are laminated so they can be wiped clean. Blank cards are provided so you can add other specific center or activity cues.

CB100 - Compound Bow Mount

Be Adaptive Equipment, Inc.

Price: \$609

Product Type: adapted play/manipulative
Skill Level: elementary, secondary, adult
Disability: physical

Model CB100 is designed for individuals with limited hand and arm movement and strength. This piece of equipment works on most all models of compound bows and can be used with right hand or left hand bows. It allows the limited mobility user to pivot the bow left and right and up and down while the mount holds the entire weight of the bow. The CB100 mount requires the use of a Draw-Loc or similar product (which is not included) to hold the bow at full draw for the user.

Chest Belt

Bodypoint Inc.

Price: \$71.00 - \$101.00

Product Type: seating/positioning/mobility

Skill Level: elementary, secondary, adult
Disability: physical

A comfortable, low-profile trunk support option for users with limited hand function or those who prefer chest support without a buckle. Flexible molded end-tab is easy to grab, and high-grade hook-and-loop material holds securely but is smooth to the touch. Optional slip-on pads sold separately.

CJT Suction Cup Table Stand

CJT Mounting

Price: \$335.00 - \$450.00

Product Type: adapted play/manipulative, learning aid, seating/positioning/mobility
Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: cognitive, learning, physical, speech, vision

The heavy duty suction base keeps your device in place for hours. The CJT suction cup table stand is perfect for tablets and small devices.

CJT/LOCLINE SWITCH MOUNT

CJT Mounting

Price: \$225.00 - \$525.00

Product Type: adapted play/manipulative, seating/positioning/mobility
Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: cognitive, hearing, learning, physical, speech, vision

The CJT and Locline universal mount combines the flexibility of Locline with the strength and stability of the CJT Griptight

Base Connector. The CJT Griptight base is fast and easy to attach and remove from your wheelchair, bed frame, walker, activity chair, or ET Roller.

Classroom Audio Technology

Lightspeed Technologies, Inc.

Price: \$895.00 - \$3500.00

Product Type: learning aid, sensory stimulation, telecommunications

Skill Level: preschool, elementary, secondary, adult

Disability: cognitive, hearing, learning, speech

In today's dynamic classroom, it's no longer enough to have the best speech intelligibility possible. Lightspeed's access systems provide clear communication during whole group instruction plus two way audio to each small group. This allows teachers to monitor small groups, redirect off-task behavior, and encourage collaboration. Our classroom audio distribution systems help every student and assist those who need it most.

ClearMask

ClearMask

Price: \$67

Product Type:

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: hearing, learning, speech

The ClearMask™ is the first fully transparent, FDA-cleared mask optimized for maximum clarity and comfort: making connections more human and providing clearer communication for all. Single use only. Latex-free. Anti-Fog. Protection complies with applicable ASTM level 3 standards for fluid resistance and flammability. Available in two different strap styles: EZ-Adjuster or classic tie-on.

Compact Activity Center

Enabling Devices

Price: \$149.95 - \$0.00

Product Type: adapted play/manipulative, learning aid, sensory stimulation

Skill Level: infant/toddler, preschool, elementary, secondary

Disability: cognitive, learning, physical

This small-scaled activity center is designed to provide sensory stimulation and cognitive activity for the infant or child whose physical mobility may be limited due to positioning needs. Features five different exciting activities that light up, vibrate or play music.

Compact Joystick - Single/ Dual Switch

Adaptive Switch Laboratories, Inc.

Price: \$1280.00 - \$0.00

Product Type: seating/positioning/mobility

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: physical

The ASL 133 and 134 are fully proportional with a unique shape and size which makes

it easier to grab and manipulate. It has a textured end for a tactile feel making it easier to hold and a reset switch in the top of the joystick cap.

Connect Pen

Scanning Pens

Price: \$130.00

Product Type: learning aid
Skill Level: secondary, adult

Disability: learning

Connect Pen is great for digitizing print from textbooks or manuals directly into your phone or computer via bluetooth. Requires device and WiFi. Compatible with Android, iOS (iPhone/iPad), Windows and Mac. System Requirements: iOS 11 / Android 5

Core + Fringe Communication Boards (Vinyl)

Talk To Me Technologies

Price: \$59 - \$228

Product Type:

Skill Level: infant/toddler, preschool, elementary

Disability: speech

Vocabulary design inspired by groundbreaking research from the University of North Carolina at Chapel Hill! Core words combined with Fringe vocabulary provide consistency while offering the flexibility of activity-specific vocabulary at your fingertips.

Plus additional signs, fingerspelling alphabet and background information to encourage families and those working with deaf children or who have additional communication and language needs, to get involved.

DeCoste Writing Protocol

Don Johnston, Inc.

Price: \$25.00 - \$529.00

Product Type: instructional material

Skill Level: elementary, secondary, adult

Disability: cognitive, learning

In this age of accountability and assessment, your district needs a process to evaluate writing issues for students with disabilities. Unfortunately, many districts don't have a systematic way to do this. The DeCoste Writing Protocol is a formative assessment tool that helps educators identify factors affecting an individual student's ability to produce writing. The Writing Protocol compares a child's individual performance across handwriting and keyboarding tasks. It examines spelling performance and writing skills so

educators make more informed decisions about instructional strategies and the appropriate use of technology to meet classroom demands. The DeCoste Writing Protocol evolved from Dr DeCoste's original book, Assistive Technology Assessment: Developing a Written Productivity Profile, first published in 2004. Much has changed over the last decade-fueled by advances in technology and insights from new research.

Described and Captioned Media Program

Described and Captioned Media Program

Price: \$0

Product Type: instructional material

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: hearing, learning, vision
DCMP's is a federally funded project administered through the National Association of the Deaf. Our mission is to promote equal access to communication and learning through described and captioned educational media. We provide a free online library of accessible videos for students who are deaf, hard-of-hearing, blind, low-vision, and deaf-blind.

Ideal for remedial reading, RTI and resource programs.

Device Adapter

RJ Cooper and Associates

Price: \$119.00 - \$0.00

Product Type: seating/positioning/mobility

Skill Level: preschool, elementary, secondary, adult

Disability: physical

An add-on for the Magic Arm that allows BigKeys, IntelliKeys, joysticks, etc. to be instantly removed/attached to the arm.

DOT Braille SmartWatch

Dot Incorporation

Price: \$359 - \$399

Product Type: learning aid, seating/positioning/mobility, sensory stimulation, telecommunications

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: vision

The Dot Watch is the world's first smart wearable that outputs information in

refreshable Braille cells. It retains all the functions of a rudimentary watch, but focuses on making the lives of the visually-impaired one step easier. Dot Watch is a smartwatch made of dots. The world's first braille&tactile smartwatch, 'Dot Watch' is a stylish, IF Design award, Good Design award-winning time-piece.

Draw-Write-Now, Books 1-8

Draw Your World

Price: \$10.19 - \$62.45

Product Type: instructional material, learning aid

Skill Level: preschool, elementary

Disability: cognitive, learning

Draw-Write-Now, Books 1-8 combine directed-drawing lessons (step-by-step) with language arts exercises. The authors' website - <http://www.drawyourworld.com> - has sample lessons and tips. Each book is a thematic unit study covering science, history, geography or social studies. Sold individually or as a boxed set.

Drink-Partner Drinking System

Mealtime Partners, Inc.

Price: \$99.95 - \$99.95

Product Type: adapted play/manipulative, learning aid, seating/positioning/mobility, sensory stimulation

Skill Level: preschool, elementary, secondary, adult

Disability: cognitive, hearing, learning, physical

The Drink-Partner Drinking System is an assistive drinking aid that provides hands free drinking for those in a manual wheelchair, or a powered wheelchair that has a tubular frame or handles. For those who use a powered wheelchair with a slide-track mounting system see part 6050, the Drink-Partner for Slide-Track. It will accommodate the mounting needs for that variety of wheelchairs. The Drink-Partner consists of a 25-ounce water bottle, and a cup holder. The bottle has integrated into its cap, a vibration resistant 24-inch long flex tube that holds the (36-inch long) drink tube that carries the liquid. The cup holder has a universal clamp that can be attached to tubes (or rails) with a diameter from 7/8 inch to 1-1/2 inches. The Drink-Partner is most commonly clamped to the handle of the wheelchair and the flexible tube holder allows the tip of the drinking tube to be positioned very close to the user's mouth. Other locations on a wheelchair frame are also functional. The Drink-Partner is sold with a drink tube already installed in the bottle and an extra drink tube is provided. Additional drink tubes (MtP Part No. 6080) can be purchased separately in case the drink tube is damaged or becomes contaminated.

Dual Button Box

RJ Cooper and Associates

Price: \$79.00 - \$0.00

Product Type: adapted play/manipulative

Skill Level: preschool, elementary, secondary, adult

Disability: physical

Two 2-inch buttons in one box, that can be connected to any device that accepts such buttons. Devices include, but are not limited to: switch interfaces, switch-adapted digital camera, switch-adapted MP3 player/drive, switch-adapted toys, etc.

