

AAC: Ready - Set - GOAL!

Note: it may be helpful to print this so you can write in it throughout the training

Think – Pair – Share

What is your greatest challenge with writing goals for individuals using AAC?

What is one tool you use to determine typical language development and guide language goals for other students/clients on your caseload?

How might you tweak these linguistic objectives for a current client with whom you work?

How aware are you of your client's/student's skills as they relate to device use?
Do you have any goals written to specifically address operational skills? Why? Why not?

What tools do you use to help determine appropriate social language and interaction targets?

What strategies does your client/student use as it relates to using the device?
What strategies might be helpful for him/her to learn how to do?

What is one tool you use to help monitor progress?

NOTES

Case Study for Today's Goal Examples

Meet Matthew:

- 6-year-old boy with Autism
- Fine & Gross Motor: within normal limits
- Hearing & Vision: within normal limits
- Device: NOVA chat 8; Vocabulary: WordPower 60 Basic
- Expressive/Receptive Language Skills
 - Uses 20 signs and 10 words consistently
 - Follows 1-step and some 2-step directions
 - Understands more than what he can say
 - Unable to be assessed using standardized testing
- Demonstrates some behaviors, often secondary to loud noise
- What goals/objectives will we write for him today?

	LINGUISTIC	OPERATIONAL
OBJECTIVE 1	Increase use of adjectives.	Speak message by using the "Smart period"
OBJECTIVE 2	Increase ability to state likes/dislikes	Carry device

Meet Julia

- 12 year old girl with Cerebral Palsy
- Direct select with finger, uses wheelchair with mount
- Device: Accent 800; Vocabulary Unity 60 sequenced
- Expressive/Receptive Language Skills:
 - She currently communicates using 1-3 word utterances on her device for basic needs/wants
 - Understands more than what she can say
- What goals/objectives will we write for her today?

	SOCIAL	STRATEGIC
OBJECTIVE 1	Use greetings to initiate a conversation.	Use an introductory statement to explain her device.
OBJECTIVE 2	Ask social questions.	Repeat message when misunderstood

Linguistic Competency

The ability to use and understand language.

"sufficient knowledge, judgment, and skills in the linguistic code of the language(s) spoken and written in the individual's family and broader social community, including receptive skills and as many expressive skills in these languages as possible. In addition, they must also learn the language code of the AAC systems that they utilize, including the representational aspects of AAC symbols" (Light, 1989).

Language Functions & Early Generative Language Production

Banajee, M., DiCarlo, C., & Buras-Stricklin, S. (2003). Core Vocabulary Determination for Toddlers, *Augmentative and Alternative Communication*, 2, 67 – 73.

Top Words Used by Toddlers

- | | | |
|----------------------|----------|--------------|
| 1. a | 9. it | 17. some |
| 2. all done/finished | 10. mine | 18. that |
| 3. go | 11. more | 19. the |
| 4. help | 12. my | 20. want |
| 5. here | 13. no | 21. what |
| 6. I | 14. off | 22. yes/yeah |
| 7. in | 15. on | 23. you |
| 8. is | 16. out | |

CLINICAL APPLICATION

First 8 Words:

- | | |
|-------------|---------|
| 1. all done | 5. more |
| 2. help | 6. stop |
| 3. want | 7. that |
| 4. mine | 8. what |

First 15 Words:

- | | | |
|-------------|----------|----------|
| 1. all done | 6. I | 11. stop |
| 2. away | 7. it | 12. that |
| 3. go | 8. like | 13. want |
| 4. help | 9. mine | 14. what |
| 5. here | 10. more | 15. you |

First 30 Words:

- | | | |
|-------------|------------|----------|
| 1. again | 15. little | 29. what |
| 2. all done | 16. mine | 30. you |
| 3. away | 17. more | |
| 4. big | 18. my | |
| 5. do | 19. off | |
| 6. down | 20. on | |
| 7. get | 21. out | |
| 8. go | 22. put | |
| 9. help | 23. some | |
| 10. here | 24. stop | |
| 11. I | 25. that | |
| 12. in | 26. there | |
| 13. it | 27. up | |
| 14. like | 28. want | |

Language Functions & Early Generative Language Production

First 50 Words

- | | | | |
|-------------|------------|----------|-----------|
| 1. again | 14. get | 27. mine | 40. stop |
| 2. all | 15. go | 28. more | 41. tell |
| 3. all done | 16. good | 29. my | 42. that |
| 4. away | 17. happy | 30. not | 43. there |
| 5. bad | 18. help | 31. now | 44. turn |
| 6. big | 19. here | 32. off | 45. up |
| 7. come | 20. I | 33. on | 46. want |
| 8. do | 21. in | 34. out | 47. what |
| 9. don't | 22. it | 35. play | 48. where |
| 10. down | 23. like | 36. put | 49. who |
| 11. drink | 24. little | 37. read | 50. why |
| 12. eat | 25. make | 38. sad | 51. you |
| 13. feel | 26. me | 39. some | |

Adding to the Top 50

- | | | | |
|---------------|------------|---------------|--------------|
| 1. +ed | 26. have | 51. one | 76. they |
| 2. +ing | 27. he | 52. other | 77. think |
| 3. +s | 28. hear | 53. over | 78. thirsty |
| 4. after | 29. hi | 54. place | 79. those |
| 5. almost | 30. hot | 55. please | 80. time |
| 6. another | 31. how | 56. pretty | 81. tired |
| 7. any | 32. hungry | 57. problem | 82. together |
| 8. ask | 33. idea | 58. ready | 83. try |
| 9. be | 34. is | 59. ride | 84. under |
| 10. before | 35. job | 60. same | 85. very |
| 11. body | 36. know | 61. say | 86. walk |
| 12. can | 37. later | 62. she | 87. way |
| 13. cold | 38. leave | 63. sick | 88. we |
| 14. color | 39. let | 64. silly | 89. when |
| 15. did | 40. listen | 65. sing | 90. win |
| 16. different | 41. live | 66. sit | 91. with |
| 17. dress | 42. lose | 67. sleep | 92. work |
| 18. fall | 43. love | 68. slow | 93. write |
| 19. fast | 44. maybe | 69. sorry | 94. wrong |
| 20. favorite | 45. much | 70. start | 95. your |
| 21. for | 46. myself | 71. surprise | 96. |
| 22. fun | 47. name | 72. swim | 97. |
| 23. give | 48. need | 73. take | 98. |
| 24. goodbye | 49. nice | 74. thank you | 99. |
| 25. guess | 50. of | 75. these | 100. |

Adding Words to Get to 300+ Core Words

1. Add all the pronouns.
2. Add more adjectives and adverbs
3. Expand verbs, with tense variation

©Van Tatenhove, 2005.