Dynamic Footrests

Seating Dynamics

Price: \$0

Product Type: seating/positioning/mobility

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: physical

Dynamic Footrests provide up to three types of movement: a telescoping downward movement, knee extension, and plantar/dorsi flexion. Forces are absorbed, protecting both the client and equipment from harm, and reducing overall tone and posturing. This movement can increase sitting tolerance, decrease agitation, increase alertness, and increase lower extremity strength.

Dynamic Headrest

Seating Dynamics

Price: \$0

Product Type: seating/positioning/mobility

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: physical

The Dynamic Head Support Hardware allows neck extension, diffusing and absorbing force to protect the client, protect the hardware, and reduce overall extensor tone. The Dynamic Head Support can be used on its own or in combination with the Dynamic Rocker Back and Dynamic Footrests. Single and Multi-Axis versions.

Dynamic Rocker Back

Seating Dynamics

Price: \$0

Product Type: seating/positioning/mobility

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: physical

The Dynamic Rocker Back provides movement to absorb forces and assist the client back to upright. This movement can protect the client from injury and equipment from breakage, reduce extension, reduce agitation, increase alertness, provide sensory input, facilitate functional activities, and increase trunk and head control.

Early Literacy Skills Builder for Older Students

Attainment Company, Inc.

Price: \$495.00

Product Type: instructional material
Skill Level: secondary
Disability: learning, physical
 An age-appropriate, early literacy curriculum targeting National Reading Panel components. Provides a solution for older students to learn prereading skills. It blends software and app instruction with print activities and offers seven progressive levels of instruction for students. Integrates research-proven and systematic instruction strategies.

Early Literacy Skills Builder-print

Attainment Company, Inc.
Price: \$695.00 - \$0.00
Product Type: instructional material, learning aid
Skill Level: preschool, elementary, secondary
Disability: cognitive, learning, speech
 Scientifically research-based language-rich literacy program for children with moderate to severe developmental disabilities, including autism. Scripted lessons ELSB incorporates systematic instruction to teach both print and phonemic awareness. ELSB is a multiyear curriculum with ongoing assessments so students progress at their own pace. Case endorsed.

Early Reading Skills Builder

Attainment Company, Inc.
Price: \$595.00 - \$0.00
Product Type: instructional material
Skill Level: elementary, secondary
Disability: learning
 ERSB takes students who have mastered early literacy skills to a 2nd grade reading level. It incorporates systematic instruction and ongoing assessments to teach students to read independently. It's been proven effective for students with moderate-to-severe intellectual disability and/or autism, including those with complex communication needs.

Early Science

Attainment Company, Inc.
Price: \$499.00 - \$0.00
Product Type: adapted play/manipulative, instructional material, sensory stimulation
Skill Level: elementary
Disability: learning, physical
 Early Science Curriculum uses the research-based inquiry process to teach basic science content to elementary students with significant developmental disabilities, including autism. The 28 lessons follow a standard sequence. Students engage by discussing Wonder Stories; investigate through hands-on experiments; describe and explain concept statements using vocabulary cards, posters, and games.

Easy Mover with Quick Connect or Tilt Plate

BlueSky Designs
Price: \$360.00 - \$960.00

Product Type: seating/positioning/mobility
Skill Level: infant/toddler, preschool, elementary, secondary, adult
Disability: physical, speech, vision
 The Easy Mover is a movable mount for speech devices, trays, cameras, and more! It is available with either a Dual Arm or Single Arm. Each have movable joints, tilt and easily glide to desired position. Joints can be adjusted from low to high resistance, changing the effort required to move the mount. Joints can also be fully tightened to lock. New Quick Connect Receiver is compatible with other mounts and devices. Mounts can be attached to wheelchairs, standers, tables, beds, walkers, and floor stands. Easy Mover Mounts use current Mount'n Mover wheelchair hardware.

Use them to adapt pens and pencils, toothbrushes, grooming aids, tools, toys, eating utensils, musical instruments, garden equipment and more.

Effortless Art Crayons

Westminster Technologies
Price: \$41 - \$99
Product Type: learning aid
Skill Level: infant/toddler, preschool
Disability: cognitive, learning, physical
 When children first hold a crayon, their fine motor control is still developing. Not all children will develop skills at the same rate or same time. Some children may exhibit a delay or a disability. To address this need, Effortless Art Crayons have a unique shape and design features to support a child's grip and grasp that helps them pick up a crayon and color successfully. Effortless Crayons takes into account the smaller muscles in the hands of children that help them pinch, grasp, and grab are not as strong. Because of this, they have trouble holding a round, skinny crayon correctly. With this unique design, coloring is Effortless! Level 1 vs. Level 2: Both levels of crayons have the same familiar triangular shape, but Level 2 crayons are narrower with a beveled tip at one end for the more advanced user. Basic Bucket vs. Class Pack: The Basic Bucket includes 60 total

crayons, 6 colors and 10 of each. Colors in the Basic Bucket are red, orange, yellow, green, blue, and purple. The Class Pack includes 100 total crayons, 10 colors and 10 of each. Colors in the Class Pack are: red, orange, yellow, green, blue, purple, brown, black, gray, and pink.

Embossables

American Thermoform Corporation
Price: \$37.99 - \$339.99
Product Type: instructional material, learning aid, sensory stimulation
Skill Level: infant/toddler, preschool, elementary, secondary, adult
Disability: vision
 Embossables are continuous form labeling material developed for Braille embossers. Simply emboss onto the labels, peel off and adhere them to anything. Embossables are made of specifically formulated plastic with a unique adhesive backing. These Braille labels are made to be used in continuous form Braille embossers.

Disability: learning, physical

A great continuation from Hands-On Math that includes 12 interchangeable number lines and sets of color-coded number pieces. There is an instructor's guide that has 120 lessons with consistent 22-page format for Big Idea concepts, vocabulary, practice pages, story problems, quizzes, and challenge exercises along with an image library and PDFs for printing additional materials are included on a USB flash drive.

Hands-On Math for Early Numeracy Skills

Attainment Company, Inc.

Price: \$299.00

Product Type: adapted play/manipulative, instructional material, learning aid

Skill Level: preschool, elementary

Disability: cognitive, learning, physical, speech

Hands-On Math (HOM) for Early Numeracy Skills is primarily for preschool students with an intellectual disability or autism. It is based on two premises: (a) students with a disability learn well when their hands are purposefully engaged, and (b) math manipulatives help students understand abstract concepts. The HOM for Early Numeracy Skills Curriculum is an introduction to concepts included within school math standards. It is a skills-based program focused on early numeracy concepts.

Harkla Compression Sensory Swing

Harkla

Price: \$99.99 - \$119.99

Product Type: sensory stimulation

Skill Level: preschool, elementary, secondary, adult

Disability: physical

Hug-like calming effect Sensory input through compression and swinging \$25worth of hardware included free for an easy setup Holds up to 200 lbs - safe for your child RELAXING PLACE FOR YOUR CHILD TO HANG Looking for the perfect place for your child with sensory needs to feel relaxed and have fun?Harkla'sindoor therapyswing is a great addition to the bedroom or sensory room.The swing is designed to meet sensory needs. Compression from the swing gives a hug-like effect to your child. Swinging, vestibular input means the swing helps your child explore space around them and get their bearings.

Harkla Compression Sheet

Harkla

Price: \$29.99 - \$39.99

Product Type: sensory stimulation

Skill Level: preschool, elementary, secondary, adult

Disability: cognitive, learning, physical

THE PERFECT ADDITION TO YOUR CHILD'S BEDROOM Bedtime IMPROVED! Have you struggled to help your child relax and get restful sleep? Start your journey to better sleep (and mood!) with a compression sheet. The compression sheet offers deep touch pressure (like a hug!) which helps regulate the nervous system. This releases melatonin helping relax your child. The melatonin turns into serotonin leading to deeper, more restful sleep. You'll love how your child curls up under the compression sheet as they relax and drift to sleep.

Harkla Hug

Harkla

Price: \$69.99

Product Type:

Skill Level: preschool, elementary

Disability: cognitive, learning, physical

The Harkla Hug combines a sensory input tool with the fun of a toy! Inflate the pea pod chair and watch your child explore. Now made with flock vinyl, this durable peapod sensory chair is a perfect addition to a sensory room. The inflatable peapod for autism applies much-needed pressure to sensitive areas of the body helping your child feel grounded and in control. This cozy canoe is perfect for autism. It stirs a sense of adventure while the compression provides a calming comfort where your child can feel secure. Use this sensory processing disorder tool to add comfort and joy in your child's life.

Harkla Pod Sensory Swing

Harkla

Price: \$59.99

Product Type: sensory stimulation

Skill Level: preschool, elementary

Disability: physical

If you are looking for sensory or therapy swings to help your child relax and get their bearings in, then you've come to the right spot. Our autistic swings are made of high-quality but comfortable canvas that your child will want to spend hours in. Our Pod Sensory Swings are used by occupational therapists for autism spectrum disorder and sensory processing disorder. The Pod Sensory Swing provides a hug-like effect for little ones by providing Deep Touch Pressure (DTP). The Pod Sensory Swing also provides vestibular input. From infancy through adulthood, vestibular information contributes to the development of muscle tone, balance, eye movements, and more.