AAC Goal Framework

DATE: _____

GOAL: _____ will improve his/her ☐ Linguistic ☐ Operational ☐ Social ☐ Strategic skills as they relate to use of his/her AAC system, in order to become a more competent communicator.

		OBJECTIVES	
		1)	2)
GOAL ATTAINMENT SCALE	LEVEL 5: BEST EXPECTED		
	LEVEL 4: MORE THAN EXPECTED		
	LEVEL 3: EXPECTED** (GOAL MET)		
	LEVEL 2: LESS THAN EXPECTED		
	LEVEL 1: BASELINE		

**Goal met when EXPECTED LEVEL is reached. EXPECTED LEVEL to be reached by _____ (date).

Clifford & Hettenhausen (2017)

modified from Hanson (2007)

SAMPLE GOAL & OBJECTIVES TO INCREASE LINGUISTIC COMPETENCE: CASE STUDY

GOAL: Matthew will improve his/her ☒ Linguistic ☐ Operational ☐ Social ☐ Strategic
skills as they relate to use of his/her AAC system, in order to become a more competent communicator.

DATE: _____

		OBJECTIVES	
		1) Increase use of prepositions (e.g., in/out, on/off, up/down).	2) Increase ability to state his likes/dislikes.
GOAL ATTAINMENT SCALE	LEVEL 5: BEST EXPECTED	Matthew will use 6 target prepositions <u>spontaneously when appropriate.</u>	When presented with an item/ activity, and asked "What do you think?" Matthew will accurately indicate his preference.
	LEVEL 4: MORE THAN EXPECTED	Matthew will use <u>6 target prepositions</u> during <u>less structured activities</u>	Matthew will express "dislike" to indicate dissatisfaction for 10 known non- preferred items or activities.
	LEVEL 3: EXPECTED** (GOAL MET)	Matthew will use <u>6 target prepositions</u> to direct action during structured play given aided language input.	Matthew will express "like" to indicate satisfaction for <u>10 known preferred items or activities</u> when asked his opinion (e.g., What think?)
	LEVEL 2: LESS THAN EXPECTED	Matthew will use <u>6 target prepositions</u> to direct action during structured play given aided language + 1 prompt.	Matthew will express "like" to indicate satisfaction for <u>5 known preferred items or activities</u> when asked his opinion (e.g., What think?)
	LEVEL 1: BASELINE	Matthew expresses (via sign, verbalizations, or SGD) 18 core words, but does not express any prepositions.	Matthew says "no" when asked "Do you want?" & plugs his ears or rocks when experiencing things he doesn't like.

**Goal met when EXPECTED LEVEL is reached. EXPECTED LEVEL to be reached by _____ (date).

Specific	Measurable	Agreed Upon	Realistic	Time-bound
----------	------------	-------------	-----------	------------

Clifford & Hettenhausen (2017)

modified from Hanson (2007)

Using the information in a different format

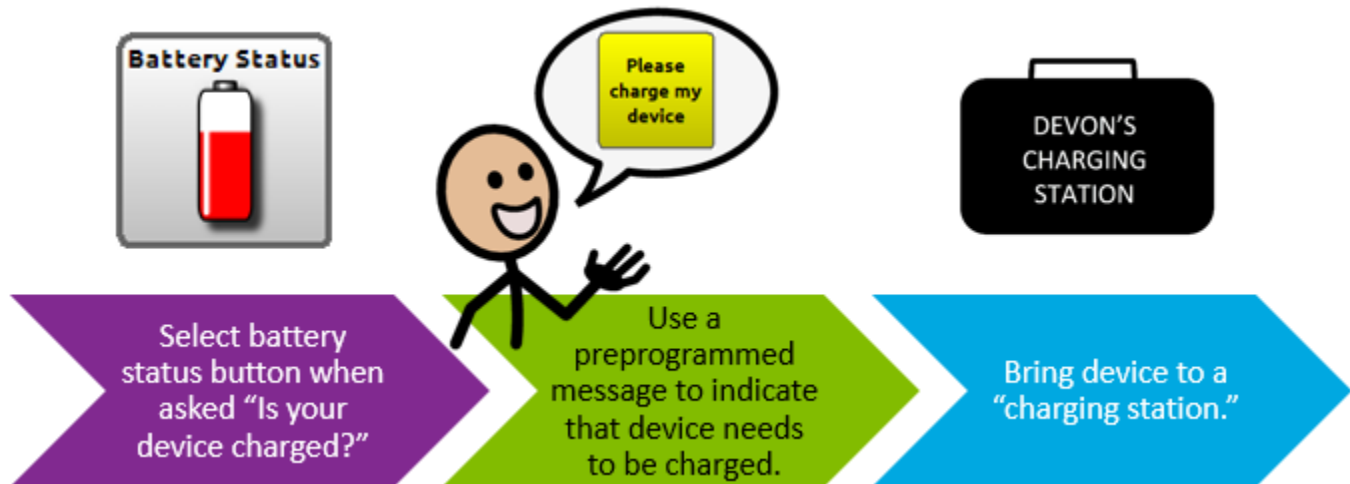

Goal:	Matthew will increase his expressive language skills (linguistic competency).
Present level of Performance:	Matthew expresses (via sign, verbalizations, or SGD) 18 core words, but does not express any prepositions. He says "no" when asked "Do you want?" & plugs his ears or rocks when experiencing things he doesn't like.
Implementer:	SLP, teacher, sped teacher
Objective 1:	Matthew will use 6 target prepositions to direct action during structured play given aided language input.
Objective 2:	Matthew will express "like" to indicate satisfaction for 10 known preferred items or activities when asked his opinion (e.g., What do you think?)