Harkla Sensory Body Sock

Harkla

Price: \$29.99

Product Type: sensory stimulation

Skill Level: preschool, elementary, secondary, adult

Disability: cognitive, learning, speech

STRETCH. PLAY. DEVELOP. UNWIND. Do you wish your child had an easier time relaxing? The Harkla body sock is designed with autism and sensory issues in mind. Your child will love to play, stretch, or relax in our sensory sock!

Harkla Weighted Blanket for Kids and Adults

Harkla

Price: \$79.99 - \$129.99

Product Type: sensory stimulation

Skill Level: preschool, elementary, secondary, adult

Disability: physical

The perfect weighted blanket for a good night's sleep. Are you or your child struggling to relax or fall asleep? If so, then maybe it's time to invest in a weighted blanket. Our sensory weighted blankets are designed with your family in mind. Whether you are buying one for trouble sleeping or sensory processing disorder, you'll be happy you finally made the investment in a weighted blanket. And with a weighted blanket, you have a healthy way to relax and reduce anxiety by simply laying down with your blanket instead of taking pharmaceuticals and supplements. It's a completely natural sleep aid.

Harkla Weighted Compression Vest

Harkla

Price: \$59.99

Product Type: learning aid, sensory stimulation

Skill Level: preschool, elementary, secondary

Disability: learning, physical

Are you looking for a tool to help your child feel secure, calm, and focused? Harkla's weighted compression vest for kids with sensory issues, autism, and ADHD combines the sensory input tool with a wearable by applying pressure to sensitive areas of the body. Simply place the vest over your child's clothing, and watch your little one return to feeling grounded and in control. A perfect addition to the classroom, pack the weighted compression vest with your child's school supplies for on-the-go sensory integration therapy. It works well on travel, too! Improve both their and your car rides with a vest providing deep pressure sensory input.

Harkla Weighted Lap Animal

Harkla

Price: \$44.99

Product Type: learning aid, sensory stimulation

Skill Level: preschool, elementary

Disability: cognitive, learning, physical

Your child's new sensory buddy The perfect toy for helping your child stay calm in class Make car rides and trips out more peaceful Weighs 5 lbs - for autism, sensory processing disorder, and ADHD

Harkla Weighted Lap Pad

Harkla

Price: \$44.99

Product Type: sensory stimulation

Skill Level: preschool, elementary, secondary, adult

Disability: physical

Much like a weighted blanket, the weighted lap pad is a sensory tool that offers Deep Touch Pressure (DTP) to a person's legs as it rests on the lap when in a seated position. The weighted lap pad is often used in classrooms to provide some sensory input and help students stay seated. The weighted lap pad can also be used anywhere when adults or children need to stay sitting for an extended period. It's wonderful for activities like: Car rides Plane rides Mealtimes While doing homework Sitting in the grocery cart.

Head Pointer and Stylus cap edition

ShapeDad

Price: \$129.00 - \$139.00

Product Type: adapted play/manipulative

Skill Level: elementary, secondary, adult

Disability: physical

Universal headset mount with stylus pointer for head controlled tablet and smartphone use. This offering contains a full functional head pointer solution, containing a cap with a mounting plate and stylus pointer. The cap is available in three colors and the stylus pointer is available in four options.

Head Pointer and Stylus headband edition

ShapeDad

Price: \$129.00 - \$139.00

Product Type: adapted play/manipulative

Skill Level: elementary, secondary, adult

Disability: physical

Universal headset mount with stylus pointer for head controlled tablet and smartphone use. This offering contains a full functional head pointer solution, containing a headband with a mounting plate and stylus pointer. The stylus pointer is available in four options that differ in length and bend-ability.

Headpod Dynamic Head Support

PACIFIC REHAB

Price: \$495 - \$495

Product Type: adapted play/manipulative, seating/positioning/mobility

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: cognitive, physical

A dynamic head support device which can be applied to almost anything with a headrest while the child is upright,.. wheelchair, walker, stroller, stander, bike or activity chair. The child is able to move in full rotation, as well as chin tuck and extension, but not head drop. As the child acquires strength, the upper band is relaxed and they are able to move within their plane of strength. It is a completely different philosophy from head restraints and collars, which tends to atrophy musculature further due to lack of movement. The Headpod can only be used when the child is upright, to begin within their point of balance. A functional aide during power wheelchair use, Aug Comm and feeding. Any time that fatigue prevents function. It is not to be used for van or bus transport.

Health Care Communication Boards

Giving Greetings Publishing

Price: \$10 - \$50

Product Type:

Skill Level: secondary, adult

Disability: cognitive, hearing, speech

This laminated healthcare communication board features 68 pictures that help patients communicate their health and hospital care-related needs when they are not able to speak. Studies show that being able to communicate with care providers significantly improves the patient's experience and recovery. Available in English and Spanish. Each double-sided sheet offers clear color pictures to indicate pain, wants, needs, ailments, comforts, questions, staff, emotions and more. Pain scale, alphabet and number tables are included. Non-verbal patients simply point to pictures to communicate their needs to care staff and family. Ideal for nurses, therapists, emergency care and health care workers,

caregivers and parents who care for adults and children who are not able to express their needs verbally. Symbols are 1" square. Sheet size: 8.5" x 11", printed on heavy card stock to be used by individual patients. Laminated for increased durability, wipe to reuse.

Hold the Pencil

Draw Your World

Price: \$0.00 - \$4.50

Product Type: instructional material, learning aid

Skill Level: preschool, elementary, secondary, adult

Disability: cognitive, learning, physical
Hold the Pencil is a pamphlet with simple instructions and tips to encourage a comfortable pencil grasp. A selection of pencil grippers are shown that help position the fingers into the tripod grasp. Much of the information is available free on the authors' site: <http://www.drawyourworld.com/writing>.

Home- and Community-Based Solution

Attainment Company, Inc.

Price: \$995.00

Product Type: adapted play/manipulative, instructional material, learning aid

Skill Level: secondary, adult

Disability: cognitive, learning, physical, speech

The Home and Community-based Solution (HCBS) provides training and activities to support the expected outcomes for the HCBS Medicaid-funded services for residential and non-residential programs. Develops the skills necessary for supported living, entry level employment, and community inclusion. Provides a solution that guides people to independence through home, community, health, social, and pre-vocational skills.

Hoonuit's Professional Development and Data Analytics

Hoonuit

Price: \$200

Product Type: instructional material, learning aid, sensory stimulation, telecommunications

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: cognitive, hearing, learning, physical, speech, vision

Hoonuit provides continuous and in-depth resources to support ongoing learning to meet the PD requirements redefined by ESSA, but also to ensure teachers are prepared and empowered to reach every student effectively. With the Every Student Succeeds Act (ESSA) implementation upon us, clear and accessible reporting is evolving. The additional transparency is important, but the new reporting requirements are putting added strain on already scarce time and resources. Hoonuit supports your

accountability reporting efforts without sacrificing the access to data you need to make decisions.

Hoonuit's Professional Development Solution

Hoonuit

Price: \$800.00 - \$0.00

Product Type: instructional material, learning aid, sensory stimulation, telecommunications

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: cognitive, hearing, learning, physical, speech, vision

The one-time workshop or professional development days are a thing of the past. For districts to ensure the learning opportunities they provide their teachers and staff are positively impacting student success, administrators are diving deeper to challenge the quality and delivery of PD. Hoonuit provides continuous and in-depth resources to support ongoing learning to meet the PD requirements redefined by ESSA, but also to ensure teachers are prepared and empowered to reach every student effectively. To learn more, visit our [website](https://www.hoonuit.com/home).

The hydration backpack with drinking tube positioning facilitates access to water for those who have limited head movement and/or hand or arm movement, the drinking-tube is contained within a flex-tube which is clamped to a wheelchair. The flex-tube can be shaped to meet the needs of the user.

InnerVoice AI

iTherapy, LLC

Price: \$99.99

Product Type: learning aid

Skill Level: preschool, elementary, secondary

Disability: cognitive, learning, speech

InnerVoice can work like a typical communication device: letting your thoughts and feelings be heard and understood by others. Unlike traditional speech-generating apps, though, InnerVoice combines artificial intelligence technology with facial expressions, emotions, tone-of-voice, written words, and videos -- providing a complete multi-sensory learning experience. Visual Language is an exciting new feature that uses Microsoft's Azure artificial intelligence technology to teach language and literacy skills in a unique way. The camera displays what you're looking at. Take a picture and watch InnerVoice's AI system label your picture with text and describe it with speech -- allowing users to see the relationships shared among the environment, speech, language, and text. Visual language makes creating and editing buttons easier than ever: just take a picture and InnerVoice's AI system labels the button and adds a description.

iPad Bluetooth Speaker

RJ Cooper and Associates

Price: \$79.00

Product Type: adapted play/manipulative

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: speech

Job Readiness and Training: Transition to Work

Phillip Roy, Inc.

Price: \$175.00

Product Type: instructional material

Skill Level: elementary, secondary, adult

Disability: cognitive, hearing, learning, physical, speech, vision

This curriculum helps students learn skills needed for work. Subject areas include employability skills and social skills. The

materials are provided in duplicatable (at purchasing site) PDF books and Online Access. A detailed teacher's guide, pre/post assessments and lesson plans are provided. Visit our webpage: www.PhillipRoy.com

Job Skills Stories

Attainment Company, Inc.