Operational Competency

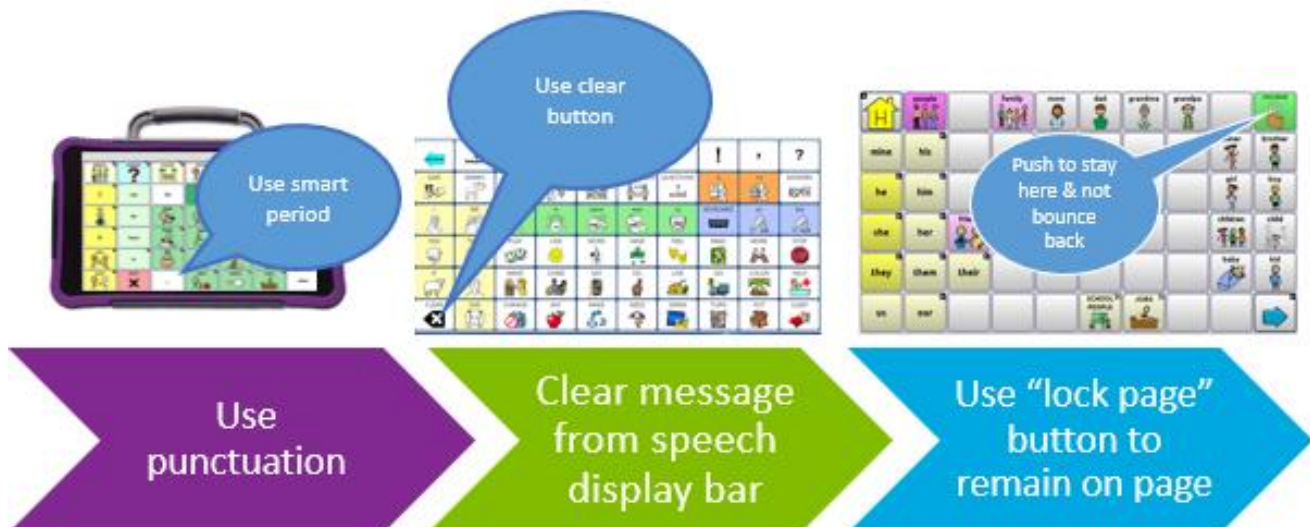

The technical skills involved in operating the AAC System.

The goal is for the person who uses AAC to operate his/her system without the burden of a cognitive overlay. In other words, despite the access methods used (direct or indirect), the operational skill of the AAC user is automatic. This requires practice and time, and depends upon motivation, strengths and weaknesses of the individual (Light, 1989)

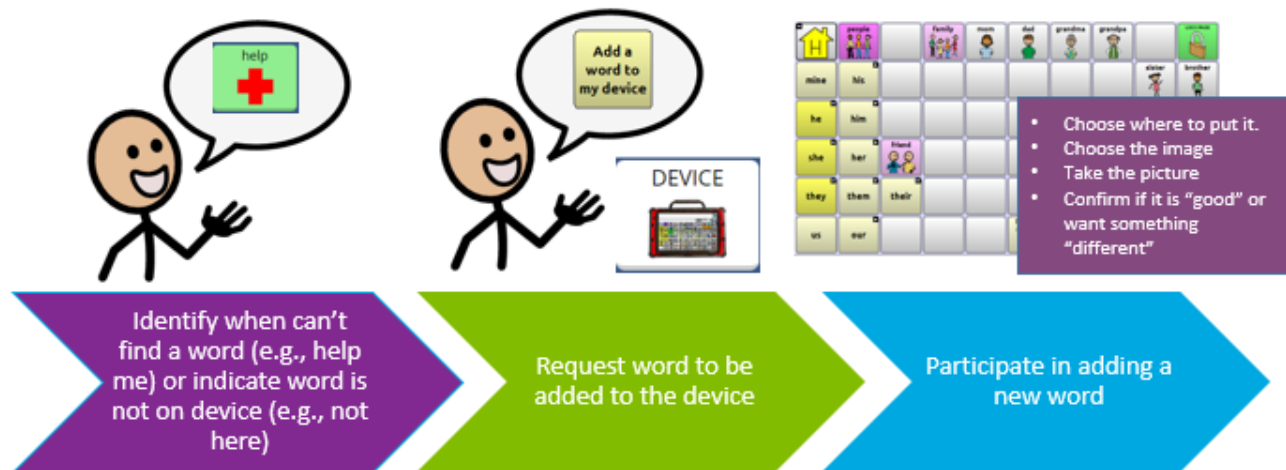

CHARGE DEVICE

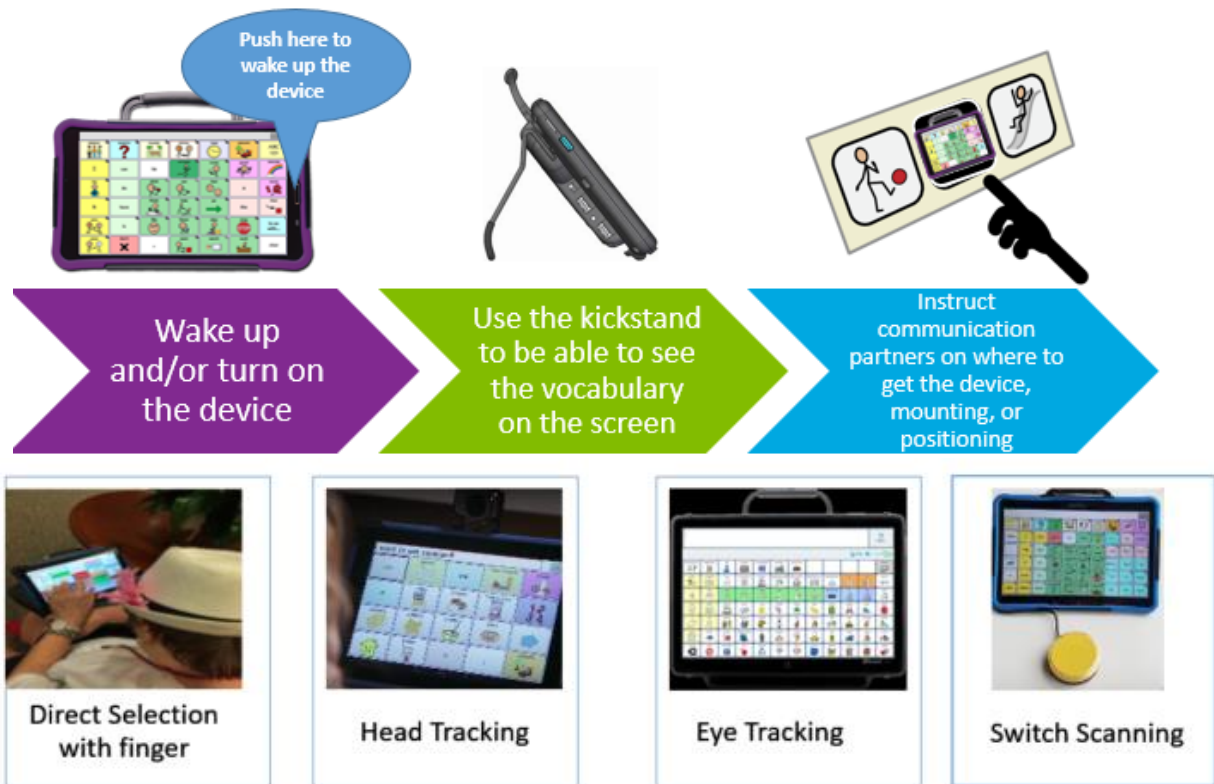

UTILIZE DYNAMIC DISPLAY

CUSTOMIZE DEVICE/ADD VOCABULARY

ACCESS DEVICE

Increase speed

Increase accuracy

Increase independence

Additional Resources:

- "Every Move Counts, Clicks, & Chats," Korsten, Foss, & Berry
<http://www.everymovecounts.net/>

CHARGE DEVICE	COMMENTS
<input type="checkbox"/> Use battery status button/Aware of battery status <input type="checkbox"/> Indicate that device needs to be charged <input type="checkbox"/> Participate in charging process (e.g., plug in device, bring device to a "charging station").	
ADJUST VOLUME	
<input type="checkbox"/> Locate & use volume control within device or volume buttons <input type="checkbox"/> Adjust volume based on a natural cue (e.g., "I can't hear you") or a direct prompt (e.g., "Turn it down/up.") <input type="checkbox"/> Adjust volume based on the environment (e.g., library)	
UTILIZE DYNAMIC DISPLAY	
<input type="checkbox"/> Navigate to or away from a vocabulary page <input type="checkbox"/> Use "lock page" button to stay on a page <input type="checkbox"/> Navigate to more vocabulary using the "next" or "more" arrow <input type="checkbox"/> Using punctuation <input type="checkbox"/> Clear message from SDB <input type="checkbox"/> Delete a single word or letter from the SDB	
CUSTOMIZE DEVICE/ADD VOCABULARY	
<input type="checkbox"/> Identify when you can't find a word (e.g., "help me") <input type="checkbox"/> Indicate word is not on device (e.g., "not here") <input type="checkbox"/> Request a word be added to the device. <input type="checkbox"/> Use "Word Finder" feature to locate new words <input type="checkbox"/> Participate in customizing device	
ACCESS DEVICE	
<input type="checkbox"/> Wake up and/or turn on device <input type="checkbox"/> Position device and/or set the kickstand to use device. <input type="checkbox"/> Open correct App <input type="checkbox"/> Adjust for lighting <input type="checkbox"/> Get device out. Carry device around environment. <input type="checkbox"/> Instruct others on where/how to get or mount device <input type="checkbox"/> Increase skills related to accessing device (e.g., direct selection, eye tracking, head tracking, switch scanning)	

This is not a comprehensive or hierarchical list. All examples are suggestions and should be modified appropriately for individual needs.

GOAL: Matthew will improve his/her ☐ Linguistic ☒ Operational ☐ Social ☐ Strategic skills as they relate to use of his/her AAC system, in order to become a more competent communicator. **DATE:** _____

		OBJECTIVES	
		1) Speak message in the SDB by using the “smart period.”	2) Carry AAC system independently throughout the day
GOAL ATTAINMENT SCALE	LEVEL 5: BEST EXPECTED	Matthew will independently use the smart period to speak his messages of 2+ words as appropriate.	Matthew will independently carry his AAC system with him during transitions throughout his day.
	LEVEL 4: MORE THAN EXPECTED	Matthew will use the smart period to speak his message of 2+ words given expectant wait time.	Matthew will independently carry his AAC system with him during 5 transitions when appropriate.
	LEVEL 3: EXPECTED** (GOAL MET)	Matthew will use the smart period to speak his message of 2+ words with no more than 1 visual prompt (e.g., highlighted button)	Matthew will carry his AAC system with him for 5 daily transitions with 1 gestural prompt and verbal cue (e.g., bring what you need).
	LEVEL 2: LESS THAN EXPECTED	Matthew will use the smart period to speak his message of 2+ words with no more than 1 visual and 1 verbal prompt.	Matthew will carry his AAC system from one location to another for 3 daily transitions with 1 gestural prompt and verbal cue.
	LEVEL 1: BASELINE	Matthew selects 2-3 words in sequence (e.g., play ipad) but does not speak the entire message.	Between activities, Matthew’s aid carries his devices. Matthew holds his device by the handle with instruction.

**Goal met when EXPECTED LEVEL is reached. EXPECTED LEVEL to be reached by _____ (date).

S pecific	M easurable	A greed Upon	R ealistic	T ime-bound
------------------	--------------------	---------------------	-------------------	--------------------

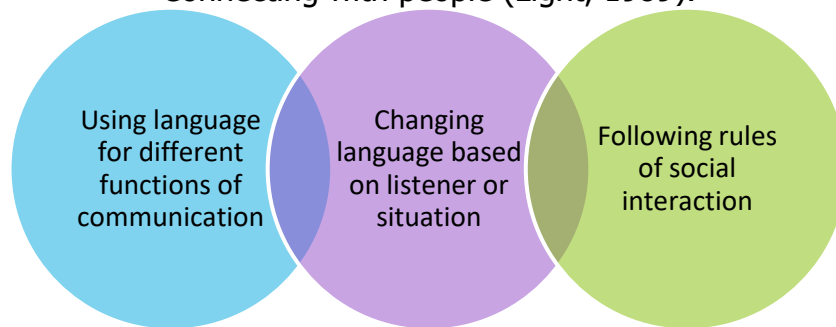

Clifford & Hettenhausen (2017)

modified from Hanson (2007)

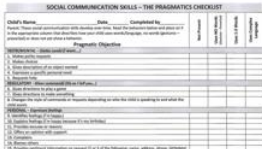

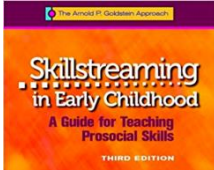

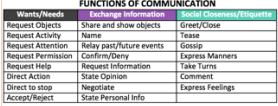

Social Competency

The ability to understand and adhere to the social rules of interaction.
Connecting with people (Light, 1989).