Price: \$69.00 - \$399.00

Product Type: adapted play/manipulative, instructional material, learning aid

Skill Level: secondary, adult

Disability: cognitive, learning, physical, speech

Job Skills Stories emphasizes the five categories in Pre-ETS: Job and Career Exploration, Work-Based Learning, Post-Secondary Training, Workplace Readiness, and Self-Advocacy. One-hundred stories are presented in five Job Skills Stories Student Books. Each book is aligned to a Pre-ETS category. The stories cover key transition skills like identifying one's strengths, decision-making, and self-determination. The Job Skills Reader condenses and simplifies content by using captioned photos to convey each story's big idea. Both the Student Books and Reader cover lesson objectives, so you can teach with the version that best suits each student.

JokeMaster

RJ Cooper and Associates

Price: \$79.00 - \$0.00

Product Type: adapted play/manipulative

Skill Level: preschool, elementary, secondary

Disability: cognitive, physical, speech, vision

Switch-adapted joke telling device (120 of them), very silly, highly motivating. Includes jack to plug into PA system. Carry case/speaker option \$30.00.

Junior Automatic Nail Clipper by ClipDifferent

ClipDifferent

Price: \$149 - \$149

Product Type: adapted play/manipulative, seating/positioning/mobility, sensory stimulation

Skill Level: preschool, elementary, secondary, adult

Disability: cognitive, hearing, learning, physical, speech, vision

The ClipDifferent Jr. is a revolutionary, first-of-its-kind, automatic fingernail clipper that safely trims children's (ages 5+) fingernails with the simple touch of a button. It's perfect for children and parents who have a hard time trimming their children's fingernails and dislike the messy, time-consuming process. You, 'I have to see it to believe it' - kids actually have fun using it! A great motivator for kids who bite their nails. Also great for kids with sensory challenges (has a nice, soothing sound). Includes stickers to decorate and personalize.

Language Links to Literacy

Attainment Company, Inc.

Price: \$695.00 - \$0.00

Product Type: instructional material

Skill Level: preschool, elementary

Disability: learning, physical

LanguageLinks® to Literacy incorporates systematic instruction and ongoing assessments to teach 40 lessons covering concepts like Is/Are, He/She/They, Mine/Yours, How/Why/Where, and Above/Below. Is a blended curriculum, seamlessly integrating print components with software. This blended approach creates an engaging learning process and encompasses both independent and instructor-led instruction.

Let's/Speak 24 Plus

Advanced Multimedia Devices, Inc.

Price: \$258

Product Type: telecommunications

Skill Level: elementary

Disability: speech

24 message communicator with 10 levels of communication boards. 10 seconds of recording time on every message cell. Volume and Level select controls are on the front of the device for those users that can change their own volume and levels. Both controls can be disabled to prevent unwanted changes. Master erase for each level. Uses a standard letter size sheet of paper for the overlays. No cutting, just Print-N-Go. Light weight, less than 2 lbs. Carrying strap included. Optional wedge and handle.

Lifton Duo Residential Elevator

Lifton Residential Elevators

Price: \$22000

Product Type: seating/positioning/mobility

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: physical

The Lifton Residential Elevator is unlike any other home elevator on the market and has been designed to move the passenger quickly from floor to floor in the home. It is a luxury lifestyle product which offers

homeowners with a fantastic way of 'future proofing' their home for use in later life.

Limitless Stylus

Westminster Technologies

Price: \$73 - \$79

Product Type: adapted play/manipulative

Skill Level: preschool, elementary, secondary, adult

Disability: physical

The Limitless Stylus is optimized for users with limited hand mobility and is a simple design that wraps around the users wrist with two Velcro straps. The stylus is angled perfectly to fit the contours of the user's hand and has been designed for long term use and optimal comfort. It can be used on any touchscreen device to gain more control and precision with every click! The Limitless Stylus is extremely light weight and durable which makes it easy to use on a daily basis without even thinking about it. After using the Limitless Stylus you will be unable to live without it. Stylus, two straps and extra tips included.

LingoPen

Scanning Pens

Price: \$250.00

Product Type: learning aid

Skill Level: elementary, secondary, adult

Disability: learning

Lingo Pen is used primarily for EL/ESL as it reads in English (as well as other languages) you can translate a word you don't know in the other language while hearing it pronounced in English. It's perfect for anyone working or studying in a language that is not their own to improve language acquisition. Multiple languages and dictionaries. The voice recorder is great for recording instructions or fluency progress checks. The scan to cursor feature allows users to scan from worksheets/textbooks directly to Google/Word Docs for simplified note taking or study guides. Saves money and time by reducing students' reliance on a human reader. Exam lock for exam integrity. Having it listed as, "text to speech," in the students IEP or 504 plan is helpful. Does NOT require WiFi. Stand alone does not require another device.

LM100 - Limited Mobility

Be Adaptive Equipment, Inc.

Price: \$609

Product Type: adapted play/manipulative

Skill Level: elementary, secondary, adult

Disability: physical

Be Adaptive Equipment Model LM100 is a limited mobility unit designed for use by people with limited use or paraplegics that cannot hold a gun up. Designed for individuals with limited hand and arm movement and strength. The unique design of the equipment makes the weapon seem almost weightless to the person using it and allows them to have a full range of motion, up, down, and side

to side. The simplicity of the LM100 allows it to hold all pistols, crossbows, rifles, and shotguns. The LM100 does not include a power trigger mechanism. If you lack hand movement and need assistance with this, you can purchase our TM100 (power trigger mechanism) and use it with this piece of equipment.

Look at Everyday Math Series

Attainment Company, Inc.

Price: \$69.00 - \$149.00

Product Type: adapted play/manipulative, instructional material, learning aid

Skill Level: secondary

Molecule Joystick

Adaptive Switch Laboratories, Inc.

Price: \$1000.00 - \$5000.00

Product Type: seating/positioning/mobility

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: physical

The ASL 128 Molecule Joystick is the lightest touch joystick offered by ASL. It takes only 8 grams of force to displace from neutral and requires only 3 millimeters of movement to reach full throw. Designed for someone with weakness, this joystick can keep a patient driving proportionately instead of having to move to a digital system. http://www.asl-inc.com/products/product_detail.php?prod=208

Monoflex™

Bodypoint Inc.

Price: \$97.00 - \$121.00

Product Type: seating/positioning/mobility

Skill Level: preschool, elementary, secondary, adult

Disability: physical

Dynamic positioning for wheelchair users who need strong but unobtrusive abdominal/chest support and free arm movement. High-strength elastic padding provides just the right amount of stretch for comfort while maintaining trunk control. Double-tapered shape and swivel buckles distribute pressure evenly. One-piece with underarm release or two-piece with center release. Can be mounted on almost any wheelchair, including those with low or flexible back systems where a four-point harness is difficult to mount. Machine wash and dry.

Mount'n Mover Mounting System

BlueSky Designs

Price: \$525.00 - \$1900.00

Product Type: learning aid, seating/positioning/mobility, telecommunications

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: cognitive, learning, physical, speech, vision

The Mount'n Mover movable mounting systems offer unique features specifically

designed to promote independence and access. Mount phones, trays, speech devices, laptops, and cameras on wheelchairs, tables and more. From simple mounting solutions to our motorized Pow!r mount for complex needs - do more with a mount that moves!

Mouthstick Stylus

ShapeDad

Price: \$68.00 - \$78.00

Product Type: adapted play/manipulative

Skill Level: elementary, secondary, adult

Disability: physical

Mouth stick stylus for tablet and smartphone with an ergonomic snap fit mouthpiece. It's available in two versions: a fixed 12-inch version and one that telescopes from 9-17 inches in length. As of 2018, all mouthstick styli will be bendable as well.

Multifunctional Smart Keyboard Key-X

Key2enable Assistive Technology Inc.

Price: \$999.00 - \$2100.00

Product Type: learning aid

Skill Level: preschool, elementary, secondary, adult

Disability: learning, physical

The device that redefines the inclusion of people with disabilities. Key-X allows people with any motor impairment to use any computer, smartphone or tablet with just eleven touch-sensitive keys, which can be activated even by the blink of an eye. By itself, Key-X is an innovative resource, which gives autonomy to people with any motor limitation to control any computer. However, offering every function of keyboard and mouse with total accessibility is just a detail. With just eleven touch-sensitive keys, which can be triggered even by the blink of an eye, Key-X does much further. In conjunction with the SimpliX software and its accessories, Key-X makes up an amazing platform of school inclusion and rehabilitation, capable of developing the motor and cognitive skills of students and patients with physical and intellectual disabilities.

Mushroom Joystick

Adaptive Switch Laboratories, Inc.

Price: \$2975.00 - \$0.00

Product Type: seating/positioning/mobility

Skill Level: preschool, elementary, secondary, adult

Disability: physical

The ASL 135 was designed to fit the contour of a hand, so no gripping or pincer grasp is needed. Deflection of the joystick uses minimal force and the flat plate made from a slick material surrounds the cap and provides a place for the hand and wrist to rest.

Disability: cognitive, hearing, learning, physical, speech, vision
The Pre-Employment Transition Solution provides lessons specific to each of the five WIOA required activities: Job and Career Exploration, Work-Based Learning, Post-Secondary Training, Workplace Readiness, and Self-Advocacy. Each lesson plan includes an instructor's script, lesson objectives, lesson plans, independent practice, and collaborative resources to fulfill the requirements of WIOA. These lessons will engage students in meaningful learning to support independent adult living and work. Lessons are leveled to meet the needs of all learners. Each lesson plan is connected to additional materials with identified pages from 13 existing Attainment Company curricula, resource books, pictorial instruction, software, apps and videos—all included in the package.

Professional Automatic Nail Clipper by ClipDifferent

ClipDifferent
Price: \$149
Product Type: adapted play/manipulative, seating/positioning/mobility, sensory stimulation
Skill Level: secondary, adult
Disability: cognitive, learning, physical, speech, vision
The ClipDifferent Pro is a patent-pending, carefully engineered fingernail clipper that transforms this repetitive, "Autask," into an easy experience. The safe fingernail slot prevents skin from coming into contact with the trimming mechanism (even

those with full vision loss can use it safely). In addition, it catches the nail clippings in a drawer, eliminating the mess of this routine task. It's also compact (3" x 5") and contains a rechargeable battery that can last months between charges.

Pulse Mechanical Switch

Adaptive Switch Laboratories, Inc.

Price: \$0 - \$156

Product Type: seating/positioning/ mobility

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: physical

The ASL 320 Pulse Mechanical Switch is a mechanical switch which was designed to activate from any location on the top of the switch with minimal force. It includes a rubber seal which prevents foreign substances from entering the switch and interfering with operation.

Quad Belt

Bodypoint Inc.

Price: \$98.00 - \$115.00

Product Type: seating/positioning/ mobility

Skill Level: secondary, adult

Disability: physical

A non-padded belt designed for wheelchair users with minimal hand function, with a stiffened thumb socket that makes it easier to grasp and manipulate. It features the Bodypoint® Rehab Latch™, our lowest force buckle, which is often the only buckle such users can operate themselves. It features a two-stage release with wide 70° opening angle to minimize accidental detachment. This belt is a center-pull, size large only.

Read and Tell

Attainment Company, Inc.

Price: \$259.00

Product Type: instructional material

Skill Level: elementary, secondary

Disability: learning, physical

An adapted literature collection featuring 32 popular novels like Little House on the Prairie and Because of Winn-Dixie. Ideal for elementary and secondary students. Highlights vocabulary, literacy comprehension, and listening skills and can be used as a stand-alone program or a great companion to an ELA program. Literature has been adapted to include modified storylines, symbol supports, and repeated text.

ReaderPen

Scanning Pens

Price: \$250.00

Product Type: learning aid

Skill Level: elementary, secondary, adult

Disability: cognitive, learning, speech, vision

ReaderPen is a portable literacy tool helping students develop their independent reading skills while promoting inclusion in their classroom or distance learning. Simply scan words or sentences and hear them read discreetly via earbuds. The goal is to nurture the reading skills of a student until they no longer feel like they need the support. Built in dictionaries expand vocabulary. The voice recorder is great for recording instructions or fluency progress checks. The scan to cursor feature allows users to scan from worksheets/textbooks directly to Google/Word Docs for simplified note taking or study guides. Saves money and time by reducing students' reliance on a human reader. Reader Pen is mainly used as a 1:1 reading accommodation for a student, you can also Exam Lock it out for day to day tests which removes all features except reading. Having it listed as, "text to speech," in the students IEP is helpful for exam approval. Does NOT require WiFi. Stand alone does not require another device.

ReaderPen Secure

Scanning Pens

Price: \$250.00

Product Type: learning aid

Skill Level: elementary, secondary, adult

Disability: cognitive, learning, speech, vision

ReaderPen Secure is a portable text to speech device to support people with reading difficulties (like Dyslexia) in the workplace empowering them to be more productive with less stigma. Simply scan print base words or sentences and hear them read discreetly via earbuds. This

multi-sensory reading aid will enable you to be a more inclusive employer, without the worry of any data breach. There is NO storage capabilities on this device. Built in dictionaries will show definitions to scanned words instantly. The scan to cursor feature allows users to scan from paperwork directly to computer to digitize materials quickly and easily. Does NOT require WiFi. Stand alone does not require another device.

Redcat Access

Lightspeed Technologies, Inc.

Price: \$1367.00 - \$4263.00

Product Type: learning aid, sensory stimulation, telecommunications

Skill Level: preschool, elementary, secondary, adult

Disability: cognitive, hearing, learning, speech

Redcat Access is a simple-to-use solution right out of the box. Its exceptional audio clarity fills the room with the teacher's natural voice, enabling all students to hear every word. With Access Technology there is no interference with other classroom technologies and the scalability to meet evolving instructional needs.

RightStart Mathematics

RightStart Mathematics

Price: \$15.00 - \$500.00

Product Type: instructional material

Skill Level: preschool, elementary

Disability: learning

RightStart Mathematics uses the AL Abacus to provide a visual, auditory, and kinesthetic approach to elementary math. Fractions are approached with a linear perspective. Card games are used to learn concepts and strategies and to practice facts. The lessons guide the teacher day-by-day, helping children understand, apply, and enjoy mathematics.

Ring Around Bells

Enabling Devices

Price: \$259.95 - \$0.00

Product Type: adapted play/manipulative, learning aid, sensory stimulation

Skill Level: preschool, elementary, secondary

Disability: cognitive, hearing, learning, physical, vision

Ring Around Bells is excellent for music therapy and classroom music time. The bells are precision-tuned and provide exceptional sounds. Use this musical toy four different ways: by attached yellow switch, your own capability switch, twirl by hand, or detach a bell and play it by hand.

Rubber Dome Joystick Handle

Bodypoint Inc.

Price: \$79.00

Product Type: seating/positioning/ mobility

Skill Level: preschool, elementary, secondary, adult

Disability: physical

Bodypoint's Rubber Dome Joystick Handle is designed specifically for users with weak hands. Its low, wide form matches the shape of the palm, keeping the wrist neutral for comfort and control. Ribbed texture reduces sweat buildup and increases friction to keep hands from slipping off with involuntary movement.

Price: \$199.95

Product Type: adapted play/manipulative

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: cognitive, learning, physical, vision

Skoogmusic makes musical instruments we can all play. And we really do mean

everyone! Play, jam and create music right out the box. We call it, 'musicplay.'

Skwitch

Skoogmusic

Price: \$49.95

Product Type: adapted play/manipulative, learning aid, sensory stimulation

Skill Level: preschool, secondary, adult

Disability:

Skwitch is the brand new musical instrument from Skoogmusic. But we think it's so much more. Think of it as Skoog's compact, nimble little brother. Or sister. And it clips straight on to your iPhone, so within minutes you have a piece of accessible tech that you can use to create music, learn coding and more. It's a bit like magic, but better.

Slip-on Pads

Bodypoint Inc.

Price: \$43.00 - \$51.00

Product Type: seating/positioning/mobility

Skill Level: preschool, elementary, secondary, adult

Disability: physical

Slip-On Pads slide over webbing to add padded comfort to basic non-padded chest or hip belts, providing greater pressure distribution. Non-wrinkling, flexible fabric resists dirt and grime, and rounded edge binding avoids skin irritation. Three sizes to fit 1", 1.5" and 2" webbing.

SmartKnitKIDS Seamless Sensory Garments

Knit-Rite, Inc.

Price: \$7.95 - \$19.99

Product Type: sensory stimulation

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: physical

Bumps, seams, ouchies, burglars, or nuggies. By whatever name they're called, seams and lumps can be a nuisance. SmartKnitKIDS Seamless Products have taken the woes out of clothes and help to keep the morning routine in check. In 2003, SmartKnitKIDS, a brand of Knit-Rite, Inc., started receiving requests from parents for a completely seamless sock. It seemed that all the seamless socks available had a flat or handlinked seam across the toes. To a sensitive child, this was still a bother; there was still a toe seam. With over 90 years of medical textile expertise, Knit-Rite used parent feedback to create a patented 100% seamless sock with added comfort features for sensitive feet. Children are not the only ones with sensitive feet and toes. Often sensitive kiddos turn into sensitive adults. SmartKnitKIDS expanded their line to include seamless socks for adults, appropriately named SmartKnit Big KIDS Socks. In 2010, SmartKnitKIDS launched patent pending Seamless Un-

dies. The first of its kind, their seamless undies are seam free, elastic free, and gently hug little bottoms! The evolution continued with the launch of the Seamless Compresso-T and Bralette in 2011. The Compresso-T is a form-fitting undershirt that protects skin from annoying clothing seams and provides a soothing 'hug'.

Social Skills at School: Elementary

Attainment Company, Inc.