PRAGMATICS (FUNCTIONS OF LANGUAGE)

Pragmatics addresses "Communication Interaction" and within that interaction:
 1. "Communicative Intent," the reason behind why we are communicating such as questioning, commenting, requesting.
 2. "Discourse," the rules of conversation such as turn taking, introducing a topic, maintaining a topic and making adjustments when a listener does not understand, for example, rephrasing or restating something.

	Stage One	Stage Two	Stage Three	Stage Four	Stage Five	Stage Six
Description	Talking with one word at a time	Talking with two and three word phrases	Building phrases and early sentences	Learning grammar and sentence structure	Using sentences and phrase with more grammar endings	Using correct grammar and syntax
Approx. Vocab. Size	up to 75 words	75 to 200 + words	200 to 1000 words	1000 to 2000 words	2000 to 3000 words	3000+ words
MLUM Range	1	1.5 - 2.5	2.5 - 3.0	3.0 - 3.75	3.75 - 4.5	4.5+
MLUM Mean	1	2	2.75	3.5	4	4.5+
Communicative Intent	Naming Commenting Requesting objects Requesting information Responding Protesting or rejecting Greeting	Requesting action Responding to requests Stating Regulating conversational behavior				
Discourse Rules	Turn-taking based on Joint Reference or Joint Action Initiating a topic based on "will", such as attention getting Maintaining a topic in routine situations	Turn-taking after a pause Initiating a topic to an adult, then to peers Restating when requested	...then when given an indirect cue by an adult, "I didn't hear you."	Rephrasing when requested Maintaining a topic using interjections Initiating a topic regarding something in the "here and now"	...then when given an indirect cue by an adult, "I didn't understand that." ...warning, sarcasm, humor, metaphors	...then to topics in the past and future.

ALA : 09/09

GOAL: Julia will improve his/her ☐ Linguistic ☐ Operational ☒ Social ☐ Strategic skills as they relate to use of his/her AAC system, in order to become a more competent communicator.

DATE: _____

		OBJECTIVES	
		1) Use social greetings to initiate a conversation	2) Ask social questions
GOAL ATTAINMENT SCALE	LEVEL 5: BEST EXPECTED	Julia will use social greetings appropriately when initiating a conversation when meeting new people	Julia will ask questions to anyone with whom she interacts.
	LEVEL 4: MORE THAN EXPECTED	Julia will use social greetings to people with whom she interacts with on a daily basis	Julia will ask social questions to people in her school building.
	LEVEL 3: EXPECTED** (GOAL MET)	Julia will use social greetings to start a conversation to at least 5 peers/teachers per day in her class.	Julia will ask 5 social questions to peers/teachers in her classroom.
	LEVEL 2: LESS THAN EXPECTED	Julia will use social greetings to initiate a conversation to at least 3 peers/teachers per day from the GREETING activity row.	Julia will ask 2 social questions by selecting preprogrammed messages from the GREETING activity row with peers/teachers in her classroom.
	LEVEL 1: BASELINE	Julia will use greetings only in reply of someone else using a greeting.	Julia can answer questions for personal identification. She does not ask questions.

**Goal met when EXPECTED LEVEL is reached. EXPECTED LEVEL to be reached by _____ (date).

Specific	Measurable	Agreed Upon	Realistic	Time-bound
----------	------------	-------------	-----------	------------

Clifford & Hetterhausen (2017) modified from Hanson (2007)

Use of compensatory strategies to overcome environmental barriers, restrictions of the AAC system, and/or personal limitations of other linguistic, operational and/or social competencies. The ability to prevent or repair communication breakdowns (Light, 1989).

Strategic Competency: A Brainstorming Tool

Environmental Barriers and Strategies	Comments
<input type="checkbox"/> Uses strategies to be able to use device during loud/noisy environments <input type="checkbox"/> Uses strategies to use device while talking on the phone/texting <input type="checkbox"/> Uses device outside or during water activities <ul style="list-style-type: none"> <input type="checkbox"/> Request and/or use low-tech board <input type="checkbox"/> Request/learn to clean device 	
Social Barriers and Strategies	Comments
<input type="checkbox"/> Repeats message when misunderstood <input type="checkbox"/> Ask communication partner to slow down to allow time for message formulation <input type="checkbox"/> Uses introductory message that explains communication method <input type="checkbox"/> Gains attention of communication partner	
Linguistic Barriers and Strategies	Comments
<input type="checkbox"/> Use word prediction for words not in vocabulary <input type="checkbox"/> Uses 'save message' or 'notebook' to save long messages in advance <input type="checkbox"/> Use pre-programmed message to repair breakdown <input type="checkbox"/> Uses 'help' when need immediate assistance <input type="checkbox"/> New word added to vocabulary or request made for new word added to vocabulary	
Operational Barriers and Strategies	Comments
<input type="checkbox"/> Use low-tech board to identify issue with the device <input type="checkbox"/> Use of alternative means of communication when necessary <input type="checkbox"/> Indicate mistake on device (i.e. oops!)	