Price: \$199.00

Product Type: adapted play/manipulative, instructional material, learning aid

Skill Level: elementary

Disability: cognitive, learning, physical, speech

The updated Social Skills at School: Elementary is a perfect social skills program for elementary students with autism, intellectual, or behavioral disabilities. A skills-based curriculum for elementary students to develop an understanding of behavioral cues and expectations of a typical school day.

Somatosensory Musical Bead Chain/Switch

Enabling Devices

Price: \$179.95 - \$0.00

Product Type: adapted play/manipulative, learning aid, sensory stimulation

Skill Level: preschool, elementary, secondary

Disability: cognitive, learning, physical, vision

Used for developing the concept of cause and effect. Movement of the beads will turn on a built-in music box. When the beads are manipulated, the music stays on. It can also be used as a capability switch without music when connected to any toy or device.

Speech and Language Songs

Speech and Language Songs

Price: \$0 - \$25

Product Type: instructional material, learning aid

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: cognitive, learning, speech
Speech and Language Songs creates speech therapy songs that help children communicate more effectively. These songs are written, performed, and recorded by a certified Speech-Language Pathologist, Stephen Kneese, MA, CCC-SLP. A new song is posted to YouTube every Monday at 5:00pm EST.

Stages

Attainment Company, Inc.

Price: \$69.00 - \$199.00

Product Type: instructional material

Skill Level: preschool, elementary,

secondary

Disability: learning, physical

A seven-stage framework for cognitive and language development. Covers learner considerations, relevant issues, communication strategies, tips for evaluating software, and a skills checklist before moving on to the next stage. Includes references to research and published articles and provides recommendations for software, apps, and manipulatives materials.

Stayflex Chest Support

Bodypoint Inc.

Price: \$155.00 - \$177.00

Product Type: seating/positioning/mobility

Skill Level: preschool, elementary, secondary, adult

Disability: physical

Provides wheelchair users firm trunk control with free shoulder movement. Patented, dual-stretch-zone construction eliminates upwards shift at the neckline when leaning forward, minimizing strangulation risk. Carefully selected materials optimally balance stretch and resistance, and quick-release swivel buckles allow easy removal. Available in two widths and with or without zipper. New MD (multi-directional) Pull Straps allow set up on the spot as a front-pull or a rear-pull. Machine wash and dry.

Steady Stylus

ShapeDad

Price: \$28.00 - \$48.00

Product Type: adapted play/manipulative

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: physical

T-shaped stylus for tablet and smartphone for assistive grip aids. It is available in two versions: regular and mini.

Stepping Out Into the Community

Attainment Company, Inc.

Price: \$129.00 - \$299.00

Product Type: adapted play/manipulative, instructional material, learning aid

Skill Level: secondary, adult

Disability: cognitive, learning, physical, speech

Stepping Out is a comprehensive community-based instruction (CBI) curriculum that includes a task analysis for 18 community outings including grocery shopping, eating at restaurants, using the bank, and going to the movie theater.

Storytime Revised Book and Electronic files

Creative Communicating

Price: \$50.00 - \$0.00

Product Type: adapted play/manipulative, instructional material, learning aid, sensory stimulation

Skill Level: preschool, elementary

Disability: cognitive, hearing, learning, physical, speech

Save hours of time coloring and collecting pictures by using this ready-to-print software. An instructive step-by-step approach is introduced for building immediate success with early literacy skills and communication.

Straight Joystick Handle

Bodypoint Inc.

Price: \$79.00

Product Type: seating/positioning/mobility

Skill Level: preschool, elementary, secondary, adult

Disability: physical

Bodypoint's Straight Joystick Handle for power wheelchairs is perfect for users who do best with a vertical grip. It is easy to control using only the last joint of the fingers, and can be cut to length to meet individual user needs.

Sub-ASIS Compatible Belt

Bodypoint Inc.

Price: \$87.00 - \$173.00

Product Type: seating/positioning/mobility

Skill Level: preschool, elementary, secondary, adult

Disability: physical

Customize pressure relief while enhancing stability, fit and comfort with a Sub-ASIS Compatible Hip Belt. Unique gel-filled sub-ASIS pads (sold separately) attach inside belt to fill anatomical gaps and prevent belts from digging or riding up, improving control of obliquity and rotation while minimizing bladder pressure. Two-point and four-point styles.

Suitcase Wheelchair Ramps

Express Ramps

Price: \$99.95 - \$389.90

Product Type: seating/positioning/mobility

Skill Level: elementary, secondary, adult

Disability: physical

These portable aluminum ramps are designed to be safe and easy to use on a variety of surfaces and support up to 800 pounds. Please see our Web site for all the ramps we carry: <http://www.portable-wheelchair-ramps.com>

Swell Touch Paper

American Thermoform Corporation

Price: \$132.99 - \$228.99

Product Type: instructional material, learning aid, sensory stimulation

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: vision

Swell Touch Paper is utilized for Tactile Graphics machines manufactured by Zychem, PIAF, and Reprotronics. This paper swells along specified black lines and diagrams when being used with these heat processors.

Switch Fiber Optic Arrays

Adaptive Switch Laboratories, Inc.

Price: \$4150.00 - \$5470.00

Product Type: seating/positioning/mobility

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: physical

The ASL 107, 108 are two or four fiber optic switches that allow the driver to operate a power wheelchair. These sensors can be positioned inside a tray or at any available switch site. Typical users are individuals with extremely limited movement such as MD, MS, ALS and SMA.

Switch Poser

RJ Cooper and Associates

Price: \$49.00 - \$0.00

Product Type: adapted play/manipulative

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: physical

Inexpensive vacuum type device that holds switches at angles.

Switch-Adapted Call Chime

RJ Cooper and Associates

Price: \$59.00 - \$0.00

Product Type: adapted play/manipulative

Skill Level: preschool, elementary, secondary, adult

Disability: physical

Includes two transmitters, each with a different tone, communicates without wires up to 100 feet with the chime.

Switch-Adapted Game Controllers

RJ Cooper and Associates

Price: \$69.00 - \$149.00

Product Type: adapted play/manipulative

Skill Level: elementary, secondary, adult

Disability: physical

Standard controllers for all game consoles, available with a variety of adaptations, such as: SWITCH JACKS for major game functions, joystick extensions, movement of trigger buttons, etc.

Table Top Suction Mount for iPads

AbleNet, Inc.

Price: \$75.00

Product Type: adapted play/manipulative, learning aid, seating/positioning/mobility

Skill Level: preschool, elementary, secondary, adult

Disability: cognitive, learning, physical, speech, vision

Table Top Suction Mount provides a quick, easy way to mount almost any AbleNet switch or small dedicated speech generating device (SGD) to a smooth surface like a table or desktop. Two easy lock and release suction cups secure it while the pivoting arm allows positioning of the switch device.

TabletTable

Attainment Company, Inc.

Price: \$179.00

Product Type: instructional material

Skill Level: infant/toddler, preschool,

elementary, secondary, adult

Disability: learning, physical

An accessory for helping students to reach and view the screen of an iPad. Includes a built-in handle and a convenient storage space for chargers or other supplies. Provides an ergonomic, 22-degree angle design and offers solid construction and nonskid bottom for security and stability.

TactileTalk Toolkit

Attainment Company, Inc.

Price: \$499.00 - \$0.00

Product Type: adapted play/manipulative, learning aid, sensory stimulation

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: vision

Focuses on both communication and literacy skills by combining tactile symbols with voice output. Tangible symbols represent objects, activities, places, people and concepts. Several objects are organized on transparent sheets with borders and other symbols made with special tactile paint. These sheets function as overlays for an iPad screen.

Taking on Tough Words

Attainment Company, Inc.

Price: \$34.00

Product Type: instructional material

Skill Level: elementary, secondary

Disability: learning, physical

A researched curriculum consisting of 90, 15-minute lessons for reading and spelling multisyllabic words. Integrates phonics rules and word recognition skills while providing increasingly difficult, sequenced and scripted lessons. Ideal for older elementary through high school students.

Talk It Rock It Animation Station Videos

Talk It Rock It

Price: \$20 - \$30

Product Type: instructional material, learning aid

Skill Level: infant/toddler, preschool, elementary

Disability: cognitive, learning, speech

Talk It Rock It Animation Station videos feature our songs put to short videos. From simple imitation to more complex language tasks, these videos focus on specific speech and language goals. Disability: cognitive, learning, physical, speech

This is an electronic download in pdf format of the light tech communication books to print. There is a selection of a six location CLAP book and a 12 location student book.