ENVIRONMENTAL BARRIERS & STRATEGIES

Use strategies to use device during loud/noisy environments

Use strategies to be able to use device to talk/text on the phone

Use strategies to use device outside

STRATEGIES FOR SOCIAL BARRIERS

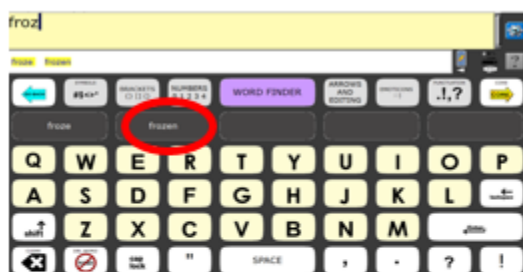

Repeats message when misunderstood

Asks communication partner to slow down

Uses introductory message

STRATEGIES FOR LINGUISTIC BARRIERS

Use word prediction

Use save message or notebook

Repair communication breakdowns

STRATEGIES FOR OPERATIONAL BARRIERS

Find low-tech/manual boards on our AAC Language Lab! www.aaclanguagelab.com

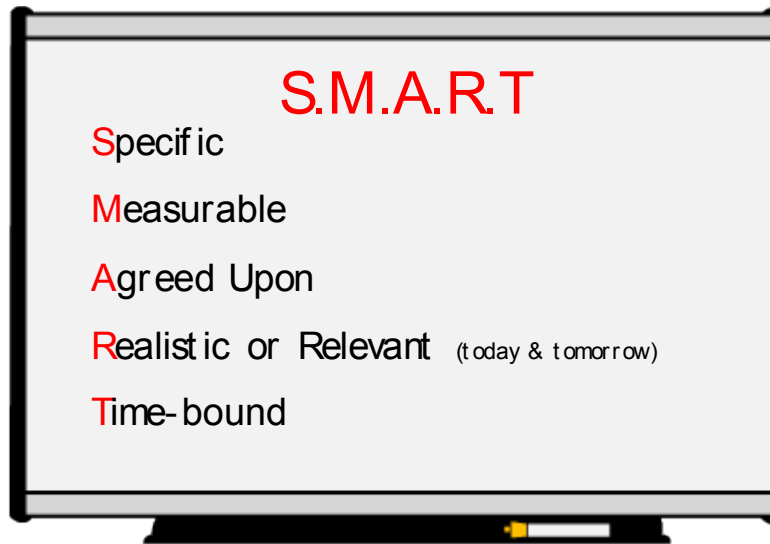

NOTES

DATE: _____

GOAL: Julia will improve his/her ☐ Linguistic ☐ Operational ☐ Social ☐ Strategic skills as they relate to use of his/her AAC system, in order to become a more competent communicator.

		OBJECTIVES	
		1) Julia will use an introductory statement to explain her device	2) Julia will repeat message when misunderstood
GOAL ATTAINMENT SCALE	LEVEL 5: BEST EXPECTED	Julia will use an introductory statement to explain his device when asked or to self-advocate.	Julia will repeat message when misunderstood in any environment with a variety of people.
	LEVEL 4: MORE THAN EXPECTED	Julia will use an introductory statement to explain the device to a variety of people in a variety of environments.	Julia will repeat message when misunderstood to people with whom she knows in familiar environments
	LEVEL 3: EXPECTED** (GOAL MET)	When asked, "What is that"?, Julia will use an introductory statement to explain her AAC device to 5 different people.	When prompted with, "I didn't understand that", Julia will repeat her message at least 5 times given 3 verbal prompts
	LEVEL 2: LESS THAN EXPECTED	Julia will use an introductory statement to explain her device to 2 different people with 1 gestural prompt.	Julia will repeat message when given gestural prompts
	LEVEL 1: BASELINE	Julia does not use any introductory statement to explain her device.	Julia gets frustrated when she is not understood.

**Goal met when EXPECTED LEVEL is reached. EXPECTED LEVEL to be reached by _____ (date).

Using the checklist on the next page, rewrite the following goals/objectives to be SMART.
 The first example is completed for you. Note the changes in bold.

ORIGINAL GOAL	SMART REWRITE
1. Matthew will use 6 target prepositions to direct action during structured play activities with minimal support.	By May 2018 , Matthew will use 6 early developing target prepositions (e.g., on/off, in/out, up/down) to direct action during motivating structured play activities given aided language input and an indirect visual cue .
2. Matthew will carry his AAC system with him for 5 daily transitions with 1 gestural prompt and 1 verbal cue (e.g., bring what you need).	
3. Julia will use social greetings to start a conversation to at least 5 peers/teachers per day in her class.	
4. When asked, "What is that (pointing to his device)?" Julia will use an introductory statement to explain her AAC device to 5 different people.	

S SPECIFIC

- ☐ Use wording that is clear and understood by everyone on the team, including the person for whom the goals are written.
- ☐ Write it so that anyone else could implement and monitor it.
- ☐ Use doing words to describe a behavior that is seen or heard (e.g., name, point, give). Avoid vague words (e.g., enjoy, demonstrate, maintain).
- ☐ Give context to the skill. When and where will it occur (e.g., each morning, during structured activities)?
- ☐ Describe types of support and give examples. Two people's understanding of "moderate support" or prompts may differ.

M MEASURABLE

- ☐ Assign a value that makes sense for the skill you are targeting. Consider:
 - Increasing the duration, spontaneity, frequency, speed, or accuracy
 - Decreasing the level of prompt, latency
- ☐ Ensure the value clearly shows progress over time.
- ☐ Consider the environment and/or communication partners.
- ☐ Make sure the intention of the goal is in sync with the criteria of the goal. Think beyond "80% accuracy across 3 data days."

A AGREED-UPON

- ☐ The team should agree the goal is a priority and a worthy area of focus.
- ☐ The goal/objective reflects the person's needs, interests, and abilities.
- ☐ The goal/objective improves the quality of life for the person.

R REALISTIC

- ☐ Target an emerging skill, one that is stimuable.
- ☐ Consider time restraints.
- ☐ Consider skills of communication partner.
- ☐ Consider possible barriers within the environment.

T TIME-BOUND

- ☐ Date the goal form to indicate when each level/skill is expected.

Writing **Observable and Measurable** Goals, Objectives and Benchmarks

Observable – a behavior which can be seen or heard by an observer. Behaviors have a beginning and an end.

Measurable – an observer has to do something to be able to measure the behavior (count, weigh, watch, etc). Measurable goals, objectives and benchmarks can be measured as written, allows multiple evaluators to repeat the same measurement, and provides data to demonstrate progress.

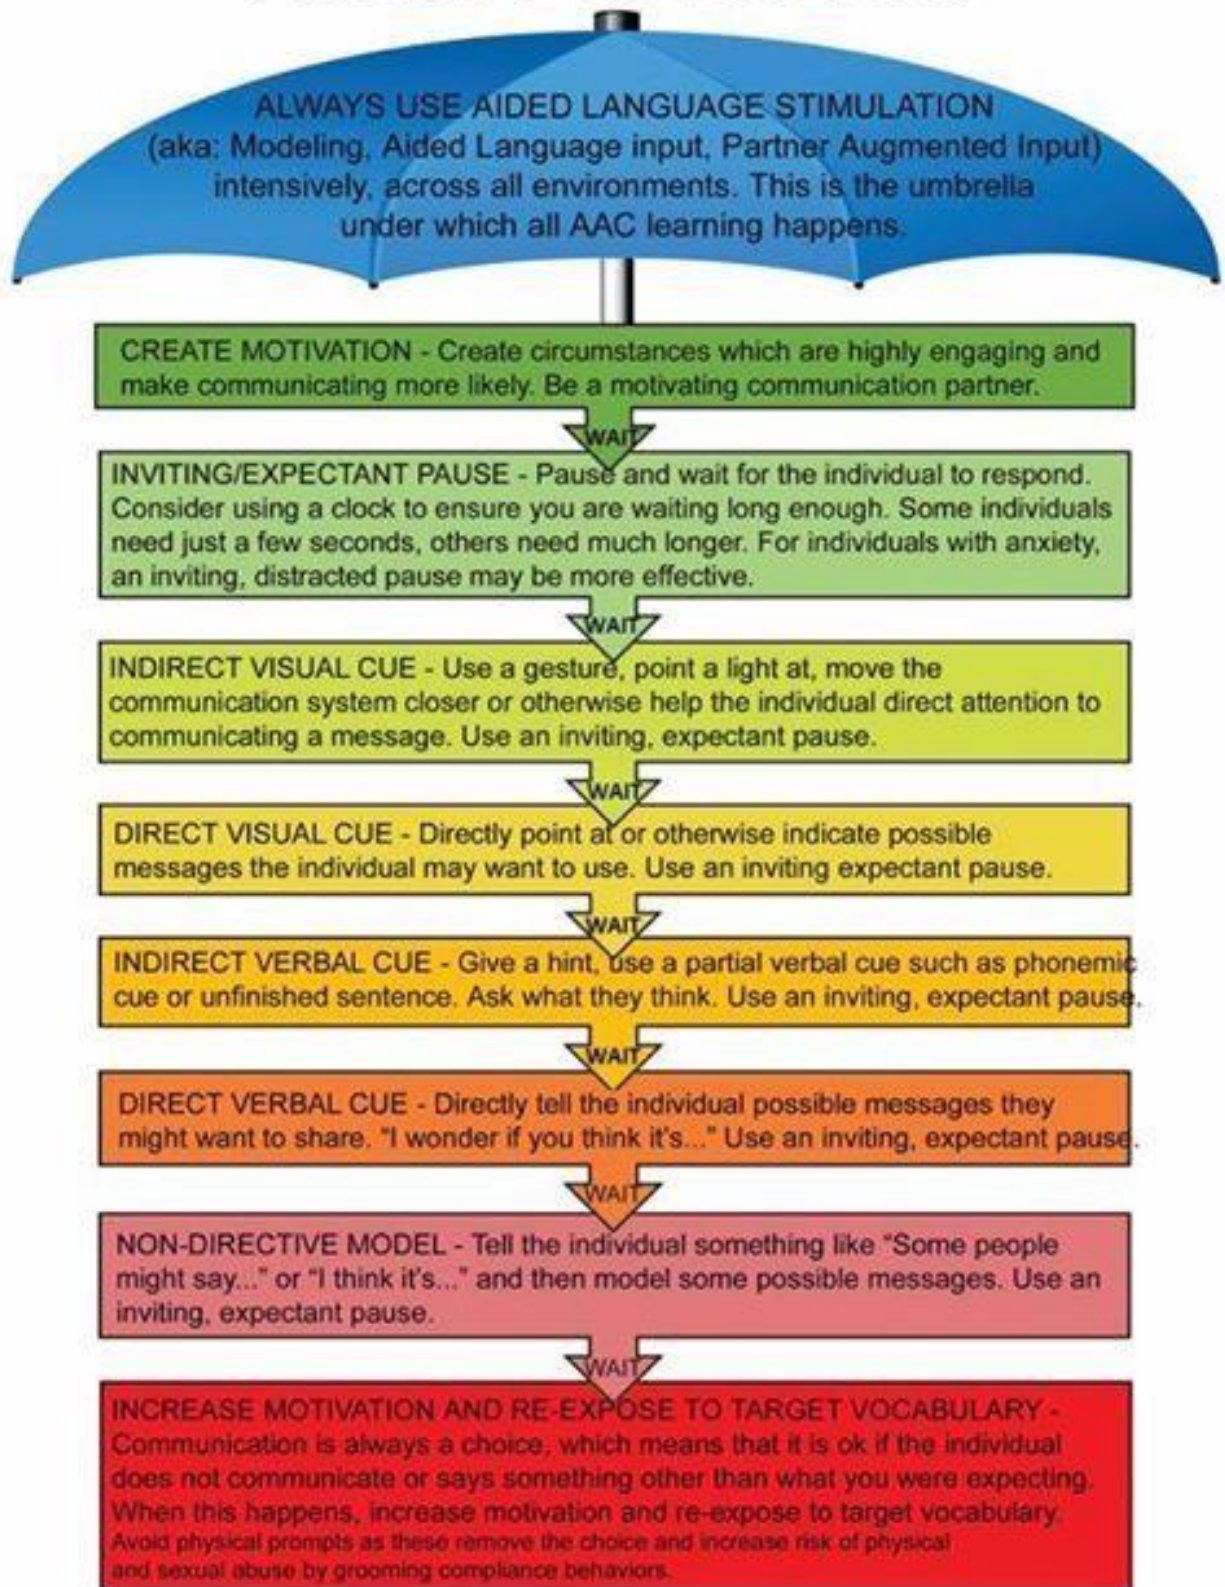

Use Doing Words:		Avoid Slippery Words:
Add	Pours	Apply
Answers	Puts on /Takes Off	Appreciate
Circle	Reaches	Be able to
Classify	Remains	Believes
Complete	Removes	Communicate
Copies	Seeks	Comprehends
Counts	Selects	Demonstrates
Cuts	Sign	Enjoy
Draw	Sing	Grasp/Understand
Gives	Smile	Identify
Groups	Sort	Increases
Initiates	State	Know
Jumps	Touch	Maintains
List	Type	Manipulates
Locates	Underline	Participates
Looks	Walk	Realizes
Names	Write	Recognize
Paint	Zips	Solve
Perform		Tolerate
Pick up		Tries/Attempts
Places		Uses
Point to		Value