The Voice Keeper

The Voice Keeper

Price: \$0 - \$300

Product Type: telecommunications

Skill Level: preschool, elementary, secondary, adult

Disability: speech

The Voice Keeper allows individuals to create a digital version of their voice for free from their iPhone or computer within a few minutes and only charges when the person wishes to download their new personalised voice onto a communication device. When individuals are ready to use their new voice, there is a one-time payment of \$299 (≈£245) for a Windows SAPI version, compatible with all major communication software, or a significantly lower amount of \$75 (≈£60) to keep their new digital voice on The Voice Keeper app and use the app as a text-based communication aid. The Voice Keeper app does not require external microphones, setup calibrations or any other supporting software. Individuals can just download the app, sign up within seconds and start creating the first version of their new digital voice with as little as 30-100 sentences of recording material. However, the more material they record, the better the technology will be in capturing their personal tone, accent and the way they speak. The milestone-based system allows users to record as much or as little material as they want. For this process to be completed on a personal computer, it is recommended to use a USB headset microphone. <https://thevoicekeeper.com/>

Therapy Shoppe Desktop Writing Slant Boards

Therapy Shoppe® Incorporated

Price: \$39.99

Product Type: instructional material, learning aid

Skill Level: elementary, secondary, adult

Disability: cognitive, learning, physical, vision

Premium lightweight slantboards provide a smooth 15" x 13-1/2" writing surface and functional 20-degree writing angle for optimal wrist positioning. These durable slantboards naturally facilitate functional

Time Timer PLUS® 120 Minute

Time Timer LLC

Price: \$38.95 - \$38.95

Product Type: adapted play/manipulative, learning aid

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: cognitive, hearing, learning, vision

The Time Timer PLUS 120 Minute offers a greater visual impact for longer duration needs. Time management is not a one-size-fits-all undertaking. Sometimes one hour is just not enough time. The Time Timer PLUS 120 Minute is ideal for independent learning stations at home, time blocking for large projects, nap times, and long-duration activities. Volume control dial for those times you need a louder tone and those when you prefer silence. Easy-to-read numbers. Lightweight anti-static disk. No loud ticking.

Time Timer PLUS® 20 Minute

Time Timer LLC

Price: \$38.95

Product Type: adapted play/manipulative, learning aid

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: cognitive, hearing, learning, vision

The Time Timer PLUS 20 Minute makes it easy to visualize how quickly 20 minutes will pass, especially beneficial for shorter task durations. Use the Time Timer PLUS 20 Minute to help ease transitions between activities and reduce anxiety. Also great for Pomodoro techniques for ADHD. The Time Timer PLUS family offers visual timers in 5-minute, 20-minute, 60-minute and 120-minute durations. Volume control dial for those who need a louder tone and those that prefer silence. Easy-to-read

numbers Lightweight anti-static disk No loud ticking

Time Timer PLUS® 5 Minute

Time Timer LLC

Price: \$38.95

Product Type: adapted play/manipulative, learning aid

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: cognitive, hearing, learning, vision

The Time Timer PLUS 5 Minute offers greater visual impact for shorter duration activities such as brushing teeth, breathing exercises, transitioning to new activities, and managing daily schedules. For those with severe cognitive or physical disabilities, being able to see how much longer can create better success for task completion and focus. The Time Timer PLUS family offers visual timers in 5-minute, 20-minute, 60-minute and 120-minute durations. Volume control dial for those who need a louder tone and those that prefer silence. Easy-to-read numbers Lightweight anti-static disk No loud ticking

Time Timer PLUS® 60 Minute

Time Timer LLC

Price: \$38.95

Product Type: adapted play/manipulative, learning aid

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: cognitive, hearing, learning, vision

The Time Timer PLUS 60 Minute features a rugged case and durable clear lens to protect its patented red disk. The on-the-go handle helps encourage independent living and working in all ages and abilities. The Time Timer PLUS 60 Minute shows visually how much time has elapsed and eases anxiety between transitions. The Time Timer PLUS family offers visual timers in 5-minute, 20-minute, 60-minute and 120-minute durations. Volume control dial for those who need a louder tone and those that prefer silence. Easy-to-read numbers Lightweight anti-static disk No loud ticking

Time Timer TWIST®

Time Timer LLC

Price: \$19.95

Product Type: adapted play/manipulative, learning aid

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: cognitive, hearing, learning, vision

The 90-minute TWIST is an easy-to-use time management tool. To use, simply turn the outer ring until you get to your desired time, then push the play button. A digital display shows at a glance how much time remains. A magnetic back makes the TWIST a snap to display. Twist the Red, outer ring to quickly set the time required

Play / Pause button for quick starts and easy pause functionality Digital tick marks appear when timer is actively running Duration of timer appears in the center Quiet operation, no loud ticking Digital alert sounds at the end of the timer (Alert is not optional on this model)

Time Timer® MAX

Time Timer LLC

Price: \$149.95

Product Type: adapted play/manipulative, learning aid

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: cognitive, hearing, learning, vision

The Time Timer MAX is 17 inches by 17 inches so it can be seen in larger spaces such as gymnasiums, cafeterias and auditoriums. The big red disk makes it easy to see for anyone with low vision. It's also eight timers in one - with customizable durations and changeable timer faces, the MAX can countdown as low as 5 minutes, or as high as 24 hours. Ease transitions between activities no matter how long the activity is. Included with the MAX are 3 two-sided timer faces - 5/15 minutes, 30/60 minutes, 120 minutes/Dry Erase Board timer face allowing for maximum flexibility and customization Divide the time with colored set time dividers that are conveniently stored on the back of the timer Free-standing or wall-mounted options, whiteboard or map rail. 1 bracket mount is included.

Time Timer® Original 12"

Time Timer LLC

Price: \$39.95

Product Type: adapted play/manipulative, learning aid

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: cognitive, hearing, learning, vision

The largest of the Original family, the Time Timer® Original 12," is the heart of any classroom or home. Students learn more when they are able to spend more time focusing, rather than asking how much time is left. This can help students understand that an undesired task will not last forever. The Time Timer Original 12" eases stressful transitions by showing, "Áúhow much longer," and can be seen from a distance. Time Timer Original timers are available in 3-inch, 8-inch, and 12-inch models Large patented red disk that disappears as time elapses No loud ticking, no distractions Optional audible signal when time is up Free-standing and wall-mounted options

Time Timer® Original 8"

Time Timer LLC

Price: \$34.95

Product Type: adapted play/manipulative, learning aid

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: cognitive, hearing, learning, vision

The Time Timer Original 8," is an ideal 60-minute visual timer for small to medium groups. It can stand alone or hang on the wall and is perfect for the home, classrooms, and student testing. The perfect size to encourage focus and time management for an entire room or in a small 1-to-1 session - for all ages and cognitive abilities. Time Timer Original timers are available in 3-inch, 8-inch, and 12-inch models Large patented red disk that disappears as time elapses No loud ticking, no distractions Optional audible signal when time is up Free-standing and wall-mounted options

Time Timer® WASH

Time Timer LLC

Price: \$26.95

Product Type: adapted play/manipulative, learning aid

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: cognitive, hearing, learning, vision

The Time Timer WASH keeps everyone safe with a touchless, water-resistant visual timer for handwashing. Its familiar disappearing disk, paired with the CDC recommended duration for clean hands, gives people of all ages and abilities an easy-to-understand resource for ensuring germ-free hands. It eases this essential task for anyone with OCD, Autism, or ADHD. The Time Timer WASH times for a total of 30 seconds and breaks hand washing into three simple steps - Soap (5 seconds) Scrub (20 seconds) Rinse (5 seconds)

Titan ADA Wheelchair Ramps

Express Ramps

Disability: physical

The Titan Series ADA Modular Wheelchair Ramps are completely code compliant with ADA, OSHA and IBC2006 guidelines. These wheelchair ramps are a modular design to provide maximum flexibility to meet virtually any handicapped access need and are easy to install for complete ADA Compliance. See more at www.adawheelchairramps.com

TM100 - Trigger Mechanism

Be Adaptive Equipment, Inc.

Price: \$334

Product Type: adapted play/manipulative

Skill Level: preschool, elementary, secondary, adult

Disability:

Be Adaptive Equipment Model TM100 is a vacuum actuated trigger system that attaches to your trigger guard. Is simple to install on any weapon with a standard trigger guard. The unique design of the mechanism allows it to fire most weapons if placed anywhere inside of the trigger guard. The simplicity of the set up allows the trigger mechanism to be moved from one weapon to another easily and quickly. The TM100 fires the weapon by a very slight suction on the blue tube in the picture which is attached to the control box. The control box is attached to the stock of the weapon with a Velcro cinch strap. The mechanism operates on 12 volt DC power and comes with a pigtail that can be attached to one of the batteries in your power chair or attached to an auxiliary battery.

Toe Straps

Bodypoint Inc.

Price: \$26.00

Product Type: seating/positioning/mobility

Skill Level: preschool, elementary, secondary, adult

Disability: physical

Add our durable, hook-and-loop toe straps to slotted wheelchair footplates to limit aggressive foot rotation and dorsiflexion. Length is fully adjustable and can be trimmed shorter as needed. For enhanced foot positioning needs, consider our Ankle Huggers Support Straps instead. Use them alone or in conjunction with toe straps.

Topcat Access

Lightspeed Technologies, Inc.

Price: \$1562.00 - \$4270.00

Product Type: learning aid, sensory stimulation, telecommunications

Skill Level: preschool, elementary, secondary, adult

Disability: cognitive, hearing, learning, speech

Teachers love Topcat because it delivers both multimedia audio and their instruction to every corner of the room without shouting at the top of their lungs. The IT team likes the easy, wireless ceiling installation and lack of interference with all the other technology in the building.

Trimline Shoulder Harness

Bodypoint Inc.

Price: \$107.00 - \$119.00

Product Type: seating/positioning/mobility

Skill Level: elementary, secondary, adult

Disability: physical

Focused shoulder retraction for wheelchair users with two separate, adjustable padded straps that comfortably accommodate asymmetry. Each shoulder can be independently controlled while keeping the chest clear for maximum freedom of movement. New MD (multi-directional) Pull Straps allow it to be set up on the spot as a front-pull or a rear-pull harness. Machine wash and dry.

Twirling Bead Chain

Enabling Devices

Price: \$239.95 - \$0.00

Product Type: adapted play/manipulative, learning aid, sensory stimulation

Skill Level: preschool, elementary, secondary, adult

Disability: cognitive, hearing, learning, physical, speech, vision

Feel the cool beads! Activate the built-in red gumball switch and the carousel begins to turn causing the colorful cool beads to gently touch your hand as they spin by. In addition, upbeat music plays and red and blue lights sparkle. Great sensory experience that also teaches cause and effect.

U-shaped Joystick Handle

Bodypoint Inc.

Price: \$79.00

Product Type: seating/positioning/mobility

Skill Level: preschool, elementary,

secondary, adult

Disability: physical

Our U-Shaped Joystick Handle provides maximum wheelchair driving control for those with limited hand function. The curved, "Ágoalpost," design with waterfall edge is form-fitting and ergonomic, comfortably cradling hands while keeping them from sliding off. Available in two widths to fit different hand sizes, and can be custom-molded with hot water.

Uncle Goose Braille Blocks

Uncle Goose

Price: \$45.00

Product Type: adapted play/manipulative, instructional material, learning aid

Skill Level: infant/toddler, preschool, elementary

Disability: vision

An educational toy for those who use Braille to communicate. Touch each embossed Braille letter on two sides of every block in this 28 piece set. Use your fingertips to trace the clean, European-style font that accompanies every Braille letter. Feel the attention to detail in every hand crafted cube.

Uncle Goose Braille Math Blocks

Uncle Goose

Price: \$26.00

Product Type: adapted play/manipulative, instructional material, learning aid

Skill Level: infant/toddler, preschool, elementary

Disability: vision

We debossed each colorful block in this 16 piece set with either a number or a math symbol. Then, we used the Nemeth Braille Code for Mathematics to emboss the Braille translation next to each number or symbol.

Uncle Goose Classic ABC Blocks

Uncle Goose

Price: \$40.00

Product Type: adapted play/manipulative

Skill Level: infant/toddler, preschool, elementary

Disability: cognitive, learning

Love these blocks. Teach children to spell, sequence, and stack; sort, build, and match. Four full alphabets, colorful numbers, math symbols, plus a menagerie of hand-crafted animals. Detailed embossing on two sides of each block.

Uncle Goose Classic Lowercase ABC Blocks

Uncle Goose

Price: \$40.00

Product Type: adapted play/manipulative, instructional material

Skill Level: infant/toddler, preschool, elementary

Disability: cognitive, learning

The ideal complement to our Classic ABC blocks. Four full lowercase alphabets, with two embossed letters on opposing sides. Add numbers, math symbols, and a small petting zoo of hand-crafted baby animals.

Uncle Goose Nursery Rhyme Favorite Blocks

Uncle Goose

Price: \$17.00

Product Type: adapted play/manipulative

Skill Level: infant/toddler, preschool, elementary

Disability: cognitive, learning

Teach children classic storytelling skills with this 9 block set. We embossed each block with two iconic images from classic Mother Goose stories. Read the playful text for each rhyme on the four other sides in our original, artful font.

Uncle Goose Sign Language Blocks

Uncle Goose

Price: \$45.00

Product Type: adapted play/manipulative

Skill Level: infant/toddler, preschool, elementary

Disability: hearing

An educational toy for those who use American Sign Language to communicate. Touch the two embossed sides on every block of this 28 block set. Use your fingertips to trace the clean, European-style font that accompanies every letter. Feel the attention to detail in every hand crafted cube.

Uncle Goose To Tonet ABC Blocks

Uncle Goose

Price: \$23.00

Product Type: adapted play/manipulative, instructional material

Skill Level: infant/toddler, preschool, elementary

Disability: cognitive, learning

Behold 14 bold black and white blocks. Sans serif letters on black and white backgrounds. See and feel two embossed sides per block. Enjoy the geometric and floral patterns.

Uncle Goose To Tonet Number Blocks

Uncle Goose

Price: \$23.00

Product Type: adapted play/manipulative, instructional material

Skill Level: infant/toddler, preschool, elementary

Disability: cognitive, learning

Behold 14 bold black and white blocks. Sans serif numbers on black and white backgrounds. See and feel two embossed sides per block. Enjoy shapes and symbols. Use the plus, minus, and equals signs to create equations.

Universal Elastic Strap

Bodypoint Inc.

Price: \$86.00 - \$100.00

Product Type: seating/positioning/mobility

Skill Level: preschool, elementary, secondary, adult

Disability: physical

A stable solution for temporary, anytime positioning. Wraps around your chest, abdomen, lap or legs - at home, in clinic, for sports, or whenever short-term postural support is needed. Soft to the touch with strong, durable hook-and-loop closure and easy-grasp thumb hole. Three sizes available. Cut to length without fraying.

Universal Shoulder Strap

AbleNet, Inc.

Price: \$40.00

Product Type: seating/positioning/mobility

Skill Level: preschool, elementary, secondary, adult

Disability: physical

Compatible with BIGmack, all BIG Step-by-Step devices, and Super Talker.

UNO Single Switch Scanner

Adaptive Switch Laboratories, Inc.

Price: \$1000.00 - \$5000.00

Product Type: seating/positioning/mobility

Skill Level: elementary, secondary, adult

Disability: physical

The UNO Single Switch Scanner with Bluetooth is designed so that a person that has only one consistent switch site available can control multiple things with one switch; this includes power wheelchair movement, seat functions, phones, tablets and communication devices. http://www.asl-inc.com/products/product_detail.php?prod=212

UPGRADE

Attainment Company, Inc.

Price: \$69.00 - \$299.00

Product Type: adapted play/manipulative, instructional material, learning aid

Skill Level: secondary, adult

Disability: cognitive, learning, physical, speech

UPGRADE is a research-based curriculum focusing on student employment goals in high school, a post-secondary program, or on the job. UPGRADE provides students with strategies for self-evaluation, like self-monitoring and goal setting. There are six units of instruction emphasizing soft skills necessary for school, work, and community success. These units are Attitude and Cooperation, Reliability, Productivity and On Task, Teamwork and Communication, and Quality of Work. After instruction, 10 UPGRADE lessons teach both the professional and the student to evaluate performance in each soft skill category.

Also describes software, hardware, and manipulative tools with sample IEP goals. Authors Sherry Purcell Ph.D and Debbie Grant M.A. 290 pages.

Vibes Hi-Fidelity Earplugs

Westminster Technologies

Price: \$23.99 - \$26.99

Product Type:

Skill Level: elementary, secondary, adult

Disability: hearing, learning

Vibes Hi-Fidelity Earplugs are reusable earplugs designed for sound quality that are used by individuals with sensitivity to sound, such as those with Autism Spectrum Disorder, Sensory Processing Disorder, Traumatic Brain Injuries, ADHD, etc. Unlike traditional earmuffs and foam earplugs that muffle sounds and isolate users from their environment, Vibes use acoustic filtering to lower the volume of the user's environment to a more comfortable level, while still allowing them to hear everything around them clearly and interact socially. Vibes' clear design makes them virtually invisible, allowing users to avoid the attention and stigma that is associated with bulky, bright colored hearing protection.

Vibrating Light with Music

Enabling Devices

Price: \$123.95 - \$0.00

Product Type: adapted play/manipulative, learning aid, sensory stimulation

Skill Level: infant/toddler, preschool, elementary, secondary, adult

Disability: cognitive, hearing, learning, physical, vision

The Vibrating Light with Music encourages even the most challenged child to reach out. The textured plate lights up and vibrates when pressed. It can be placed on a lap board or mounted on a wall. Hardware for wall mounting included.

Vidatak EZ Medical Picture Boards

Giving Greetings Publishing

Price: \$18

Product Type:

Skill Level: secondary, adult

Disability: cognitive, hearing, speech

This research-based picture communication board helps non-verbal children and adults communicate their healthcare needs and improves their care. Ideal for patients with dysphagia, aphasia, intellectually disabled, do not speak English or are intubated. The Vidatak Picture Communication board is lightweight and durable. The patient simply points to the appropriate symbol (with words in English) or uses a non-toxic marker to mark it. All marks are easily erased with a moist tissue paper. Each board is printed on large 17" x 11" dry erase board with pictures on both sides. Comes individually shrink-wrapped with a dry-erase marker. Symbols are large, 1.5" square. Available in pictures, english words, spanish words and spiritual symbols.

Vision Buddy

Vision Buddy

Price: \$2750 - \$3450

Product Type:

Skill Level: preschool, elementary,

secondary, adult

Disability: vision

Vision Buddy is the worlds first TV watching system for the visually impaired. It streams HD quality video directly from you existing TV setup into your goggles. It also has a powerful magnifier that you can use to look around and magnify objects. Other feature include Reading mode and OCR.