Slippery words can be used if the author of the G-O-B describes “how” – how will the student manipulate, how will they participate, etc.

Observable	Not Observable
Matching author to book title	Appreciating art
Reading orally	Enjoying literature
Constructing a timeline	Understanding history
Dressing one’s self	Becoming independent
Speaking to adults without vulgarities	Respecting authority
Pointing, drawing, writing, etc	Improving, feeling, knowing

PROMPT HIERARCHY

(C) Kate Ahern, M.S.Ed 2016 with Shelane Nielsen

AAC Goal Framework

DATE: _____

GOAL: _____ will improve his/her ☐ Linguistic ☐ Operational ☐ Social ☐ Strategic skills as they relate to use of his/her AAC system, in order to become a more competent communicator.

		OBJECTIVES	
		1)	2)
GOAL ATTAINMENT SCALE	LEVEL 5: BEST EXPECTED		
	LEVEL 4: MORE THAN EXPECTED		
	LEVEL 3: EXPECTED** (GOAL MET)		
	LEVEL 2: LESS THAN EXPECTED		
	LEVEL 1: BASELINE		

**Goal met when EXPECTED LEVEL is reached. EXPECTED LEVEL to be reached by _____ (date).

Strategic Competency: A Brainstorming Tool

Environmental Barriers and Strategies	Comments
<ul style="list-style-type: none"> <input type="checkbox"/> Uses strategies to be able to use device during loud/noisy environments <input type="checkbox"/> Uses strategies to use device while talking on the phone/texting <input type="checkbox"/> Uses device outside or during water activities <ul style="list-style-type: none"> <input type="checkbox"/> Request and/or use low-tech board <input type="checkbox"/> Request/learn to clean device 	
Social Barriers and Strategies	Comments
<ul style="list-style-type: none"> <input type="checkbox"/> Repeats message when misunderstood <input type="checkbox"/> Ask communication partner to slow down to allow time for message formulation <input type="checkbox"/> Uses introductory message that explains communication method <input type="checkbox"/> Gains attention of communication partner 	
Linguistic Barriers and Strategies	Comments
<ul style="list-style-type: none"> <input type="checkbox"/> Use word prediction for words not in vocabulary <input type="checkbox"/> Uses 'save message' or 'notebook' to save long messages in advance <input type="checkbox"/> Use pre-programmed message to repair breakdown <input type="checkbox"/> Uses 'help' when need immediate assistance <input type="checkbox"/> New word added to vocabulary or request made for new word added to vocabulary 	
Operational Barriers and Strategies	Comments
<ul style="list-style-type: none"> <input type="checkbox"/> Use low-tech board to identify issue with the device <input type="checkbox"/> Use of alternative means of communication when necessary <input type="checkbox"/> Indicate mistake on device (i.e. oops!) 	

This is not a comprehensive or hierarchical list. All examples are suggestions and should be modified appropriately for individual needs.

CHARGE DEVICE	COMMENTS
<input type="checkbox"/> Use battery status button/Aware of battery status <input type="checkbox"/> Indicate that device needs to be charged <input type="checkbox"/> Participate in charging process (e.g., plug in device, bring device to a "charging station").	
ADJUST VOLUME	
<input type="checkbox"/> Locate & use volume control within device or volume buttons <input type="checkbox"/> Adjust volume based on a natural cue (e.g., "I can't hear you") or a direct prompt (e.g., "Turn it down/up.") <input type="checkbox"/> Adjust volume based on the environment (e.g., library)	
UTILIZE DYNAMIC DISPLAY	
<input type="checkbox"/> Navigate to or away from a vocabulary page <input type="checkbox"/> Use "lock page" button to stay on a page <input type="checkbox"/> Navigate to more vocabulary using the "next" or "more" arrow <input type="checkbox"/> Using punctuation <input type="checkbox"/> Clear message from SDB <input type="checkbox"/> Delete a single word or letter from the SDB	
CUSTOMIZE DEVICE/ADD VOCABULARY	
<input type="checkbox"/> Identify when you can't find a word (e.g., "help me") <input type="checkbox"/> Indicate word is not on device (e.g., "not here") <input type="checkbox"/> Request a word be added to the device. <input type="checkbox"/> Use "Word Finder" feature to locate new words <input type="checkbox"/> Participate in customizing device	
ACCESS DEVICE	
<input type="checkbox"/> Wake up and/or turn on device <input type="checkbox"/> Position device and/or set the kickstand to use device. <input type="checkbox"/> Open correct App <input type="checkbox"/> Adjust for lighting <input type="checkbox"/> Get device out. Carry device around environment. <input type="checkbox"/> Instruct others on where/how to get or mount device <input type="checkbox"/> Increase skills related to accessing device (e.g., direct selection, eye tracking, head tracking, switch scanning)	

This is not a comprehensive or hierarchical list. All examples are suggestions and should be modified appropriately for individual needs.

DATE: _____

GOAL _____ will improve his/her Linguistic Operational Social Strategic
:

skills as they relate to use of his/her AAC system, in order to become a more competent communicator.

OBJECTIVES		
	1)	2)
LEVEL 5: BEST EXPECTED		
LEVEL 4: MORE THAN EXPECTED		
LEVEL 3: EXPECTED** (GOAL MET)		
LEVEL 2: LESS THAN EXPECTED		
LEVEL 1: BASELINE
